Danny Elfman's Batman Janet K. Halfyard,2004-09-07 Danny Elfman is recognized as one of the most successful interesting and innovative figures in recent film music composition He came to the fore in the late 1980s in connection with his collaboration with Tim Burton on his films including Pee Wee's Big Adventure 1985 Beetlejuice 1988 Batman 1989 Edward Scissorhands 1990 The Nightmare before Christmas 1993 and Sleepy Hollow 1999 In addition to this Elfman has composed music for more than 40 other films including Somersby 1993 Dolores Claiborne 1995 Good Will Hunting 1997 Men in Black 1997 and Spiderman 2002 Beetlejuice was the first mainstream commercial success of the collaboration but Batman was the film which marked Tim Burton's arrival as a major figure in Hollywood film direction and equally established Danny Elfman as a film score composer particularly in relation to action and fantasy genres The score for Batman won a Grammy in 1989 and is an outstanding example of his collaboration with Burton as well as admirably demonstrating his particular talents and distinctive compositional voice In particular it displays the characteristic darkness of his orchestration in this genre and the means he uses to create a full length film score from what is often a relatively small amount of musical material in this case the famous Batman theme This book examines Elfman's scoring technique and provides a detailed analysis and commentary on the Batman score The film is discussed in the context of its comic book origins and the fantasy

action genre setting it and its score against the late 1970s and early 1980s equivalents such as Star Wars and Superman and revealing how Burton and Elfman between them changed the cinematic idea of what a superhero is The book also explores Elfman's musical background his place within the film music industry and the controversy that sprang up following the release of *Batman Returns*

Radio Times, 1974

The British Sitcom Spinoff Film Stephen Glynn, 2023-12-07 This book constitutes the first full volume dedicated to an academic analysis of theatrically released spinoff films derived from British radio and television sitcoms Regularly maligned as the nadir of British film production and marginalised as a last resort for the financially bereft industry during the 1970s this study demonstrates that the sitcom spinoff film has instead been a persistent and important presence in British cinema from the 1940s to the present day and includes occasional works with distinct artistic merit Alongside an investigation of the economic imperative underpinning these productions i.e the exploitation of proven product with a ready made audience it is argued that with a longevity stretching from Arthur Askey and his wartime *Band Waggon* 1940 to the crew of *Kurupt FM* and their recent *People Just Do Nothing* Big in Japan 2021 the British sitcom spinoff can be interpreted as following a full generic life cycle Starting with the formative stage where works from *Hi Gang* 1941 to *I Only Arsked* 1958 establish the genre's characteristics the spinoff genre moves to its classic stage where secure for form and content it enjoys considerable popular success with films like *Till Death Us Do Part* 1969 *On the Buses* 1971 *The Likely Lads* 1976 and *Rising Damp* 1980 the genre's revival since the late 1990s reveals a more parodic final stage with films like *The League of Gentlemen's Apocalypse* 2005 adopting a consciously self reflective mode It is also posited that the sitcom spinoff film is a viable source for social history with the often stereotypical representations of characters and events an often blatant ideological metonym for the concerns of wider British society notably in issues of class race gender and sexuality
