The Rhetorical Functions of Scriptural Quotations in Romans Katja Kujanpää, 2018-10-02 Quotations from Jewish scriptures play a crucial role in the Letter to the Romans The Rhetorical Functions of Scriptural Quotations in Romans explores their rhetorical functions in Paul's argumentation It offers a careful text critical analysis of the 51 quotations in Romans and asks questions such as does Paul quote accurately according to a wording known to him or does he adapt it himself Moreover to what extent does Paul strive to preserve the sense that the quoted words have in their original context Katja Kujanpää's approach of combining rhetorical matters with close textual study results in a more comprehensive picture of quotations in Romans than has been previously seen Thus the book opens new perspectives on Paul's argumentation rhetoric and theological agenda

Interpreting Straw Man Argumentation Fabrizio Macagno, Douglas Walton, 2017-09-06 This book shows how research in linguistic pragmatics philosophy of language and rhetoric can be connected through argumentation to analyze a recognizably common strategy used in political and everyday conversation namely the distortion of another's words in an argumentative exchange Straw man argumentation refers to the modification of a position by misquoting misreporting or wrenching the original speaker's statements from their context in order to attack

them more easily or more effectively Through 63 examples taken from different contexts including political and forensic discourses and dialogs and 20 legal cases the book analyzes the explicit and implicit types of straw man shows how to assess the correctness of a quote or a report and illustrates the arguments that can be used for supporting an interpretation and defending against a distortion The tools of argumentation theory a discipline aimed at investigating the uses of arguments by combining insights from pragmatics logic and communication are applied to provide an original account of interpretation and reporting and to describe and illustrate tactics and procedures that can be used and implemented for practical purposes This book will appeal to scholars in the fields of political communication communication in general argumentation theory rhetoric and pragmatics as well as to people working in public speech speech writing and discourse analysis **A Sea of**
