## **Security In The Gulf:**

The Dilemma of Security and Defense in the Gulf Region Khalid Al-Jaber,Dania Thafer,2019-11-30 For a variety of contributing factors the defense and security status of the Gulf region is facing a dilemma between the maintenance of regional security and the preservation of domestic security interests This dilemma stems from the perceived decline of U S influence and lingering consequences of the Arab Spring movements Divisions and armed conflicts both within the Gulf itself and the surrounding region are a result of this changing political order and the ascension of many of the Gulf states on the international scene These evolving dynamics will set in motion various defense and security consequences for the Gulf and the greater Middle East which are addressed in this edited volume With contributions from practitioners as well as academics this book will be a vital resource for both researchers and policymakers *Gulf Security in the Twenty-First Century* David E. Long,Christian Koch,1998-08-27 The connection between regional instability and the preservation of global security is nowhere more sensitive than in the Gulf Events since the 1990 1991 Gulf War continue to confirm the fragile interaction among states in the region and their susceptibility to external forces Gulf Security in the Twenty First Century brings together some of the foremost area experts to explore the most pressing issues including military threats to the region obstacles to economic development and socioeconomic harmonization and challenges to political stability In particular the work examines Iran s often enigmatic foreign policy vis vis its Gulf neighbors Iraq s resurgent military threat choices and constraints confronting US Middle East policy and Europe s inability to identify and pursue a united policy to safeguard its economic interests in the area These topics are further illuminated with an analysis of Russia s historical attempt at balancing foreign policy objectives in the Gulf with its enduring interests in Central Asia The potentially explosive issues of religious radicalism and the challenges of democratic pluralism are discussed in an effort to ascertain the potential of political Islam to disturb or enhance regional security Similarly the problems inhibiting the settlement of territorial disputes in and around the Gulf are brought into focus to illustrate lingering historical tensions among neighboring states To round out the book s topical coverage several contributors shed light on the region s unfettered dependence on foreign labor growing demographic pressures associated social and economic transformations and challenges to responsive public policy

**Arabian Gulf Security** The Emirates Center for Strategic Studies and Research,2008-09-09 In recent years the Gulf region has witnessed a number of major regional international developments the most prominent of which being the war in Iraq and the crisis surrounding the Iranian nuclear program These developments have contributed to regional instability and have undermined efforts to achieve a balance of power in the Gulf region Furthermore during this period local apprehensions pertaining to the national security of the Gulf Arab countries have emerged These comprise the demographic imbalance stemming from the vast migrant labor force in the GCC states and concerns regarding the inherent threats of the rapid development being witnessed by the region owing to its increased openness to the global economy Internal and external

threats necessitate concerted efforts to reinforce regional Gulf security via the establishment of a regional security system involving all the countries of the region as well as the cooperation and contribution of other states and international organizations In formulating their new approach to security the GCC states must reinforce their ability to deter intervention in their affairs by large regional neighbors and extra regional actors The common crises and challenges threatening the security of the Gulf countries should be a catalyst for the formulation of a unified Gulf strategy which necessitates a greater role for the GCC in achieving regional stability and fortifying the national security of its states This book which consists of papers presented at the ECSSR s 12th Annual Conference of 5 7 March 2007 discusses both security threats and opportunities concerning the Gulf countries with special reference to the foreign military presence in the region and the instability stemming from Iraq and Iran It also investigates the need to establish a coherent and permanent defense system in the region Moreover it addresses internal security challenges facing the Gulf countries which have cross border repercussions such as organized crime and the demographic imbalance resulting from the flow of migrant labor to the region The book also discusses the challenges inherent to the processes of development international integration and increased openness to the global economy **The Gulf** Sreedhar,1983

**Security in the Gulf: Historical Legacies and Future Prospects** Matteo Legrenzi,2013-09-13 This book examines Gulf Security in a holistic way seeing past the narrow military aspect and also trying to debunk the conventional narratives propagated by regional and external actors In particular the emphasis is be on the historical legacy of Gulf security and the fundamental domestic and international vulnerabilities of the various states in the region This approach proves important in light of the recent efforts by Gulf states to recast their position in the international arena trying to peddle an image of self assertiveness and autonomy in the security sphere These new diplomatic stances do not seem to be borne out by their current security policies that are marked by apparent continuity with past practices In particular the new Gulf Asia nexus and the claims by Gulf monarchies that regional confidence building measures are appearing on the horizon are placed under critical scrutiny This is done by a sobering examination of the balance of threat in the region the historical amity enmity patterns and the evolving American stance A shorter modified version of this book was previously published as a special issue of the British Journal of Middle Eastern Studies **Saudi**

