Algebras ,1995-02-28 The most important single thing about this conference was that it brought together for the first time
representatives of all major groups of users of hypergroups They talked to each other about how they were using
hypergroups in fields as diverse as special functions probability theory representation theory measure algebras Hopf
algebras and Hecke algebras This led to fireworks from the Introduction Hypergroups occur in a wide variety of contexts and
mathematicians the world over have been discovering this same mathematical structure hidden in very different applications
The diverse viewpoints on the subject have led to the need for a common perspective if not a common theory Presenting the
