Turkish Foreign Policy in the 21st Century NERGİZ ÖZKURAL KÖROĞLU, HAMOON KHELGHAT-DOOST, 2023-04-21 The fading of the post WWII order called for Turkey to take on a new role in this new multi centered and multipolar era with new players emerging from different regions across the globe The new enterprising and humanitarian foreign policy is an effort to locate Turkey better in the 21st global politics While the literature on principles of Turkish foreign policy is abundant the actual mechanisms by which these principles are implemented in practice are still ambiguous to most scholars and foreign policy practitioners especially within the country's newly developed Turkish foreign policy framework This edited volume directs to shed light on this little explored aspect of Turkish foreign policy By critically analyzing several cases from different geographical locations this volume explains why Turkey developed a new foreign policy framework and by which mechanisms this new foreign policy framework has been implemented around the world This volume also critically explores how the new Turkish foreign policy framework customizes its tools and capacities in various international regions around the world

Euro-Mediterranean Security: A Search for Partnership Sven Biscop, 2017-11-22 This title was first published in 2003 This work provides a clearer understanding of the EU's approach towards security in the Mediterranean After examining the EU's interests and the potential threats to security in the region it analyzes EU security policy towards the region as a whole through the Euro Mediterranean Partnership and towards all disputes and conflicts in the area It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security

partnership between both shores The book argues that this way the EU could implement its innovative comprehensive and cooperative approach to security Rather than focusing on the military aspect alone this approach takes into account all dimensions of security political socio economic cultural and ecological and is based on partnership rather than confrontation It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy *Deciphering the Eastern Mediterranean's Hydrocarbon Dynamics* Bahrooz Jaafar Jabbar,2024-09-25 This comprehensive study delves into the strategic importance of the Mediterranean Sea and examines key conflicts as well as the roles of extra regional actors such as NATO Russia and the USA in shaping dynamics within the Eastern Mediterranean *Human Security in the Middle East and North Africa* Alaa Al-Din Arafat,2024-12-20 This book analyzes major human security threats in the MENA region including food water energy climate and health security It also examines sectarian conflict terrorism and poverty in the region The author highlights the relationship between human security concerns and conventional or military security threats He demonstrates how MENA nations failed to respond to the region s human security threats and to develop a human security formula and regional security architecture that included both human and conventional security threats Therefore this book concludes that the MENA region s future will be determined by its governments ability to address human security threats *U.S. Security Implications of International Energy and Climate Policies and Issues* United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on International Development and Foreign Assistance, Economic Affairs, International Environmental Protection, and Peace Corps,2015 *The Cyprus Review* ,1997 **Department of State Bulletin** ,1983 The official monthly record of United States foreign policy *Theoretical Approaches to Turkish Foreign Policy* Paul Kubicek,2023-08-22 This volume with contributions from well respected experts on Turkey examines how well different theories and frameworks in international relations explain various aspects of contemporary Turkish foreign policy TFP Exploring the value of both structural neorealist and ideational constructivist approaches the book s theory informed case studies on the features of TFP including Neo Ottomanism the role of religion and Turkey s relations with the European Union the Middle East Russia and the United States provide an analytical perspective on developments that have captured the attention of both academics and policymakers More importantly this collection examines the shift in Turkey s foreign policy stance from Western and secular non sectarian to Islamist Turkist Neo Ottomanist and Eurasianist orientations With Turkey assuming importance across a number of regions and issues this book will be a great resource for academics researchers and advanced students of Middle East Studies and Politics and International Relations This book was originally published as a special issue of the journal *Turkish Studies* **Sandstorm: Policy Failure in the Middle East** Leon Hadar,2015-03-31 The time has come for a serious debate on the future involvement of the United States in the Middle East and this original and provocative analysis challenges the prevailing wisdom of the Washington foreign policy establishment Hadar provides a sweeping reexamination of the conceptual bases of American policy and proposes a strategy of constructive

disengagement from the region a policy of benign neglect as a way of promoting the interests of the United States as well as those of the people of the Middle East In Sandstorm Hadar calls for regional states and the European Union to take increased responsibility for security economic growth and political stability This bold and innovative critique will inject new energy into the policy debate

The Southern Energy Corridor: Turkey's Role in European Energy Security Vedat Yorucu, Ozay Mehmet, 2017-10-03 This book highlights the importance of Turkey in diversifying supplies in future European energy security focusing in particular on the rapidly emerging southern energy corridor Turkey by its location occupies a key role in this corridor fed by hydrocarbon supplies from Russian Caspian east Mediterranean and Arab sources The book examines Turkey's role as a transit country in addition to its own growing domestic energy market and it utilizes the latest evidence on the geopolitics of various pipelines which convergence on Turkey The evidence including maps strongly favor Turkey as an energy hub within a regional energy model driven by rational behavior and market forces The book recommends an

increasing strategic energy cooperation between the EU and Turkey to maximize mutual interest

Turkey's Rise as an Emerging Power Paul Kubicek, Emel Parlar Dal, H. Tarik Oğuzlu, 2016-04-14 Turkey is emerging as an important actor in world politics exerting growing influence both in its immediate region and beyond This book aims to understand and explain this phenomenon utilizing a variety of perspectives from international relations theory One prominent issue is how Turkey long embedded in the West via NATO and other European organizations is growing more confident and is asserting more independent foreign policy positions This is particularly marked in the Middle East where some suggest Turkey is pursuing a neo Ottomanist agenda At times this competes with and creates tensions with the West However a rising Turkey can also be a constructive phenomenon and complement the West This book examines geopolitical economic and cultural dimensions of Turkey's rise pointing to both Turkish success and the limits of Turkish power and influence It includes consideration of Turkey's relations with NATO the European Union the Middle East and BRIC countries This book was published as a special issue of Turkish Studies
