Corporate Disclosure and Corporate Governance in China Jane Fu,2010-01-01 Rapid economic development has focused attention from around the world upon China s corporate governance regime particularly as during the past few years some of China s companies mainly large state owned companies have been aggressively buying foreign businesses overseas China s huge capital injection and aggressive foreign investments have raised increasing and deep concerns among the target countries governments their business communities and the global public It is clearly of great importance that the people s Republic of China s business partner countries understand corporate governance of many Chinese state owned

companies calls for a closer look at China's corporate governance theory and practice. The corporate disclosure regime plays a critical role in this regard. This timely and highly informative book provides for the first time comprehensive research on corporate governance in China with detailed attention to the formation and reform of its corporate disclosure laws and regulations. Among the many factors analyzed are the following: the role of the government in the management of state-owned companies; the legal and regulatory environment; majority shareholders' infringement of listed companies' interests; the increasing independence of the boards of directors; the role of institutional investors; the shareholding structure; law enforcement; and shareholders' legal actions. Unmonitored insiders' control of corporate affairs, the external governance structure, and the absence of fiduciary duty. The author describes the nature of the many breaches of disclosure laws and rules in the two decades or so of the history of China's securities market and the pressures within the relevant government agencies confronting the problem. As a detailed analysis of the Chinese corporate disclosure regime that has emerged during the period of China's economic transition since the 1990s, this incomparable book will be of great interest to legal researchers, policymakers, and legal practitioners working with business investments in China.

The Enforcement of Securities Law in China Wenming Xu, 2022-03-14. The enforcement regime is further divided into the private enforcement exemplified by the civil litigation initiated by harmed investors and public enforcement by sanctions proceedings initiated by public agencies. Academic researchers, policy makers, and practitioners who are interested in the securities market and regulation could find the information provided in this book interesting.
