*The Rainhill Story* Anthony Burton, 1980 In 1829 the whole future of the steam locomotive was in the balance The Liverpool and Manchester Railway was almost completed and still no decision had been taken on how traffic was to be moved It was all to be decided at a trial at Rainhill This book describes the story of that historic event which was to assure the future of the railways and the steam locomotive **The Rainhill Story** Anthony Burton, 1980 *Iron Dawn* Richard Snow, 2017-10-24 An utterly absorbing account of one of history's most momentous battles Forbes that not only changed the Civil War but the future of all sea power from acclaimed popular historian Richard Snow who writes with verve and a keen eye The New York Times Book Review No single sea battle has had more far reaching consequences than the one fought in Hampton Roads Virginia in 1862 The Confederacy with no fleet of its own took a radical step to combat the Union blockade building an iron fort containing ten heavy guns on the hull of a captured Union frigate named the Merrimack The North got word of the project and in panicky desperation commissioned an eccentric inventor named John Ericsson to build the Monitor an entirely revolutionary iron warship Rushed through to completion in just one hundred days it mounted only two guns but they were housed in a shot proof revolving turret The ship hurried south from Brooklyn only to arrive to find the Merrimack had already sunk half the Union fleet and would be back to finish the job When she returned the Monitor was there She fought the Merrimack to a standstill and many believe saved the Union cause As soon as word of the fight spread Great Britain the foremost sea power of the day ceased work on all wooden ships A thousand year old tradition ended and the naval future opened Richly illustrated with photos maps and engravings *Iron Dawn* renders all previous accounts of the encounter between the Monitor and the Merrimack as obsolete as wooden war ships The Dallas Morning News Richard Snow brings to vivid life the tensions of the time in this lively tale of science war and clashing personalities The Wall Street Journal
