Rainbow Quest Of Thomas Pynchon:

The Rainbow Quest of Thomas Pynchon Douglas A. Mackey, 1980 **Thomas Pynchon** Harold Bloom, 2009 Presents a collection of critical essays on the works of Thomas Pynchon Thomas Pynchon and the Dark Passages of History David Cowart, 2012-01-15 Thomas Pynchon helped pioneer the postmodern aesthetic His formidable body of work challenges readers to think and perceive in ways that anticipate with humor insight and cogency much that has emerged in the field of literary theory over the past few decades For David Cowart Pynchon s most profound teachings are about history history as myth as rhetorical construct as false consciousness as prologue as mirror and as seedbed of national and literary identities In one encyclopedic novel after another Pynchon has reconceptualized historical periods that he sees as culturally definitive Examining Pynchon s entire body of work Cowart offers an engaging metahistorical reading of V an exhaustive analysis of the influence of German culture in Pynchon s early work with particular emphasis on Gravity s Rainbow and a critical spectroscopy of those dark stars Mason Dixon and Against the Day He defends the California fictions The Crying of Lot 49 Vineland and Inherent Vice as roman fleuve chronicling the decade in which the American tapestry began to unravel Cowart ends his study by considering Pynchon s place in literary history Cowart argues that Pynchon has always understood the facticity of historical narrative and the historicity of storytelling not to mention the relations of both story and history to myth Thomas Pynchon and the Dark Passages of History offers a deft analysis of the problems of history as engaged by our greatest living novelist and argues for the continuity of Pynchon s historical vision **Thomas Pynchon's Gravity's Rainbow** Charles Hohmann, 1986 This study delineates what can be called the conceptual structure of Gravity s Rainbow and analyzes it in terms of Rilke s Duinesian Elegies a text which was a major influence on Pynchon s novel **Fiction in the Quantum Universe** Susan Strehle, 2000-11-09 In this outstanding book Susan Strehle argues that a new fiction has developed from the influence of modern physics She calls this new fiction actualism and within that framework she offers a critical analysis of major novels by Thomas Pynchon Robert Coover William Gaddis John Barth Margaret Atwood and Donald Barthelme According to Strehle the actualists balance attention to questions of art with an engaged meditation on the external actual world While these actualist novels diverge markedly from realistic practice Strehle claims that they do so in order to reflect more acutely what we now understand as real Reality is no longer realistic in the new physical or quantum universe reality is discontinuous energetic relative statistical subjectively seen and uncertainly known all terms taken from new physics Actualist fiction is characterized by incompletions indeterminacy and open endings unsatisfying to the readerly wish for fulfilled promises and completed patterns Gravity s Rainbow for example ends not with a period but with a dash Strehle argues that such innovations in narrative reflect on twentieth century history politics science and discourse **A Hand to Turn the Time** Theodore D. Kharpertian, 1990 A study of the major fiction of Thomas Pynchon in three contexts Menippean satire post modernism and American writing The critical genealogy of the term satire is discussed and Pynchon s

V The Crying of Lot 49 and Gravity's Rainbow are analyzed Unmasking Gravity's Rainbow Charles Hohmann, 2025-09-19 Gravity's Rainbow remains one of the most enigmatic and ambitious novels of the 20th century a kaleidoscope of paranoia power sex science and entropy set against the crumbling ruins of World War II In Unmasking Gravity's Rainbow Charles Hohmann unravels the novel's dense web of references and motifs and guides the reader through the novel's key symbols from the mysterious V-2 rocket to the silent systems of control and situates it within the broader landscape of postmodern literature and Cold War anxiety Whether you're a first time reader or a seasoned Pynchon scholar this book offers a clear-eyed entry point into one of the most formidable literary achievements of our time **A Dictionary of the Avant-Gardes**, 2013-05-13 A Dictionary of the Avant Gardes recognizes that change is a driving force in all the arts It covers major trends in music dance theater film visual art sculpture and performance art as well as architecture science and culture *Writing Pynchon* A. W. McHoul, David Wills, 1990-04-20 This book explores some of the ways in which contemporary literary theory can be used to read fiction In particular it focuses on Thomas Pynchon's three novels to date and his collection of early stories The theories exploited are concentrated in the work of Jacques Derrida **A Companion to The Crying of Lot 49** J. Thomas Pynchon Clifford Mead, 1989 Thomas Pynchon has received an unparalleled amount of criticism in the twenty five years since the publication of his first novel two dozen books dozens of chapters in other books hundreds of articles even his own journal No other novelist has generated as much criticism in as short a time making Clifford Mead's bibliography a welcome and indispensable guide Section one catalogues Pynchon's own writings books magazine contributions reprints translations and piracies while section two offers an exhaustive listing of virtually everything that had been written on Pynchon by 1989 Two special sections enhance the value of this book one reprints Pynchon's dozen or so endorsements written for other books most inaccessible or out of print while the other reprints Pynchon's hitherto unknown contributions to his high school newspaper The book is illustrated throughout with photographs of dust jacket covers including a trial cover for Gravity's Rainbow rare ephemera and pictures of the young Pynchon from his high school yearbook

