Making Of Eu Foreign Policy:

The Everyday Making of EU Foreign and Security Policy Bremberg, Niklas, Danielson, August, Hedling, Elsa, Michalski, Anna, 2022-02-18 This is an open access title available under the terms of a CC BY NC ND 4.0 License It is free to read download and share on Elgaronline.com This cutting edge book explores the practices and socialization of the everyday foreign policy making in the European Union EU focusing on the individuals who shape and implement the Common Foreign and Security Policy despite a growing dissension among member states *Making EU Foreign Policy* Daniel C. Thomas, 2011-05-03 A novel explanation of how EU member states overcome their divergent preferences to reach agreement on common foreign policies with fourteen in depth case studies covering diplomatic and security issues enlargement trade development and environmental protection *The Making of EU Foreign Policy* Karen E. Smith, 1998-11-11 This book argues that there has been a common European Union EU foreign policy towards six countries of Eastern Europe Bulgaria Czech Republic Hungary Poland Romania Slovakia and analyses why the EU has agreed to the policy The objective of the EU's policy is to support the transformation of Eastern Europe and thus ensure security and stability The most important instrument that the EU has used to reach this objective has been the prospect of enlargement Theories of the Making of European Union Foreign Policy Jan-Henrik Petermann, 2011-11-21 Essay from the year 2005 in the subject Politics Topic European Union London School of Economics Department of International Relations language English abstract In spite of the growing empirical significance of the European Union EU as a soft power scholars of International Relations IR have found it difficult to identify a single theoretical framework to explain the making of European Foreign Policy EFP The reasons for this apparent failure of rigorous theory building may be twofold On the one hand there is still much debate about what the EU the ontological object of inquiry actually is On the other hand many authors have taken a self critical attitude towards their own discipline emphasising that there is still a multiplicity of convictions as to how we can best theorise EFP Though detailed analyses of the specific pattern of the EU's external relations have indeed been marginalised for a long time it seems plausible to trace this lack of theoretical coherence back to the nature of EFP itself It is often argued that the EU is a political system sui generis a complex structure that is neither a state nor a non state actor and neither a conventional international organization nor an international regime In a similar vein some observers assert that the EU might most suitably be characterised as a hybrid political sphere that does not easily lend itself to classical Foreign Policy Analysis FPA In fact the major IR perspectives on EU foreign policy making neorealist neoliberal and constructivist appear to be largely incompatible in this respect Within each framework certain claims are made which effectively rule out or downgrade the validity and reliability of key premises in rival approaches Therefore the central question posed in this essay is Which theory best explains the making of EU foreign policy And if there is no single theoretical paradigm might there be any potential for an analytical synthesis in order to understand the particular features of EFP more appropriately To answer these questions I will

first describe the main views on the development of EFP represented by the above mentioned approaches within the broader context of theorising European integration Secondly I will outline in how far the EU s peculiar nature as a system of multi level decision making can be regarded as a core empirical challenge to the concepts of conventional FPA I will conclude that different theoretical schemes ought to be applied to different issue areas of foreign policy making in a more selective manner if the complex processes of EFP are to be fully understood

The Foreign Policy of the European Union Stephan Keukeleire, Tom Delreux, 2022-02-10 Keukeleire and Delreux demonstrate the scope and diversity of the European Union s foreign policy showing that EU foreign policy is broader than the Common Foreign and Security Policy and the Common Security and Defence Policy and that areas such as trade development environment and energy are inextricable elements of it This book offers a comprehensive and critical account of the EU s key foreign relations with its neighbourhood with the US China and Russia and with emerged powers and argues that the EU s foreign policy needs to be understood not only as a response to crises and conflicts but also as a means of shaping international structures and influencing long term processes This third edition reflects recent changes and trends in EU foreign policy as well as the international context in which it operates addressing issues such as the increasingly contested international order the conflict in Ukraine the migration and refugee crisis Brexit and Covid 19 The book not only clarifies the formal procedures in EU foreign policy making but also elucidates how it works in practice The third edition includes new sections and boxes on strategic autonomy European arms exports the EU s external representation the Brussels Effect and decentring and gender approaches to EU foreign policy Up to date jargon free and supported by its own website eufp eu this systematic and innovative appraisal of this key policy area is suitable for undergraduate and postgraduate students as well as practitioners

