Hulley, 1999 The Rainbow Serpent legend is one of the oldest of Aboriginal myths and legends Drawing on rock art paintings from all over Australia the literature about the legend and the oral traditions of Aboriginal tribes this book places the legend into perspective

**Singularia** James M. Harvey, 2009      **Phallos** Eugene Monick, 1987 Through close examination of the physical physiological and mythological aspects of phallos the author differentiates masculinity from patriarchy and discovers a mysterious divine reality coequal with the maternal principle as an originating force in the psyche      The Dreaming Universe Fred Alan Wolf, 1995-06 Wolf provides a provocative exploration of the mysteries of how and why we dream artfully combining anthropology psychology and physics to present his revolutionary theory that establishes previously unrecognized links between the physical act of dreaming and the development of consciousness Line art      **Tantric Buddhism and Altered States of Consciousness** Louise Child, 2016-04-01 This book explores the role of altered states of consciousness in the communication of social and emotional energies both on a societal level and between individual persons Drawing from an original reading of Durkheimian social theorists including Mauss Hertz and Hubert and Jungian psychology Louise Child applies this analysis to tantric Buddhist ritual and biographical material She suggests ways in which dreams and visionary experiences including those related to the subtle body play an important and previously under explored role in tantric understandings of the consort relationship      **Jung and the Jungians on Myth** Steven Walker, 2014-04-08 Carl Gustav Jung 1875 1961 was never more insightful and intriguing than when he discussed mythology The key to understanding the Jungian approach to mythology lies in the concept of the image which provides the basis for his theory of the unconscious By emphasizing the image over the word Jungian psychology distinguishes itself dramatically from Freudian Lacanian and other psychologies that stress the task of interpreting the language the words of the unconscious In Jung and the Jungians on Myth Steven Walker carefully leads the reader through the essential lines of thought in Jungian psychology before developing his method for using Jungian ideas to approach mythological texts Whether one is sympathetic toward Jung's ideas or critical of them one will find in Walker's discussion a lucid introduction to Jungian perspectives on myth and psychology      The Dragon and the Rainbow Robert Blust, 2023-08-21 Modernization and conversion to world religions are threatening the survival of traditional belief systems leaving behind only mysterious traces of their existence This book based upon extensive research conducted over a period of nearly four decades brings scientific rigor to one of the questions that have always attracted human curiosity that of the origin of the dragon The author demonstrates that both dragons and rainbows are cultural universals that many of the traits that are attributed to dragons in widely separated parts of the planet are also attributed to rainbows and that the number and antiquity of such shared traits cannot be attributed to chance or common inheritance but rather to common cognitive pathways by which human psychology has responded to the natural environment

in a wide array of cultures around the world      *Developing Magical Consciousness* Susan Greenwood,2019-09-30 Offering a new template for future exploration Susan Greenwood examines and develops the notion that the experience of magic is a panhuman orientation of consciousness a form of knowledge largely marginalized in Western societies In this volume she aims to form a bridge of communication between indigenous magical or shamanic worldviews and rationalized Western cultures She outlines an alternative mythological framework for the latter to help develop a magical perception as well as giving practical case studies derived from her own research The form of magic discussed here is not fantastic or virtual but ecological and sensory Magical knowledge infiltrates the body in its deepest levels of the subconscious and unconscious as well as conscious awareness it is felt and understood through the connection with an inspirited world that includes the consciousness of other beings including those of plant animal and the physical environment This is anthropology from the heart rather than the head and it engages with the messy area of emotions an embodiment of the senses and struggles to find a common language of listening to one another across a void of differences The aim is to provide a non reductive structure for the creative interplay of both magical and analytical modes of thought Passion is a motivator for change and a change in attitude to magic as an integrative force of human understanding is the main thread of this work      **Alchemy** Marie-Luise von Franz,1980 It was the genius of C G Jung to discover in the holy technique of alchemy a parallel to the psychological individuation process This book by Jung s long time friend and co worker completely demystifies the subject Designed as an introduction to Jung s more detailed studies and profusely illustrated here is a lucid and practical account of what the alchemists were really looking for emotional balance and wholeness back cover      **The Illness that We are** John P. Dourley,1984 Dr Dourley Catholic priest and professor of religion explores Jung s assessment of Christianity questioning its essentially masculine orientation and its emphasis on perfection rather than wholeness as the goal      **Personality Types** Daryl Sharp,1987 Explains the model of psychological types elaborated by C G Jung Back cover      **Encyclopedia of Ancient Deities** Charles Russell Coulter,Patricia Turner,2013-07-04 The history of the divine is the history of human thought For as long as men and women have pondered the mysteries of their existence they have answered their own questions with stories of gods and goddesses Belief in these deities shaped whole civilizations yet today many of their names and images lie buried The Encyclopedia of Ancient Deities makes those names available to the general reader as well as the scholar This reference work lists all the known gods through recorded history Alphabetically arranged entries provide the name of each deity with alternate spellings as well as notes on names that may be linguistically or functionally related The tribe or culture that worshiped the deity is identified and the god s origins and functions are explained An extensive bibliography provides opportunities for further research and an exhaustive index provides access to the entries through virtually all names forms and kinds of deities      **Killing Beauty in North America** Constance Mills Atkins Buck PhD,2022-11-07 My great grandfather Brigadier General Anson Mills engaged in battle with the Sioux and Cheyenne Indians in South Dakota in the

1800s He led the battle against the Native people at the Battle of Slim Buttes in Montana War trophies considered sacred objects by the Indians included a beautiful beaded clothing a war bonnet with buffalo horns and a blanket strip They were only a few of the pieces I grew up with They hung on the walls of my parents home I remember as a child that I would physically cringe and contract around them I did not know why but I felt pain and heard them speak I am in pain I want to go home In the early 1970s I met the sacred Hat Carrier and other Cheyenne native people I returned the beautiful articles which were placed in the Jim Gatchell Museum in Buffalo Wyoming There are many stories told about European experiences when they landed Most stories idealize the experience of white males There are many other stories to be told This is one of them The Religious Dimension Donald Broadribb,2006 An examination of various world and ethnic religions with special attention to their historical development and to the psychology underlying them **The Alchemical Actor** Jane Gilmer,2021-05-12 The Alchemical Actor offers an imagination for new and future theatre inspired by the manifesto of Antonin Artaud The alchemical four elements earth water air and fire and the four alchemical stages nigredo albedo citrino and rubedo serve as initiatory steps towards the performance of transmutational consciousness The depth psychological work of Carl G Jung the theatre techniques of Michael Chekhov and Rudolf Steiner infuse this Great Work Jane Gilmer leads the reader through alchemical imaginations beyond material cognition towards gold making heart thinking key to new and future theatre Canadian Book Review Annual ,1990 **Cross-currents of Jungian Thought** Donald R. Dyer,1991

*Spiritual Telepathy* Colleen Mauro,2015-04-15 Colleen Mauro founded Intuition A Magazine for the Higher Potential of the Mind to introduce readers to the emerging field of intuition development In her new book she takes readers beyond the intuition basics and introduces them to the next step a more advanced form of intuitive perception called spiritual telepathy This book provides the ancient mind training techniques that will allow you to access the wisdom and guidance of your own soul These techniques once taught in the ancient mystery schools come from a body of knowledge called the Ageless Wisdom The Wisdom teachings tell us that the soul is our gateway to the higher worlds Through the soul we have access to the universal or divine mind where information on all subjects can be found In the past it s been only the special people our saints shamans and spiritual leaders who have had access to the higher worlds Colleen assures us that we can all gain access to that universal wellspring of inspiration and knowledge
