Spanish Grammar Thérèse U. Grisewood, 2025-04-17 How important is Spanish? More than 500 million people in forty-four countries worldwide speak Spanish. It is one of the official languages of the United Nations and other international organizations, including the European Union and the African Union. Spanish is called *el Castellano* in Spain. Spanish is widely used in Latin America, the United States, and other world regions. Being bilingual makes you smarter and has obvious practical benefits in an increasingly global world. This *Spanish Grammar* is for you if you are serious about learning Spanish. You will learn the basics of grammar and how to use and conjugate verbs. I recommend that you study the Mini Dialogues and the vocabulary before you attempt the included exercises. The Revision chapter demonstrates in summary form how to conjugate verbs in each tense. The answers to all exercises are included in the last chapter. Short notes on points of interest on Spanish and Hispanic culture have also been added.