The Formulation of EU Foreign Policy Nicola Chelotti, 2016-01-22 EU foreign and defence policy is largely formulated in the working parties and committees of the Council of the EU and the vast majority of decisions in this field are made by the national diplomats working in the around 35 groups of the CFSP CSDP Although the importance of these committees and their participants has been increasingly recognised we still know relatively little about them Using an original database of 138 questionnaires and 37 interviews this book addresses this lack of knowledge studying what these committees do and how they negotiate and resolve issues It explores three key areas the formulation of the national position the identity of CFSP CSDP policy makers negotiation practices and outputs In doing so it provides an innovative observation point from which EU foreign policy can be analysed This book will be of key interest to scholars and students of EU foreign and defence policy external relations of the EU European integration and politics diplomacy and more broadly international relations

Foreign Policy in the European Union Ben Soetendorp, 2014-06-11 Ben Soetendorp examines the extent to which individual member states each with their own history special interests and styles of foreign policy making still dominate the common foreign policy making process within the European Union The first part of the book reviews the diverse foreign policy patterns of the individual member

states towards European integration describes the various styles of foreign policy and examines the institutional arrangements for joint foreign policy making created by the member states at EU level The second part looks more closely at the reality of foreign policy making in a number of case studies focusing on the diplomatic military and economic dimensions of European Union s foreign policy This structure and approach enable s the reader to understand the reality of European foreign policy making to comprehend the relationship between the foreign policies of the member states of the EU and the foreign policy of the EU as a whole and to make a judgement as to the likely scenarios for the future Foreign Policy in the European Union is an important and accessible addition to the textbook literature on European integration that will be essential reading for undergraduate and Masters level courses on European integration within politics international relations European Studies and history degrees

New Approaches to EU Foreign Policy Maciej Wilga,Ireneusz Pawel Karolewski,2014-06-05 EU foreign policy once existed in the form of the European Political Cooperation with only a limited political leverage and symbolic institutional underpinnings In recent years rapid changes have occurred including an expanding institutional apparatus increased responsibility and growing demand for action This book examines new approaches to the EU s foreign policy that address its rapidly changing character presenting the newest theoretical perspectives and dealing with novel empirical developments Rather than simply considering structural variations and changes in the agency of the EU it explores the new complexity in EU foreign policy The authors offer new theoretical perspectives and new empirical studies dealing among others with issues such as Power delegation to the Commission EU diplomacy Parliamentarisation and constitutionalisation Committees involvement in foreign policy process This book will be of interest to students and scholars of European politics European foreign policy and European integration

The European Union and China May-Britt U. Stumbaum,2009 With a focus on China this dissertation analyzes the influence of interest groups as well as the decision making procedures on the national and the European level on EU trade and security policy As the emerging power of the 21st century China challenges the Europeans economically politically and ideologically in their very identity How does the European Union react to this challenge Who decides what kind of policy the EU will adopt towards China Which roles do business interests the media or the US play Based on rational choice and a multi level approach this process analysis focuses on decisions made during the 2003 2005 arms embargo debate and the textile dispute regarding decisions as building blocks for policy The analysis concludes with concrete policy recommendations for a successful and farsighted EU policy towards the People s Republic of China The book provides an insight for academics as well as for decision makers from business and politics on how decisions in European foreign and security policy are influenced and turned into policy particularly towards China Dissertation

Routledge Handbook on the European Union and International Institutions Knud Erik Jørgensen,Katie Verlin Laatikainen,2013 This Handbook addresses the increasingly contested issue of profound political importance Europe s presence in multilateral institutions It assesses both the evolving

role of Europe in international institutions and the transformations in international institutions themselves
