*The Twelfth US Air Force: Tactical And Operational Innovations In The Mediterranean Theater Of Operations, 1943-1944*  
Major Matthew G. St. Clair USMC, 2015-11-06 This paper analyzes the participation of the US Twelfth Air Force in the  
Mediterranean theater of operation from 1943 to 1944 and also studies the coalition and joint operations required in the air  
campaign Coalition and joint warfare provides numerous command control and coordination problems that are not easily de  
conflicted The requirements of the coalition air campaign in the Mediterranean theater provided significant challenges to the  
leadership of the US Army Air Forces AAF Prewar Army Air Corps doctrine focused on strategic bombing and aerial  
interdiction Air men lacked a well thought out tactical support doctrine and had no doctrine for supporting amphibious  
operations The mission of the AAF in the North African and Italian campaigns was the winning of air superiority The Twelfth  
Air Force had to adopt new tactics and operational techniques to support the Allied landings at Sicily Salerno and Anzio Italy  
against the formidable German Luftwaffe The Mediterranean theater was the first theater to encounter the use of precision

guided munitions in the form of radio controlled glide bombs dropped by the Luftwaffe The Mediterranean theater was designated a secondary theater of war resulting in the Twelfth Air Force operating with inadequate resources as aircraft and crews were periodically reassigned to units supporting the Combined Bomber Offensive in the European theater of operations While supporting the Mediterranean theater the Twelfth Air Force operated alongside the British Royal Air Force RAF and was routinely tasked with supporting operations of both the US Fifth and British Eighth Armies This provided significant command control and communication C3 problems that had to be addressed to optimize the effectiveness of Allied airpower *Library of Congress Subject Headings* Library of Congress.
