Rail Centres J. N. Faulkner,1991 **Bradley's Railway Guide** Simon Bradley,2024-10-10 A lifetime of railway love distilled into a most beautiful volume Lucy Worsley Our railway history could not have been told more palatably or more nourishingly David Kynaston The most attractive comprehensive and easily digestible history of the oldest railway system in the world Michael Palin In 1825 the Stockton Darlington company strode into history with the opening of the world s first public steam railway What the S DR had pioneered soon picked up speed transforming lives and landscapes connecting far flung corners of the nation and creating its own distinctive environments and working worlds This ambitious and lavishly illustrated volume brings the story of Britain s railways to life spanning two centuries of achievement and change Full of colour and incident it is an exhilarating journey through time and space revisiting favourite themes and introducing unfamiliar stories and places With original and engaging entries on everything from dining saloons to collecting dogs wartime salvage efforts and the iconic Rail Alphabet Simon Bradley gives George Bradshaw s famous 19th century guide a run for its money in this fresh and distinctive chronicle of the making of Britain s railways The World's First Railway System Mark Casson,2009-09-10 The British railway network was a monument to Victorian private enterprise Its masterpieces of civil engineering were emulated around the world But its performance was controversial praised for promoting a high density of lines it was also criticised for wasteful duplication of routes This is the first history of the British railway system written from a modern economic perspective It uses counterfactual analysis to construct an alternative network to represent the most efficient alternative rail network that could have been constructed given what was known at the time the first time this has been done It reveals how weaknesses in regulation and defects in government policy resulted in enormous inefficiency in the Victorian system that Britain lives with today British railway companies developed into powerful regional monopolies which then contested each other s territories When denied access to existing lines in rival territories they built duplicate lines instead Plans for an integrated national system sponsored by William Gladstone were blocked by Members of Parliament because of a perceived conflict with the local interests they represented Each town wanted more railways than its neighbours and so too many lines were built The costs of these surplus lines led ultimately to higher fares and freight charges which impaired the performance of the economy The book will be the definitive source of reference for those interested in the economic history of the British railway system It makes use of a major new historical source deposited railway plans integrates transport and local history through its regional analysis of the railway system and provides a comprehensive classified bibliography *A Popular, Pictorial and Practical Guide to London: its Public Buildings, Leading Thoroughfares, and principal Objects of Interest, with Notices of the Tate Gallery, Blackwall Tunnel, and other recent Additions* ,1898 **Ward and Lock's pictorial guide to London** Ward, Lock and co, ltd,1879 *New Pictorial and Practical Guide to London ...* Ward, Lock and Company, ltd,1894 *Rail Operations Viewed From South Devon* Garth

Urban Development and Town Planning in Britain: 1948-2008 Russell Haywood, 2016-03-23 This book provides a critical overview of the relationships between planning and railway management and development during the key period in the 20th Century when the railway was in public ownership 1948-94. It assesses the strength of the relationships when working in collaboration with the private sector. The book then focuses on the interplay between planning and railway since privatization in 1994 and points to best practice for the future in institutional structures and policy development to secure improved outcomes.
