Proceedings of the American Forestry Association American Forestry Association,1889 Urban Rainfall Runoff Pollution Control Technology and Application Dezhi Sun,Fei Qi,2025-06-14 This book comprehensively presents rapid progress and development in urban rainfall runoff pollution control technology in China since the 11th Five Year Plan period

It covers many aspects of the research including background summary assessment methods control technology and various case studies to the validation of the control theory and the development of sponge city construction The book appeals to scholars and graduates majoring in environmental engineering and water supply engineering It is also suitable for practitioners engaged in urban drainage system

Rainfall Data of Berkeley, California William Gardner Reed, Marshall Kent White, 1916

Estimating spatial basis risk in rainfall index insurance Ceballos, Francisco, 2016-12-29 This paper develops a novel methodology to estimate the degree of spatial basis risk for an arbitrary rainfall index insurance instrument It relies on a widely used stochastic rainfall generator extended to accommodate nontraditional dependence patterns in particular spatial upper tail dependence in rainfall through a copula function The methodology is applied to a recently launched index product insuring against excess rainfall in Uruguay The model is first calibrated using historical daily rainfall data from the national network of weather stations complemented with a unique high resolution dataset from a dense network of 34 automatic weather stations around the study area The degree of downside spatial basis risk is then estimated by Monte Carlo simulations and the results are linked to both a theoretical model of the demand for index insurance and to farmers' perceptions about the product

Cloud Systems, Hurricanes, and the Tropical Rainfall Measuring Mission (TRMM) Wei-Kuo Tao, 2015-03-30 This book is a tribute to a pioneer in tropical meteorology research Dr Joanne Simpson It is a recollection of some of the high points of her career from her fifty years of investigating hurricanes and clouds to her management of the crucial and highly successful TRMM project Tropical Rainfall Measuring Mission a joint mission between the NASA and the Japan Aerospace Exploration Agency JAXA

Influence of Rainfall and Ancient Landslide Deposits on Recent Landslides (1950-71) in Urban Areas of Contra Costa County, California Tor Helge Nilsen, Barbara L. Turner, Geological Survey (U.S.), 1975

Rainfall Thresholds and Other Approaches for Landslide Prediction and Early Warning Samuele Segoni, Stefano Luigi Gariano, Ascanio Rosi, 2021-06-22 Landslides are destructive processes causing casualties and damage worldwide The majority of the landslides are triggered by intense and/or prolonged rainfall Therefore the prediction of the occurrence of rainfall induced landslides is an important scientific and social issue To mitigate the risk posed by rainfall induced landslides landslide early warning systems LEWS can be built and applied at different scales as effective non structural mitigation measures Usually the core of a LEWS is constituted of a mathematical model that predicts landslide occurrence in the monitored areas In recent decades rainfall thresholds have become a widespread and well established technique for the prediction of rainfall induced landslides and for the setting up of prototype or operational LEWS A rainfall threshold

expresses with a mathematic law the rainfall amount that when reached or exceeded is likely to trigger one or more landslides Rainfall thresholds can be defined with relatively few parameters and are very straightforward to operate because their application within LEWS is usually based only on the comparison of monitored and or forecasted rainfall This Special Issue collects contributions on the recent research advances or well documented applications of rainfall thresholds as well as other innovative methods for landslide prediction and early warning Contributions regarding the description of a LEWS or single components of LEWS e g monitoring approaches forecasting models communication strategies and emergency management are also welcome We encourage in particular the submission of contributions concerning the definition and validation of rainfall thresholds and their operative implementation in LEWS Other approaches for the forecasting of landslides are also of interest such as physically based modelling hazard mapping and the monitoring of hydrologic and geotechnical indicators especially when described in the framework of an operational or prototype early warning system

Right here, we have countless book **Rain Fall** and collections to check out. We additionally offer variant types and also type of the books to browse. The usual book, fiction, history, novel, scientific research, as competently as various supplementary sorts of books are readily handy here.
