The 1963 Operation Coldstore in Singapore Poh Soo Kai, Tan Kok Fang, Hong Lysa, Operation Coldstore remains the most contentious event in the history of postcolonial Singapore Despite attempts by the state to silence ex detainees by warning that they would not be permitted to rewrite the state's official version of history the authors in this volume have done just that They have placed on record their own perspective of events The autobiographical element in the narratives brings to life what these individuals went through as left wing political actors who responded to the call of anti colonialism and the challenge of shaping a new society Their accounts of life in prison are a sober reminder of the deprivations and tortures inflicted to break their spirit These stirring accounts are supplemented by academic contributions that provide contextual depth to the historical events and a critique of history writing in Singapore

campaigns main contentions with the government survival strategies and other untold stories in Singapore's first 50 years of state building

Freedom from the Press Cherian George, 2012-04-01 For several decades the city state of Singapore has been an international anomaly combining an advanced open economy with restrictions on civil liberties and press freedom. Freedom from the Press analyses the republic's media system showing how it has been structured like the rest of the political framework to provide maximum freedom of manoeuvre for the People's Action Party (PAP) government. Cherian George assessed why the PAP's freedom from the press model has lasted longer than many other authoritarian systems. He suggests that one key factor has been the PAP's recognition that market forces could be harnessed as a way to tame journalism. Another counter-intuitive strategy is its self-restraint in the use of force progressively turning to subtler means of control that are less prone to backfire. The PAP has also remained open to internal reform even as it tries to insulate itself from political competition. Thus although increasingly challenged by dissenting views disseminated through the internet, the PAP has so far managed to consolidate its soft authoritarian hegemonic form of electoral democracy. Given Singapore's unique place on the world map of press freedom and democracy, this book not only provides a constructive engagement with ongoing debates about the city state but also makes a significant contribution to the comparative study of journalism and politics.

The Rule of Law in Singapore Li-ann Thio, 2025-01-09 This book examines the operation of the rule of law in the non-liberal democracy of Singapore. The rule of law in Singapore has been both lauded for anchoring efficient and effective government and lambasted for being procedural and statist. 21st century Singapore has experienced modest political liberalisation manifesting a paternal democracy where the governor-governed relationship is evolving from a father-knows-best paternalistic mindset to a more consultative approach to governance where dialogue rather than diktat is the norm in a post-deferential era. The Singapore case study helps pluralise the rule of law as a universal principle which moderates power and may be variously implemented. The book examines the reception of the rule of law within the Singapore legal order and how it interacts with constitutional principles like the separation of powers and democracy in the design of constitutional institutions and forging of structural and rights-oriented judicial review. It considers how the rule of law contoured by legal communitarianism sustains a managed democracy in relation to legislation governing internal security, public assemblies, religious harmony and online falsehoods. It questions whether the chilling of political speech by strict laws on political defamation and contempt of court has been significantly defrosted by important developments which seek ordered liberty through a more calibrated form of review. Lucid and engaging, this book will be of interest to researchers working in constitutional law.

Contentious Journalism and the Internet Cherian George, 2006 This nuanced work draws on social movement studies to challenge current understandings of the relationship between media and the internet. The book's lively style will make it relevant for anyone interested in politics and media in Malaysia and Singapore.

The Media, Cultural Control and Government in Singapore Terence Lee, 2010-05-06 This book explores this inherent contradiction present in most

facets of Singaporean media cultural and political discourses and identifies the key regulatory strategies and technologies that the ruling People Action Party PAP employs to regulate Singapore media and culture and thus govern the thoughts and conduct of Singaporeans It establishes the conceptual links between government and the practice of cultural policy arguing that contemporary cultural policy in Singapore has been designed to shape citizens into accepting and participating in the rationales of government Outlining the historical development of cultural policy including the recent expansion of cultural regulatory and administrative practices into the creative industries Terence Lee analyzes the attempts by the Singaporean authorities to engage with civil society the ways in which the media is used to market the PAP's policies and leadership and the implications of the internet for the practice of governmental control Overall *The Media Cultural Control and Government in Singapore* offers an original approach towards the rethinking of the relationship between media culture and politics in Singapore demonstrating that the many contradictory discourses around Singapore only make sense once the politics and government of the media and culture are understood *Reconfiguring East Asia* Mark Beeson, 2014-04-23 Focuses both on specific regional organizations like ASEAN The Asian Development Bank and APEC as well as on key institutions such as East Asian legal systems the media organized labour Asian business systems and the developmental state **The Routledge Handbook of Nationalism in East and Southeast Asia** Lu Zhouxiang, 2023-07-31 This handbook presents a comprehensive survey of the formation and transformation of nationalism in 15 East and Southeast Asian countries Written by a team of international scholars from different backgrounds and disciplines this volume offers new perspectives on studying Asian history society culture and politics and provides readers with a unique lens through which to better contextualise and understand the relationships between countries within East and Southeast Asia and between Asia and the world It highlights the latest developments in the field and contributes to our knowledge and understanding of nationalism and nation building Comprehensive and clearly written this book examines a diverse set of topics that include theoretical considerations on nationalism and internationalism the formation of nationalism and national identity in the colonial and postcolonial eras the relationships between traditional culture religion ethnicity education gender technology sport and nationalism the influence of popular culture on nationalism and politics policy and national identity It illustrates how nationalism helped to draw the borders between the nations of East and Southeast Asia and how it is re-emerging in the twenty-first century to shape the region and the world into the future *The Routledge Handbook of Nationalism in East and Southeast Asia* is essential reading for those interested in and studying Asian history Social and Cultural history and modern history *Constructing Identity in Contemporary Architecture* Peter Herrle, Stephanus Schmitz, 2009 The global spread of uniform modes of production and cultural values has been accompanied by a dissemination of stereotypes of modern architecture styles almost everywhere around the globe Paradoxically the reverse process has also emerged In some countries the elites feel the necessity to counterbalance the loss of identity and defend their own cultures against the

intruding forces of globalization What started as a defensive notion has developed into a more progressive attempt to re create what has allegedly been lost This trend is being strongly expressed in discourses about architecture in countries of the South Who are the actors feeling compelled to construct new identities How are these new identities in architecture created in various parts of the world And which are the ingredients borrowed from various historical and ethnic traditions and other sources These and other questions are discussed in five case studies from different parts of the world written by renowned scholars from Brazil Mexico Egypt India and Singapore