Angel and Rocket Charles Hohmann, 2009 The study analyzes Pynchon's Gravity's Rainbow in terms of Rilke's Duino Elegies a text which was a major influence on Pynchon's novel

Thomas Pynchon's Narratives Alan W. Brownlie, 2000 In his first three novels Thomas Pynchon focuses in part on the inability to achieve reliable knowledge of the self and the world As a consequence of this and of the events around which Pynchon builds these early novels V The Crying of Lot 49 and Gravity's Rainbow tend to be read as nihilistic This book focuses on Pynchon's use of ideas of western history philosophy and science to arrive at a reading that suggests that Pynchon's project in these early novels is to provoke his readers into taking precisely the sort of personal and political action his characters cannot

Fire and Power William D. Atwill, 2010-10-01 In Fire and Power William D Atwill maps the cultural contours of space age America through readings of some of the era's most popular and influential narratives Saul Bellow's Mr Sammler's Planet John Updike's Rabbit Redux Norman Mailer's Of a Fire on the Moon Tom Wolfe's The Right Stuff Thomas Pynchon's Gravity's Rainbow and Don DeLillo's Ratner's Star Together Atwill demonstrates these key texts comprise a literary history of the space age an exploration of the novel's possibilities in uncertain times and a disturbing critique of postwar society The massive technological enterprise known as the Manned Space Program was in Atwill's words the historical marker of our age and in our race to the moon he says Bellow Updike Mailer Wolfe Pynchon and DeLillo found a trope for the postmodern condition To these writers the space program was the most visible and outward sign of a radical shift in the culture that fostered it a shift from modernism's search for interior individual unity amidst chaos to the postmodern perception of the individual's fragmentation and uncertain standing in the world

Satire in Narrative Frank Palmeri, 2014-08-04 Virtually all theories of satire define it as a criticism of contemporary society Some argue that satire criticizes the present in favor of a standard of values that has been superseded

and thus that satire is generally backward looking and conservative While this is often true of poetic satire in this study Frank Palmeri asserts that narrative satire performs a different function that it parodies both the established view of the world and that of its opponents offering its own distinctive critical perspective This theory of satire builds on the idea of dialogical parody in the work of Russian theorist Mikhail Bakhtin while revising Bakhtin s estimate of carnival In Palmeri s view the carnivalesque offers only an inverted mirror image of authoritative discourse while parodic narrative satire suggests an alternative to both the official world and its inverted opposite Palmeri applies this theory of narrative satire to five works of world literature each of which has generated sharp controversy about the genre to which it rightly belongs Petronius Satyricon Jonathan Swift s A Tale of a Tub Edward Gibbon s Decline and Fall of the Roman Empire Herman Melville s The Confidence Man and Thomas Pynchon s The Crying of Lot 49 He analyzes the features that link these works and shows how the changing pairs of alternatives that are parodied in these satires reflect changes in the terms of social and cultural oppositions Satire in Narrative will appeal to comparatists specialists in eighteenth century and American literature and others interested in theories of genre and the relations between literary forms and social history Pynchon Notes ,1998
