Lee, 1990-11-01 The history of Korea in the

The Routledge Companion to Korean Literature Heekyoung Cho, 2022-03-15 The Routledge Companion to Korean Literature consists of 35 chapters written by leaders in the field who explore significant topics and who have pioneered innovative approaches The collection highlights the most dynamic current scholarship on Korean literature presenting rigorous literary analysis interdisciplinary methodologies and transregional thinking so as to provide a valuable and inspiring resource for researchers and students alike This Companion has particular significance as the most extensive collection to date of English language articles on Korean literature it both offers a thorough intellectual engagement with current scholarship and addresses a broad range of topics and time periods from premodern to contemporary It will contribute to an understanding of literature as part of a broad sociocultural process that aims to put the field into conversation with other fields of study in the humanities and social sciences While presenting rigorous and innovative academic research that will be useful to graduate students and researchers the chapters in the collection are written to be accessible to the average upper level undergraduate student and include only minimal use of academic jargon In an effort to provide substantially helpful material for researching teaching and learning Korean literature this Companion includes as an appendix an extensive list of English translations of Korean literature *United States and Asia at War: A Cultural Approach* Philip West, Steven I.

Levine, Jackie Hiltz, 2015-06-03 This text examines the Pacific War the Korean War and the Vietnam War from the perspective of those who fought the wars and lived through them The relationship between history and memory informs the book and each war is relocated in the historical and cultural experiences of Asian countries **America's Wars in Asia**, Even though the cultural approach concerns itself with the local and the particular rather than with the abstract and universal it is inherently comparative Moreover it also relocates each war in the historical and cultural experiences of Asian countries themselves rather than seeing the war as merely a conflict between the United States and Asian nations *Modern Korean*

Drama Richard Nichols, 2011 Carefully selected and represented the plays in this collection showcase both the fantastic and the realistic innovations of Korean dramatists during a time of rapid social and historical change Stretching from 1962 to 2004 these seven works tackle major subjects such as the close of the Choson dynasty and the aftermath of the Korean War while delving into trenchant cultural issues such as the marginalization of students who rebel against mainstream education and the role of traditional values in a materialistic society Longtime scholar of Korea and its vibrant politically acute theater Richard Nichols opens with a general overview of modern Korean drama since 1910 and concludes with an appendix describing theater production and audience attendance in Seoul He chooses works that aren't just for Korean audiences These texts confront universal themes and situations tackling the problem of ambition the trouble with fidelity and the complexity of sexual and interpersonal relationships Nichols situates each work critically historically and culturally including brief biographies of playwrights and extensive notes A bibliography also provides alternative readings and the titles of additional plays currently available in English Primed for production these skillful translations provide Western directors with exciting new material for the stage At the same time they offer students and scholars a sophisticated survey of the modern Korean dramatic tradition

The Columbia Companion to Modern East Asian Literature Joshua S. Mostow, 2003-07-10 This extraordinary one volume guide to the modern literatures of China Japan and Korea is the definitive reference work on the subject in the English language With more than one hundred articles that show how a host of authors and literary movements have contributed to the general literary development of their respective countries this companion is an essential starting point for the study of East Asian literatures Comprehensive thematic essays introduce each geographical section with historical overviews and surveys of persistent themes in the literature examined including nationalism gender family relations and sexuality Following the thematic essays are the individual entries over forty for China over fifty for Japan and almost thirty for Korea featuring everything from detailed analyses of the works of Tanizaki Jun

ichiro and Murakami Haruki to far ranging explorations of avant garde fiction in China and postwar novels in Korea Arrayed chronologically each entry is self contained though extensive cross referencing affords readers the opportunity to gain a more synoptic view of the work author or movement The unrivaled opportunities for comparative analysis alone make this unique companion an indispensable reference for anyone interested in the burgeoning field of Asian literature Although the literatures of China Japan and Korea are each allotted separate sections the editors constantly kept an eye open to those writers works and movements that transcend national boundaries This includes for example Chinese authors who lived and wrote in Japan Japanese authors who wrote in classical Chinese and Korean authors who write in Japanese whether under the colonial occupation or because they are resident in Japan The waves of modernization can be seen as reaching each of these countries in a staggered fashion with eddies and back flows between them then complicating the picture further This volume provides a vivid sense of this dynamic interplay

Modern Korean Fiction Bruce Fulton, 2005 To represent the past century of Korean fiction this definitive collection extends beyond familiar writers challenges cultural norms and crosses political borders By including stories from neglected female North Korean and Wolbuk writers those who migrated to the North after 1945 and whose works were widely banned in South Korea and by bringing politically engaged works together with experimental ones this anthology articulates the ruptures and resolutions that have marked the peninsula From sketches of desperate peasants in straitened circumstances to fast moving visceral tales of contemporary South Korea the works in this collection bear witness to the dramatic transformations and events in twentieth century Korean history including Japanese colonial rule civil war and economic modernization in the South The writers explore these developments through a variety of literary and political lenses revealing with precision and poignancy their impact on Korean society and the lives of ordinary Koreans This anthology includes an introduction which synthesizes the key developments in modern Korean literature and a comprehensive bibliography of Korean fiction in translation

Remembering the Forgotten War Philip West, Suh Ji-moon, Donald Gregg, 2015-02-12 In contrast to the many books that use military diplomatic and historic language in analyzing the Korean War this book takes a cultural approach that emphasizes the human dimension of the war an approach that especially features Korean voices There are chapters on Korean art on the war translations into English of Korean poetry by Korean soldiers and American soldier poetry on the war There is a photographic essay on the war by combat journalist and Pulitzer Prize winning photographer Max Desfor Another chapter includes and analyzes songs on the Korean War Korean American and Chinese that illuminate the many complex memories of the war There is a discussion of Korean films on the war and a chapter on Korean War POWs and their contested memories More than any other nonfiction book on the war this one shows us the human face of tragedy for Americans Chinese and most especially Koreans June 2000 was the fiftieth anniversary of the outbreak of the Korean War this moving volume is intended as a commemoration of it

Global Cold War Literature Andrew Hammond, 2011-12-21 In countries worldwide the Cold War dominated politics

society and culture during the second half of the twentieth century Global Cold War Literatures offers a unique look at the multiple ways in which writers from Asia Africa Europe and North and South America addressed the military conflicts revolutions propaganda wars and ideological debates of the era While including essays on western European and North American literature the volume views First World writing not as central to the period but as part of an international discussion of Cold War realities in which the most interesting contributions often came from marginal or subordinate cultures To this end there is an emphasis on the literatures of the Second and Third Worlds including essays on Latin American poetry Soviet travel writing Chinese autobiography African theatre North Korean literature Cuban and eastern European fiction and Middle Eastern fiction and poetry With the post Cold War era still in a condition of emergence it is essential that we look back to the 1945-89 period to understand the political and cultural forces that shaped the modern world The volume's analysis of those forces and its focus on many of the hot spots Afghanistan Iran North Korea that define the contemporary war on terror make this an essential resource for those working in Postcolonial American and English Literatures as well as in History Comparative Literature European Studies and Cultural Studies Global Cold War Literatures is a suitable companion volume to Hammond's Cold War Literature Writing the Global Conflict also available from Routledge