Asian Ethical Urbanism: A Radical Postmodern Perspective

William Siew Wai Lim, 2005-07-15 With the impending demise of modernist planning the footprints and corpses of failed modernist visions are littered everywhere A vacuum of implementable urban theories has occurred at the time when unprecedented expansion and restructuring of cities in rapidly developing economies are taking place In this collection of essays William S W Lim zeroes in on the peculiarities and dynamics of present Asian urban and architectural conditions in order to challenge and transcend the socio ecological forms and political influences generated by the current system of global capitalism Part I of this book consists of the main essay which attempts to establish baselines for an effective formulation of ethical urbanism in Asia by clarifying issues that have previously been unquestioningly bound up with Western values and discourses As an architect urbanist Lim lends a determinedly spatialist and environmental perspective to issues such as rights ethics happiness and social justice while compelling his readers to rethink previously established notions about them Part II of this book consists of three city studies on Hanoi Shanghai and Singapore completed in the last two years which attempt to match Lim s theoretical formulation with actual conditions occurring in Asia today Also included is Asian Architecture in the New Millennium a fascinating discourse on contemporary design conducted from a postmodern perspective

Transparency and Authoritarian Rule in Southeast Asia Garry Rodan, 2004-08-02 In Transparency and Authoritarian Rule in Southeast Asia Rodan rejects the notion that the 1997 98 Asian economic crisis was further evidence that ultimately capitalism can only develop within liberal social and political institutions and that new technology necessarily undermines authoritarian control Instead Rodan argues that in Singapore and Malaysia external pressures for transparency reform were and are in many respects being met without serious compromise to authoritarian rule or the sanctioning of media freedom

The First Wave Loke Hoe Yeong, 2019-09-30 Based on extensive interviews and archival material *The First Wave* tells the story of the opposition in Singapore in its critical first thirty years in Parliament Democratisation has been described to occur in waves The first wave of a democratic awakening in post independence Singapore began with J B Jeyaretnam s victory in the Anson by election of 1981 That built up to the 1984 general election the first of many to be called a watershed in which Chiam See Tong was also elected in Potong Pasir After their successes in 1991 the opposition began dreaming of forming the government But their euphoria was short lived Serious fault lines in the leading Singapore Democratic Party SDP rose to the surface almost immediately after the opposition victories of 1991 and the party was wiped

out of Parliament by 1997 The opposition spent the next decade experimenting with coalition arrangements to work their way back to victory

Human Rights in Asia D. Kingsbury, 2008-09-29 This book offers a critical reassessment of the Asian values debate which dominated the human rights discourse in the late 1990s and a reappraisal of the human rights situation in Asia since then The chapters in this book contextualize the debate and examine in what ways the issues raised then continue to trouble Asian societies

Political Leadership in an Era of Decolonisation Malcolm Murfett, 2023-11-10 What is leadership and why is it so important In what ways does it look very different in different contexts and in what ways does it look the same Malcolm Murfett brings together a range of emerging and established scholars to examine these questions in light of some of the mid twentieth century s most intriguing national leaders In a series of striking biographical chapters lessons are drawn from the apartheid era in South Africa Lee s remarkable socio economic transformation of Singapore Castro s revolutionary overhauling of Cuba and the playing out of Bandaranaike s populist agenda in Sri Lanka The book illuminates what Brezhnev and Nixon were looking for in the Cold War and what happened when the people turned against Nyerere in Tanzania the Shah in Iran and Ceau escu in Romania These case studies address what leadership meant for the individuals whose record in power is being examined These are not idealised portraits of how to do leadership but warts and all portrayals of exceptional individuals who scrabbled their way to the top and stayed there for several years during a period of great change Business schools have long studied the theoretical axioms of corporate leadership What this book does however is to move beyond the theory into the practical realm of politics and statecraft This is a fascinating book on leadership that will be of interest for students researchers and practitioners studying leadership in business and politics as well as for students of global history decolonisation and the Cold War

Paths Not Taken Michael D. Barr, Carl A. Trocki, 2008 This title will remind older Singaporeans of ages from their past while providing a younger generation with a novel perspective of their country s past struggles It reveals a complex situation which gives weight to the middle years of the 20th century as a period that offered real alternatives

Authoritarian Rule of Law Jothie Rajah, 2012-04-16 Scholars have generally assumed that authoritarianism and rule of law are mutually incompatible Convinced that free markets and rule of law must tip authoritarian societies in a liberal direction nearly all studies of law and contemporary politics have neglected that improbable coupling authoritarian rule of law Through a focus on Singapore this book presents an analysis of authoritarian legalism It shows how prosperity public discourse and a rigorous observance of legal procedure have enabled a reconfigured rule of law such that liberal form encases illiberal content Institutions and process at the bedrock of rule of law and liberal democracy become tools to constrain dissent while augmenting discretionary political power even as the national and international legitimacy of the state is secured This book offers a valuable and original contribution to understanding the complexities of law language and legitimacy in our time
