age of revolution played out at every level of society Women and Gender in International History Karen Garner,2018-06-28 Most governments and global political organizations have been dominated by male leaders and structures that institutionalize male privilege As *Women and Gender in International History* reveals however women have participated in and influenced the traditional concerns of international history even as they have expanded those concerns in new directions Karen Garner provides a timely synthesis of key scholarship and establishes the influential roles that women and gender power relations have wielded in determining the course of international history From the early 20th century onward women have participated in state to state relations and decisions about when to pursue diplomacy or when to go to war to settle international conflicts Particular women as well as masculine and feminine gender role constructs have also influenced the establishment and evolution of intergovernmental organizations and their political social and economic policy making regimes and agencies Additionally feminists have critiqued male dominated diplomatic establishment and intergovernmental organizations and have proposed alternative theories and practices This text integrates women and gender and feminist analyses into the study of international history in order to produce a broader understanding of processes of international change during the 20th and 21st centuries *Migrant City* Panikos Panayi,2020-04-07 The first history of London to show how immigrants have built shaped and made a great success of the capital city London is now a global financial and multicultural hub in which over three hundred languages are spoken But the history of London has always been a history of immigration Panikos Panayi explores the rich and vibrant story of London from its founding two millennia ago by Roman invaders to Jewish and German immigrants in the Victorian period to the Windrush generation invited from Caribbean countries in the twentieth century Panayi shows how migration has been fundamental to London s economic social political and cultural development *Migrant City* sheds light on the various ways in which newcomers have shaped London life acting as cheap labour contributing to the success of its financial sector its curry houses and its football clubs London s economy has long been driven by migrants from earlier continental financiers and more recent European Union citizens Without immigration fueled by globalization Panayi argues London would not have become the world city it is today **Gendering Post-1945 German History** Karen Hagemann,Donna Harsch,Friederike Brühöfener,2019-04-02 Although entanglement has become a keyword in recent German history scholarship entangled studies of the postwar era have largely limited their scope to politics and economics across the two Germanys while giving short shrift to social and cultural phenomena like gender At the same time historians of gender in Germany have tended to treat East and West Germany in isolation with little attention paid to intersections and interrelationships between the two countries This groundbreaking collection synthesizes the perspectives of entangled history and gender studies bringing together established as well as upcoming scholars to investigate the ways in which East and West German gender relations were culturally socially and politically intertwined

An Analysis of Joan Wallach Scott's Gender and the Politics of History Pilar Zazueta, Etienne Stockland, 2017-07-05 Joan Scott's work has influenced several generations of historians and helped make the topic of gender central to the way in which the discipline is taught and studied today At root a new way of conceptualizing capitalist societies Scott's theories suggest that gender is better understood as a social construct than as a biological fact Scott's original contribution to the debate however stems in her use of the critical thinking skill of analysis to understand how the arguments of earlier generations of historians were built in order to fully grasp both their structure and the assumptions that underpinned them From there Scott was able to use problem solving to resolve the issues that emerged from her analysis asking productive questions focused on better ways to build a model capable of explaining the historical phenomenon of gender difference Scott answered these questions by introducing models created by deconstructionist scholars notably Jacques Derrida who challenged the idea that any term or concept has a stable or dependable meaning rooted in material reality She was able in consequence to refute that idea that gender inequality is the natural hence justifiable consequence of biological sexual differences and issue a fundamental challenge to the capitalist system itself
