Public Rape Representations Of Violation In Fiction And Film:

Women, Violence, and the Media Drew Humphries, 2009-04-15 Provocative collection of essays designed to give students an understanding of media representations of women's experience of violence and to educate a new generation to recognize and critique media images of women

Public Rape Tanya Horeck, 2004 Second wave feminism fought to end the blanket silence shrouding rape and bring it to public attention Now feminist critics must confront a different issue In *Public Rape* Tanya Horeck considers the public investment in images of rape and the figure of the raped woman Introducing the idea of public rape Horeck looks at how images of rape serve as cultural fantasies of sexual racial and class difference Looking at rape in real life as well as in literature and films such as *The Accused* and *Boys Don't Cry* Horeck reveals how representations of rape raise vital questions about the relationship between reality and fantasy and between violence and spectacle

The Flesh in the Text Thomas Baldwin, James E. Fowler, Shane Weller, 2007 The impetus behind this collection of essays was a curiosity shared by the editors concerning the relation between the flesh and the text in French and francophone literature This subject is explored here in readings of works by among others Rabelais Diderot Sade Proust Beckett Djbar Nothomb Delvig and Nabokov

The Representation of Genocide in Graphic Novels Laurike in 't Veld, 2018-12-19 This book mobilises the concept of kitsch to investigate the tensions around the representation of genocide in international graphic novels that focus on the Holocaust and the genocides in Armenia Rwanda and Bosnia In response to the predominantly negative readings of kitsch as meaningless or inappropriate this book offers a fresh approach that considers how some of the kitsch strategies employed in these works facilitate an affective interaction with the genocide narrative These productive strategies include the use of the visual metaphors of the animal and the doll figure and the explicit and excessive depictions of mass violence The book also analyses where kitsch still produces problems as it critically examines depictions of perpetrators and the visual and verbal representations of sexual violence Furthermore it explores how graphic novels employ anti kitsch strategies to avoid the dangers of excess in dealing with genocide

The Representation of Genocide in Graphic Novels will appeal to those working in comics graphic novel studies popular culture studies and Holocaust and genocide studies

Cinematic Representations of Alzheimer's Disease Raquel Medina, 2018-08-09 This book offers a cross cultural approach to cinematic representations of Alzheimer's disease in non mainstream cinema Even though Alzheimer's disease the most common form of dementia is a global health issue it is not perceived or represented homogeneously around the world Contrary to very well known mainstream films the films discussed do not focus on the negative aspects normally associated with Alzheimer's disease but on the importance of portraying the perspective of the persons living with Alzheimer's and their personhood Similarly this book analyses how the films use Alzheimer's as a trope to address issues relating to different areas of life and society such as for example family matters intergenerational relationships gender issues national traditions versus global modernity and caring for people with dementia By examining an

array of films from crime fiction to documentary that each present non stigmatising representations of Alzheimer's disease this in depth study ultimately demonstrates the power of culture in shaping meaning **Representing Kink** Sara K.

Howe, Susan E. Cook, 2019-09-06 *Representing Kink* raises awareness about non normative texts and non normative erotic practices and desires It defines kink broadly encompassing a range of inappropriate texts and understanding it in frequent reference to non normative erotic fantasies and experiences Kink is treated as both a set of practices as well as a category of texts at the nexus of subject and form In addition to canonical texts that take up erotic and marginalized themes the collection also studies forms that are themselves fringe and feature kink taboo literature self published erotica SM narratives fan fiction role playing games and other disavowed texts The purpose of this study is to focus attention on the margins of an already marginalized subject in order to highlight the extent to which non normative textuality and eroticism both shape and are shaped by culture and context It sheds light on a category of subjects that is at once mainstream in the form of texts such as *Fifty Shades of Grey* and yet nevertheless repeatedly disparaged and undertheorized This book advocates for conversations about kinky texts that transcend dichotomous frameworks of good and bad and normal and deviant thinking instead in new theoretically rigorous and flexible directions **Local Violence, Global Media** Lisa M. Cuklanz, Sujata

Moorti, 2009 This series publishes critical scholarship that seeks to engage and transcend the disciplinary isolationism and genre confinement that now characterize so much of contemporary research in communication studies and related fields It focuses on studies that address the broad intersections and hybrid trajectories that define the encounters between human groups in modern institutions and societies and the way these intersections are represented in contemporary popular cultural forms of knowledge *Han Heroes and Yamato Warriors* Amanda Weiss, 2023-08-21 Taking the tidal wave of memory in the late twentieth and early twenty first century as its starting point this monograph explores collective memory of World War II in East Asia 1937 1945 through film Weiss argues that Chinese Japanese and American remembrance of World War II is intertwined in what she terms a memory loop the transnational mediation and remediation of war narratives Gender is central to this process as the changing representation of male soldiers political leaders and patriarchal father figures within these narratives reveals Japanese and Chinese challenges to each other and to the perceived foundational American narrative of the war This process continues to intensify due to the globally visible nature of the memory loop which drives this cycle of transmission translation and reassessment This volume is the first to bring together a collection of Chinese and Japanese war films that have received little attention in English language literature It also produces new readings of popular war memory in East Asia by revealing the gendered dimensions of collective remembrance in these films This awesome book shows how Chinese and Japanese films about the Second World War both reflect and shape memories of that conflict Moreover by analyzing movies about the war and the ensuing competing masculinities Amanda Weiss skillfully discloses their impact on subsequent conceptions of race gender and identity Highly recommended Kam Louie University of Hong Kong Amanda Weiss

who views film as a significant mode of popular memory traveling beyond national border discovers a loop of mutual interaction in the representation of Chinese and Japanese war films deeply intertwined with the nationalism of both countries Her skill in capturing the intersection of cross border memories in visual images such as the Tokyo Trials warrior rape and reconciliation is remarkable This is a transcendent achievement that could only be accomplished by Weiss who fully understands both Japanese and Chinese languages and deeply understands the movements of consciousness among the people of these countries during her long stay in Japan and China Shunya Yoshimi University of Tokyo 1980

Representing Acts of Violence in Comics Nina Mickwitz,Ian Horton,Ian Hague,2019-08-01 This book is part of a nuanced two volume examination of the ways in which violence in comics is presented in different texts genres cultures and contexts Representing Acts of Violence in Comics raises questions about depiction and the act of showing violence and discusses the ways in which individual moments of violence develop and are both represented and embodied in comics and graphic novels Contributors consider the impact of gendered and sexual violence and examine the ways in which violent acts can be rendered palatable for example through humour but also how comics can represent trauma and long lasting repercussions for both perpetrators and victims This will be a key text and essential reference for scholars and students at all levels in Comics Studies and Cultural and Media Studies more generally **The Scene of Violence** Alison

Young,2009-12-04 A crucial question in the analysis of legal practices concerns the processes of identification with in and as law a question of how and by what route law achieves its ends While it is conventional to interpret the practices of law through the institutional sources of the legal tradition The Scene of Violence considers how law and legal practices figure in the cultural field and specifically in film
