## Radical Pacifism:

**Radical Pacifism in Modern America** Marian Mollin, 2006-10-10 Their compelling examples of female militancy and leadership challenge the essentialist association of female pacifism with motherhood and expand the definition of political action to include women's political work in both the public and private spheres Focusing on the vexed alliance between white peace activists and black civil rights workers Mollin similarly details the difficulties that arose at the points where their movements overlapped and challenges the seemingly natural association between peace and civil rights *Direct Action*

James Tracy, 1996-09-15 *Direct Action* tells the story of how a small group of radical pacifists nonviolent activists such as David Dellinger Staughton Lynd A J Muste and Bayard Rustin played a major role in the rebirth of American radicalism and social protest in the 1950s and 1960s Coming together in the camps and prisons where conscientious objectors were placed during World War II radical pacifists developed an experimental protest style that emphasized media savvy symbolic confrontation with institutions deemed oppressive Due to their tactical commitment to nonviolent direct action they became the principal interpreters of Gandhism on the American Left and indelibly stamped postwar America with their methods and ethos Genealogies of the Civil Rights antiwar and antinuclear movements in this period are incomplete without understanding the history of radical pacifism Taking us through the Vietnam war protests this detailed treatment of radical pacifism reveals the strengths and limitations of American individualism in the modern era Radical Pacifism

Scott H Bennett, 2003-12-01 This deeply researched book is the first history of the War Resisters League an organization that represents the major vehicle of secular radical pacifism in the United States Besides opposing all U S wars and championing conscientious objection to these wars Scott H Bennett shows how the WRL led by its colorful members functioned as a movement halfway house assisting and influencing a variety of social reform groups and campaigns He devotes special attention to WWII conscientious objectors COs who staged dramatic wartime work and hunger strikes in Civilian Public Service camps and prisons against Jim Crow censorship conscription and other policies These radical COs moved the postwar WRL in new directions and transformed radical pacifism By recovering the important links between the WRL and the peace civil rights civil liberties and antinuclear movements Bennett demonstrates the social relevance and political effectiveness of radical pacifism He emphasizes the WRL's most important legacy its promotion legitimization and Americanization of Gandhian nonviolent direct action which infused the postwar peace and justice movements *New Wars for Old*

John Haynes Holmes, 1916 *Radicals in America* Howard Brick, Christopher Phelps, 2015-07-09 *Radicals in America* is a masterful history of controversial dissenters who pursued greater equality freedom and democracy and transformed the nation Written with clarity and verve *Radicals in America* shows how radical leftists while often marginal or ostracized could assume a catalytic role as effective organizers in mass movements fostering the imagination of alternative futures Beginning with the Second World War *Radicals in America* extends all the way down to the present making it the first comprehensive

**Opposition to War** An Encyclopedia of U S Peace and Antiwar Movements investigates this historical tradition of resistance to involvement in armed conflict an especially important and relevant topic today as the nation has been mired in numerous military conflicts throughout most of the current century The book examines a largely misunderstood and underappreciated minority of Americans who have committed themselves to finding peaceful resolutions to domestic and international conflicts individuals who have proposed and conducted an array of practical and creative methods for peaceful change from the transformation of individual behavior to the development of international governing and legal systems for more than 250 years Readers will learn how individuals working alone or organized into societies of various size have steadfastly campaigned to stop war end the arms race eliminate the underlying causes of war and defend the civil liberties of Americans when wartime nationalism most threatens them The Irony of Barack Obama R. Ward Holder, Peter B. Josephson, 2016-03-09 Drawing on the political theology of Reinhold Niebuhr described by Barack Obama as one of my favourite philosophers this book assesses the challenges facing the President during his first term It evaluates his success in adhering to Niebuhr s path of Christian realism when faced with the pragmatic demands of domestic and foreign affairs In 2008 Candidate Obama used the ideas of Hope and Change to inspire voters and secure the presidency Obama promised change not only regarding America s policies but even more fundamentally in the nation s political culture Holder and Josephson describe the foundations of President Obama s Christian faith and the extent to which it has shaped his approach to politics Their book explores Obama s journey of faith in the context of a broadly Augustinian understanding of faith and politics examines the tensions between Christian realism and pragmatic progressivism explains why a Christian realist interpretation is essential to understanding Obama s presidency and applies this model of understanding to considerations of foreign and domestic policy By combining this theological and political analysis the book offers a special opportunity to reflect on the relationship between Christian faith and statesmanship reflections that are missing from current popular discussions of the Obama presidency Through consideration of Niebuhr s models of the prophet and the statesman and the more popular alternative of the political evangelist Holder and Josephson are better able to explain the president s successes and his failures and to unveil the Augustinian limits of the political life Political Protest and Cultural Revolution Barbara Epstein, 1993-09-03 From her perspective as both participant and observer Barbara Epstein examines the nonviolent direct action movement which inspired by the civil rights movement flourished in the United States from the mid seventies to the mid eighties Disenchanted with the politics of both the mainstream and the organized left and deeply committed to forging communities based on shared values activists in this movement developed a fresh philosophy and style of politics that shaped the thinking of a new generation of activists Driven by a vision of an ecologically balanced nonviolent egalitarian society they engaged in political action through affinity groups made decisions by consensus and practiced mass civil disobedience The nonviolent direct action movement galvanized originally in opposition to nuclear power with the Clamshell Alliance in New

