Take Me Home Jill Duerr Berrick, 2008-08-27 There is a profound crisis in the United States foster care system Jill Duerr Berrick writes in this expertly researched passionately written book No state has passed the federally mandated Child and Family Service Review two thirds of the state systems have faced class action lawsuits demanding change and most tellingly well over half of all children who enter foster care never go home The field of child welfare has lost its way and is neglecting its fundamental responsibility to the most vulnerable children and families in America The family stories Berrick weaves throughout the chapters provide a vivid backdrop for her statistics Amanda raised in foster care began having children of her own while still a teen and lost them to the system when she became addicted to drugs Tracy brought up by her schizophrenic single mother gave birth to the first of eight children at age fourteen and saw them all shuffled through foster care as she dealt drugs and went to prison Both they and the other individuals that Berrick features spent years without adequate support from social workers or the government before finally achieving a healthier life many people never do But despite the clear crisis in child welfare most calls for reform have focused on unproven prevention methods not on improving the situation for those already caught in the system Berrick argues that real child welfare reform will only occur when the centerpiece of child welfare reunification permanency and foster care is reaffirmed Take Me Home reminds us that children need long term caregivers who can help them develop and thrive When troubled parents can't change enough to permit reunification alternative permanency options must be pursued And no reform will matter for the hundreds of thousands of children entering foster care each year in America unless their experience of out of home care is considerably better than the one many now experience Take Me Home offers prescriptions for policy change and strategies for parents social workers and judges struggling with permanency decisions Readers will come away reinvigorated in their thinking about how to get children to the homes they need

What Works in Foster Care? Peter J. Pecora, Ronald C. Kessler, Jason Williams, A. Chris Downs, Diana J. English, James White, Kirk O'Brien, 2009-09-02 On any given day nearly half a million children are served by foster care services in the U S at an annual cost of over 25 billion Growing demand and shrinking funds have so greatly stressed the child welfare system that calls for orphanages have re entered the public debate for the first time in nearly half a century New ideas are desperately needed to transform a system in crisis guarantee better outcomes for children in foster care and reduce the need for out of home care in the first place Yet little is known about what works in foster care Very few studies have examined how alumni have fared as adults or tracked long term health effects and even fewer have directly compared different foster care services In one of the most comprehensive studies of adults formerly in foster care ever conducted the Northwest Foster Care Alumni Study found that quality foster care services for children pay big dividends when they grow into adults Key investments in highly trained staff low caseloads and robust supplementary services can dramatically reduce the rates of mental disorders and substance abuse later in life and increase the likelihood of

completing education beyond high school and remaining employed The results of this unparalleled study document not only the more favorable outcomes for youth who receive better services but the overall return when an investment is made in high quality foster care every dollar invested in a child generates 1.50 in benefits to society These findings form the core of this book's blueprint for reform By keeping more children with their families and investing additional funds in enhanced foster care services child welfare agencies have the opportunity to greatly improve the health well being and economic prospects for foster care alumni What Works in Foster Care presents a model foster care program that promises to revolutionize the way policymakers administrators case workers and researchers think about protecting our most vulnerable youth

Smith,2017-09-08 The Children s Health Insurance Program was crafted in a period of intense partisan and ideological controversy over health care entitlements to provide creditable coverage for American children below 200 percent of the Federal Poverty Level This objective was widely supported though achieved only by a compromise between the structural alternatives of a block grant similar to the Maternal and Child Health Block Grant or an entitlement resembling Medicaid According to David G Smith the CHIP compromise has been a successful experiment that far exceeded expectations both in identifying and enrolling targeted low income children and in earning political capital He argues that beyond this core mission the reauthorization of CHIPRA Children s Health Insurance Program Reauthorization Act of 2009 invites a larger mission going beyond enrollment of children to include assuring access improving quality and containing costs of

health care for them Extending this thrust the author notes that CHIP could be used to establish children s health as a niche much like care for the elderly within the larger scheme of health care insurance for all Several areas of successful performance needed for the program to be adjudged a success as well as its limitations are discussed in the book These areas include initial implementation enrolling kids federal state relations and the uses and misuses of waivers to modify the program A description of changes made by the CHIPRA reauthorization and the new Patient Protection Affordable Care Act PPACA is also included This is followed by a consideration of lessons learned from CHIP s evolution and recommendations for future development In short this is a valuable and readable account for those interested in the current and future trends of health care for the young *Raising Mentally Strong Kids* Amen MD Daniel G, Charles Fay, Charles Fay Phd, 2024-03 The book gives parents practical tools to help children of all ages go from behaviors like defiance meltdowns and power struggles to being responsible confident kind resilient prepared to make good decisions focused and motivated and equipped to develop healthy relationships

District of Columbia appropriations for fiscal year 2004 United States. Congress. Senate. Committee on Appropriations. Subcommittee on District of Columbia, 2004 The Free-market Family Maxine Eichner, 2020 US families have been pushed to the wall At the bottom of the economic ladder poor and working class adults aren t forming stable relationships and can t give their kids the start they need because of low wages and uncertain job prospects Toward the top professional parents lives have become a grinding slog of long hours of paid work Meanwhile their kids are overstressed by pressure to succeed and get into good colleges In this provocative book Maxine Eichner argues that these very different struggles might seem unconnected but they share the same root cause the increasingly large toll that economic inequality and insecurity are taking on families It s government rather than families that s to blame Eichner persuasively contends Since the 1970s politicians have sold families out to the wrongheaded notion that the free market alone best supports them In five decades of free market family policy they ve scrapped government programs

and gutted market regulations that had helped families thrive The consequence is the steady drumbeat of bad news we hear about our country today the opioid epidemic skyrocketing suicide and mental illness rates deaths of despair and mediocre student achievement scores Meanwhile politicians just keep telling families to work a little harder The Free Market Family documents US families impossible plight showing how much worse they fare than families in other countries It then demonstrates how politicians free market illusions steered our nation wildly off course Finally it shows how using commonsense measures we can restructure the economy to work for families rather than the reverse Doing so would invest in our children s futures increase our wellbeing reknit our social fabric and allow our country to reclaim the American Dream

How to Keep Your Children Safe Yvonne Marie Vissing, 2006 Winner of the New England Sociological Association Sociologist of the Year 2008 Life in contemporary American society requires that children spend considerable time in the care of other people These people include teachers coaches babysitters camp counselors ministers neighbors friends and extended family While most people who work with children do a good job some caregivers fail to adequately care for kids while others actually put them in harm s way Parents may assume that caregivers of all kinds are uniformly evaluated and approved but this is not always the case American society despite a superficial rhetoric of concern for children has not instituted strong national state or local safety nets to protect them And because there is no comprehensive commitment to ensure child safety there is no systematic or even partial oversight of adults charged with their care As a result parents are put in the difficult position of deciding whether caregivers of all kinds are sufficiently skilled and responsible to look after children *How to Keep Your Children Safe* is essential reading for any parent concerned about child safety It takes a hard look at the hidden side of children s lives the times when they re in contact with caregivers who aren t doing their jobs properly It provides detailed information on places where children are under the care of others including day care recreational settings religious and civic organizations schools and summer camps Vissing investigates the potential perils of each setting and enumerates ways in which parents can better monitor or take control of their child s safety By writing a realistic assessment of commonplace settings that every parent and child can relate to and offering a road map to child safety Vissing empowers parents to make critical decisions about their children s lives **Congressional Record** United States.
