Radical Islam Rising Muslim Extremism In The West:

Radical Islam Rising Quintan Wiktorowicz, 2005-07-21 Although the West denounces the spread of radical Islam in Saudi Arabia Pakistan and elsewhere in the Muslim world it tends to overlook the development of Islamic extremism in its own societies Over the past several decades groups like al Qaeda have been supported by thousands of citizens of the United States the United Kingdom and other Western democracies Rejecting their national identity they have heeded international calls to jihad and formed extremist groups to fight their own countries This groundbreaking book represents one of the first systematic attempts to explain why Westerners join radical Islamic groups Quintan Wiktorowicz details the mechanisms that attract potential recruits the instruments of persuasion that convince them that radical groups represent real Islam and the socialization process that prods them to engage in risky extremism Throughout he traces the subtle process that can turn seemingly unreligious people into supporters of religious violence The author's invaluable insights are based upon nearly unprecedented access to a radical Islamic group in the West His extraordinary fieldwork forms the basis of a detailed case study of al Muhajiroun a transnational movement based in London that supports Bin Laden and other Islamic terrorists Through its rich empirical detail this book explains why ordinary people join extremist movements Radical Islam and International Security Efraim Inbar, Hillel Frisch, 2007-12-12 Radical Islam poses a political challenge in the modern world which is like that of no other radical religious movement Ideologically it is perceived by Western policy makers as threatening the liberal democratic ideology by which most states in the West abide and which most other states rhetorically espouse This book serves as a welcome addition to the intellectual and policy debate on the nature of the radical Islam phenomenon and how to respond to it The collection is divided into three parts the first part seeks to understand the Islamic challenge in broad comparative and historical terms while the second part deals with specific regional case studies which seek to identify patterns of uniformity and variation in radical Islam across a wide swath of terrain The third part is policy oriented suggesting possible responses to the Islamic challenge The contributors include distinguished researchers from Europe North America and the Middle East This book will be of much interest to students of Islamism political violence international security and Middle Eastern politics *Extreme Britain* Elizabeth Pearson, 2024 Drawing on interviews with extremists this timely study explores the relationship between gendered culture and political radicalism using Britain as a case study The Politics of Terrorism and Counterterrorism in Bangladesh Saimum Parvez, Mohammad Sajjadur Rahman, 2022-12-30 This book examines contemporary issues and debates of terrorism in Bangladesh including national and transnational terrorist outfits operating within the country their narratives and counternarratives ideologues women and the youth media representation counterterrorism laws and challenges Bangladesh is a fascinating and often paradoxical case study for terrorism studies The book examines major terrorist groups in contemporary Bangladesh and their international connections and narratives as well as a case study of an influential ideologue who encouraged some Bangladeshis to engage

in violence The chapters discuss how women and youth play a role in Bangladeshi terrorism how the internet is used for recruiting terrorists the discourses of the media and state regarding terrorism as well as the politics of law and counterterrorism initiatives including critically evaluating non state actors and government responses In addition to providing an up to date analysis of terrorism and counterterrorism in Bangladesh this book offers a balanced and unbiased perspective on this subject It will appeal to academics and international policymakers who are researching violence and extremism in South Asia

ISIS and the Pornography of Violence Simon Cottee,2019-05-30 ISIS and the Pornography of Violence is a collection of iconoclastic essays on ISIS spanning the four year period from its ascendancy in late 2014 to its demise in early 2018 From a trenchant critique of the infantilization of jihadists to a probing examination of the parallels between gonzo porn and ISIS beheading videos the pieces collected in this volume challenge conventional ways of thinking about ISIS and the roots of its appeal Simon Cottee s core argument is that Western ISIS recruits far from being brainwashed or vulnerable dupes actively responded to the group s promise of redemptive violence and self sacrifice to a total cause

'home-Grown' Jihad Samuel John MULLINS,2015-11-09 Based on seven years of original research this book contains one of the most detailed and comprehensive assessments of home grown Islamist terrorism HGIT in the US and UK to date Beginning with an examination of the development of militant networks during the 1980s and 1990s it traces the origins of HGIT and highlights the significance of these early experiences in different countries for shaping the future trajectory of the threat The book also examines the range of motivations for violent jihad in the West suggesting a composite theoretical model that specifies three necessary conditions for involvement and challenges popular explanations for differential rates of terrorism which emphasize socioeconomic factors The book analyzes the background and operational activities of nearly 800 American and British jihadis who mobilized between 1980 and September 11th 2013 including factors such as mental health education processes of radicalization leadership use of the Internet sources of funding and links to foreign terrorist organizations This analysis is then complemented with an examination of how these individuals have been dealt with by the respective security services From the first proponents of global jihad to the recent wave of volunteers inspired by events in the Middle East this book provides an extensive yet lucid analysis of one of the greatest security concerns facing America and Great Britain today Home Grown Jihad challenges existing studies on a number of key issues and expands our understanding of HGIT It will be invaluable to academics practitioners and policymakers alike