England and then the Abalone Alliance in California leading the way Its influence soon spread to other activist movements for peace non intervention ecological preservation feminism and gay and lesbian rights Epstein joined the San Francisco Bay Area s Livermore Action Group to protest the arms race and found herself in jail along with a thousand other activists for blocking the road in front of the Lawrence Livermore Laboratory She argues that to gain a real understanding of the direct action movement it is necessary to view it from the inside For with its aim to base society as a whole on principles of egalitarianism and nonviolence the movement sought to turn political protest into cultural revolution Einstein Walter Isaacson,2008-09-04 NOW A MAJOR SERIES GENIUS ON NATIONAL GEOGRAPHIC PRODUCED BY RON HOWARD AND STARRING GEOFFREY RUSH Einstein is the great icon of our age the kindly refugee from oppression whose wild halo of hair twinkling eyes engaging humanity and extraordinary brilliance made his face a symbol and his name a synonym for genius He was a rebel and nonconformist from boyhood days His character creativity and imagination were related and they drove both his life and his science In this marvellously clear and accessible narrative Walter Isaacson explains how his mind worked and the mysteries of the universe that he discovered Einstein s success came from questioning conventional wisdom and marvelling at mysteries that struck others as mundane This led him to embrace a worldview based on respect for free spirits and free individuals All of which helped make Einstein into a rebel but with a reverence for the harmony of nature one with just the right blend of imagination and wisdom to transform our understanding of the universe This new biography the first since all of Einstein s papers have become available is the fullest picture yet of one of the key figures of the twentieth century This is the first full biography of Albert Einstein since all of his papers have become available a fully realised portrait of this extraordinary human being and great genius Praise for EINSTEIN by Walter Isaacson YOU REALLY MUST READ THIS Sunday Times As pithy as Einstein himself New Scientist A brilliant biography rich with newly available archival material Literary Review Beautifully written it renders the physics understandable Sunday Telegraph Isaacson is excellent at explaining the science Daily Express Peace and Security in Indo-Pacific Asia Sorpong Peou,2021-11-21 Peace and Security in Indo Pacific Asia is for the informed the interested and the engaged Sorpong Peou brings together the skills of the pedagogue with the knowledge of the scholar Dr David Dewitt University Professor Emeritus Senior Scholar York University Toronto Canada Peou s excellent book provides both the lay reader and the specialist with six important theoretical frameworks which should provide the basis for better appreciation of what a security community in Indo Pacific Asia means in our world today There are very few scholars who understand the region like Peou Dr W Andy Knight Professor of Political Science the University of Alberta Canada Sorpong Peou s extraordinary breadth of knowledge of both International Relations theory and the key trends in Indo Pacific Asia shines through in this authoritative analysis Dr Richard Stubbs Professor of Political Science McMaster University Canada A pedagogical approach of the textbook that is appreciated is how the author respectfully engages with the theories of IR and is not pushing an agenda of denouncing some theories and trying to

persuade the reader of others We live in such polarizing times that it is truly refreshing to read scholarly work that avoids sensationalistic attacks on theories that have been debated for decades Each theory in this manuscript is explored on its own terms and the reader is encouraged to figure out where they stand on these enduring debates in the context of Indo Pacific security The approach will lead to compelling classroom discussions of the theories and the politics of the region This book is a must read for any student or observer of security trends in the region Dr Mark Williams Chair and Professor of Political Studies Vancouver Island University B C Canada
