Puzzles Problems And Enigmas Occasional Pieces On The Human Aspects Of Science:

Puzzles, Problems, and Enigmas John M. Ziman, 2010-02-25 Philosophical puzzles political problems ethical enigmas science has them all Do some theories stink Is research a gentlemanly art or a tough professional game What happens to scientists who go gaga Can scientific knowledge be treated as a commercial commodity How can research be made relevant to national development Is war good for physics What should scientists do about Soviet dissidents How does information become knowledge Why bother about examinations These and many other topics on the human side of science are discussed in this wide ranging book originally published in 1981 As an experienced theoretical physicist Professor Ziman speaks about science from the inside As a long time advocate of social responsibility in science technology and education he looks critically into science from the outside He exposes for the layman with wit and nerve some of the most challenging issues of the time

The Age of Questions Holly Case, 2018-07-10 A groundbreaking history of the Big Questions that dominated the nineteenth century In the early nineteenth century a new age began the age of questions In the Eastern and Belgian questions as much as in the slavery worker social woman and Jewish questions contemporaries saw not interrogatives to be answered but problems to be solved Alexis de Tocqueville Victor Hugo Karl Marx Frederick Douglass Fyodor Dostoevsky Rosa Luxemburg and Adolf Hitler were among the many who put their pens to the task The Age of Questions asks how the question form arose what trajectory it followed and why it provoked such feverish excitement for over a century Was there a family resemblance between questions Have they disappeared or are they on the rise again in our time In this pioneering book Holly Case undertakes a stunningly original analysis presenting chapter by chapter seven distinct arguments and frameworks for understanding the age She considers whether it was marked by a progressive quest for emancipation of women slaves Jews laborers and others a steady inexorable march toward genocide and the Final Solution or a movement toward federation and the dissolution of boundaries Or was it simply a farce a false frenzy dreamed up by publicists eager to sell subscriptions As the arguments clash patterns emerge and sharpen until the age reveals its full and peculiar nature Turning convention on its head with meticulous and astonishingly broad scholarship The Age of Questions illuminates how patterns of thinking move history

Of One Mind John Ziman, 1997-05-08 This superb collection by the eminent physicist and critic John Ziman opens with an album of portraits of scientists Albert Einstein Freeman Dyson Lev Landau Mark Azbel Andrei Sakharov Ziman takes readers into the world of the contemporary scientist showing how discoveries are made and how claims are tested He then travels into the minds of scientists as they are drawn into competing directions Here Ziman exposes the path of discovery which is strewn with complex human needs governmental restrictions the desire for profits and the exercise of technical virtuosity