Terrorist Movements and the Recruitment of Arab Foreign Fighters Roger Warren, 2020-02-20. This book offers the first detailed in-depth account of how and why some Arab foreign fighters subsequently became involved in Islamist terrorism. Drawing on a personal dataset of 3,010 Arab foreign fighters compiled using biographies, martyrdom eulogies and postings on jihadi websites, *Terrorist Movements and the Recruitment of Arab Foreign Fighters* suggests that the subsequent involvement in Islamist terrorism by some Arab foreign fighters is primarily forged in the crucible of defensive jihad.

Hizbut Tahrir Indonesia and Political Islam Mohamed Nawab, Mohamed Osman, 2018-05-15. This book offers a timely examination of Hizbut Tahrir Indonesia (HTI), a chapter of the transnational movement Hizb ut Tahrir (HT) whose key aim is the revival of the caliphate. It cautions against an overly simplistic read of a group like HTI and political Islam in Indonesia. While there is much to laud, particularly with regard to how leaders in Indonesia have attempted to counteract Islamist extremism insofar as the trajectory of non-violent Islamism in Indonesia is concerned, there are clear reasons for apprehension. Groups like the HTI have been adept at using the democratic space in Indonesia to propound their illiberal objectives, including encouraging the curtailment of Indonesian art forms deemed un-Islamic and more importantly, pushing for certain Islamic sects such as the Ahmadiyahs to be banned. Yet despite its extreme posturing, HTI is accepted as a mainstream Muslim.

organization As such the Indonesian chapter of Hizb ut Tahrir represents a unique case unlike other chapters which are deemed extreme and fringe HTI though radical still exists within the space provided by the Indonesian religio political landscape This book offers new insights into HTI s history organizational structure and ideology adding considerable new details about HTI and correcting errors in existing literature while directing its primary focus on explaining HTI s rapid growth in Indonesia The central argument is that the key to understanding HTI s growth lies in the role collective identity plays in attracting new members and retaining its existing members within the party Factors such as institutional and non institutional opportunities within the Indonesian political system HTI s resource mobilization strategies and the anti systemic ideology of HTI serve as political organizational and religious incentives for individuals to join the party and launch collective action This goes on to emphasize and show that collective identity remains the most crucial factor in the party s growth Analysing this process of collective identity formation and its impact on recruitment and membership retention is central to this book This book will be of much interest to students of Southeast Asian politics regional security political Islam and International Relations in general

Bleeding Hearts Abdallah Hendawy, 2021-10-20 Bleeding Hearts From Passionate Activism to Violent Insurgency in Egypt examines the wave of violence that broke out in Egypt in the aftermath of the 2013 military takeover against the country's first democratically elected president Abdallah Hendawy sheds light on stories of several political activists who abandoned their commitment to nonviolence and took up arms against the state Through multiple interviews ethnographic observations field work and qualitative data analysis Hendawy challenges the dominant theoretical paradigms on radicalization that often attribute this complex phenomenon to ideological or religious beliefs Hendawy thoroughly examines the tumultuous events that followed the 2013 military takeover and the journey of several radicalized individuals He demonstrates how and why select Egyptian activists turned to violent tactics in the course of their political engagement The book ultimately concludes that repressive political environments particularly the systematic authoritarian practices by state security agencies against political activists are largely responsible for radicalization Abusive state practices traumatized the activists and created a litany of unsettled grievances without recourse giving rise to a formidable desire for revenge against those who violated them both individuals and the institutions they represent

Martijn de Koning, Carmen Becker, Ineke Roex, 2020-06-25 Based on ethnographic research in Belgium The Netherlands and Germany this book presents a novel approach to studying Muslim militant activism While much existing research focuses on the process of radicalization these authors introduce a different set of questions that investigate specific modes of activism and their engagement with dominant discourses and practices in media and state policies Drawing on social movement theory and Foucault's work on counter conduct this research explores how da'wa networks came about and how activists developed themselves in interaction with state and media practices This perspective highlights a form of activism and resistance in which activists turn against policies and debates centring on Muslims and Islam while attempting to create and protect an alternative space for themselves in which they can experience Islam according to their own perception of it The study will contribute to debates about resistance social movements and militant activism among Muslims in Europe