**The Small Gulf States** Khalid Almezaini, Jean-Marc Rickli, 2016-12-08 Small states are often believed to have been resigned to the margins of international politics However the recent increase in the number of small states has increased their influence and forced the international community to incorporate some of them into the global governance system This is particularly evident in the Middle East where small Gulf states have played an important role in the changing dynamics of the region in the last decade The Small Gulf States analyses the evolution of these states foreign and security policies since the Arab Spring With particular focus on Oman Qatar and the United Arab Emirates it explores how these states have been successful in not only guaranteeing their survival but also in increasing their influence in the region It then discusses the security dilemmas small states face and suggests a multitude of foreign and security policy options ranging from autonomy to influence in order to deal with this The book also looks at the influence of regional and international actors on the policies of these countries It concludes with a discussion of the peculiarities and contributions of the Gulf states for the study of small states foreign and security policies in general Providing a comprehensive and up to date analysis of the unique foreign and security policies of the states of the Gulf Cooperation Council GCC before and after the Arab Spring this book will be a valuable resource for students and scholars of Middle East studies foreign policy and international relations

The United Arab Emirates (UAE) has elaborated its own philosophy of security. Driven by emergencies and increasing risks both in the region and globally, Emirati authorities have developed a sense of anticipation as well as an agility to react promptly to new threats through the ability to assess the risks in any given situation. War and the avatars of conflict are a constant reality in the Middle East. Transnational threats including the regional context, the war in Yemen, insecurity in the Levant and tensions with Iran affect the overall stability of the Peninsula and consequently that of the UAE. Owing to the inclusion of the UAE in the networks of globalization, non-traditional security issues are not relegated to the background. Issues such as COVID-19, immigration, cybersecurity and human trafficking need to be addressed domestically as well as globally. This volume offers a comprehensive and multifaceted examination of the traditional and non-traditional security measures present in the UAE that allow the country to remain politically stable in an otherwise volatile region and aims to offer a comprehensive overview of all forms of security in the UAE. *The Security of the Persian Gulf* Hossein Amirsadeghi, 2011-02-25

The Persian Gulf is important because of its vast energy resources, which emerged into the limelight of geopolitics at the time of the British Labour government's policy of withdrawal from East of Suez in 1968. Before 1968 it had been recognised that the Gulf lay in the legitimate sphere of influence of Britain while the United States exerted its influence in the two pivotal littoral states of Iran and Saudi Arabia. The Soviets had been gaining influence in Iraq ever since the overthrow of the monarchy in 1958 and the Chinese were also fishing for influence by their support of the Popular Front for the Liberation of the Arabian Gulf. This book examines the political axes of the various super powers with Iran and the Persian Gulf and discusses the implications of these problems for the issue of security in the region. Security in the Persian Gulf G. Sick, L. Potter, 2002-01-11

This book is a follow-up volume to the acclaimed *The Persian Gulf at the Millennium*. Essays in Politics, Economy, Security and Religion published by St Martin's Press in 1997. The same editors who direct the Gulf 2000 Project at Columbia University have assembled a number of leading experts on the Persian Gulf to reflect on factors affecting security there in the twenty-first century. Most contributors are from the region itself and for the first time share the results of ongoing research with an outside audience. The chapters profile the diverse society in the Gulf and the historical pattern of Gulf security before focusing on current security concerns between Iran and the Arab states. They explore the mutual perceptions of the peoples of the Gulf today and the role of the new generation in shaping its future.

*Gulf Security and the U.S. Military* Geoffrey F. Gresh, 2015-06-10. The U.S. military maintains a significant presence across the Arabian Peninsula but it must now confront a new and emerging dynamic as most Gulf Cooperation Council countries have begun to diversify their political, economic and security partnerships with countries other than the United States with

many turning to ascending powers such as China Russia and India For Gulf Arab monarchies the choice of security partner is made more complicated by increased domestic and regional instability stemming in part from Iraq Syria and a menacing Iran factors that threaten to alter totally the Middle East security dynamic Understanding the dynamics of base politicization in a Gulf host nation or any other is therefore vitally important for the U S today Gulf National Security and the U S Military examines both Gulf Arab national security and U S military basing relations with Gulf Arab monarchy hosts from the Second World War to the present day Three in depth country cases Saudi Arabia Bahrain and Oman help explain the important questions posed by the author regarding when and why a host nation either terminated a U S military basing presence or granted U S military basing access The analysis of the cases offers a fresh perspective on how the United States has adapted to sometimes rapidly shifting Middle East security dynamics and factors that influence a host nation s preference for eviction or renegotiation based on its perception of internal versus external threats
