Seeds of Fire Gordon Thomas,2001 Gordon Thomas reveals information about China s intentions to use the current crisis to launch itself as a new super power and become America s new major enemy On September 11 2001 the Chinese Peoples Liberation Army had come to sign the contract with Afghanistan that would provide the Taliban with missile tracking state of the art communications and air defense systems *The Battle For China's Past* Mobo Gao,2008-02-20 Shows that the Mao era was beneficial for most Chinese citizens A powerful mixture of political passion and original research a brave polemic against the fashionable view on China Aims a knockout blow at Jung Chang s recent book on Mao which Bush and the conservatives have reviewed Gregor Benton Professor of Chinese History University of Cardiff This important book opens a much needed window onto Chinese perceptions of the country s post Mao direction Highlights the renewal of popular support for socialism and the growing opposition to contemporary state policies Martin Hart Landsberg Professor of Economics Lewis Clark College Portland Oregon Mao and his policies have long been demonised in the West with the Cultural Revolution considered a fundamental violation of human rights As China embraces capitalism the Mao era is being surgically denigrated by the Chinese political and intellectual elite This book tackles the extremely negative depiction of China under Mao in recent publications and argues most people in China including the rural poor and the urban working class actually benefited from Mao s policy of a comprehensive welfare system for the urban and basic health and education provision for the rural which is being reversed in the current rush towards capitalism By a critical analysis of the mainstream account of the Mao era and the Cultural Revolution and by revealing what is offered in the unofficial e media debates this book sets the record straight making a convincing argument for the positive effects of Mao s policies on the well being of the Chinese people **China Stands Up** , **Newsmax.com** ,2002-12 China, Japan and Regional Leadership in East Asia Christopher M. unwelcome but inevitable side effects such as official corruption high unemployment and significant socio economic inequality These factors culminated ultimately in the 1989 demonstrations in Tiananmen Square and throughout China Since Tiananmen the party has sought to diversify the basis of its legitimacy by adhering more closely to constitutional procedures in decision making and to a certain extent by reinventing itself as a conservative nationalist party This probing study of post communist revolution Chinese politics sets out to discover if there is a plausible alternative to the electoral mode or if legitimacy is the exclusive domain of the multi party system History and September 11th Joanne Jay Meyerowitz,2003 This collection of essays sets the attacks on the United States in historical perspective It rejects the notion of an age old clash of civilizations and instead examines the histories of American nationalism anti Americanism US foreign policy and Islamic fundamentalism amongst other topics **Servitors of Empire** Darrell Hamamoto,2014-08-01 Forcing a fundamental rethinking of the Asian American elite many of whom have attained top positions in business government academia sciences and the arts this book will be certain to generate a good deal of controversy and honest discussion regarding the role Asian Americans will play in the new century as China and India loom ever larger in the world economic system Not since the large scale infusion of scientists and engineers fleeing Nazi Germany has there been such a mass importation of intellectual labor from U S client states in Asia One of the specialized tasks assigned to this group is to build the technetronic infrastructure for the new world order command and control system Servitors of Empire is not intended to fan the flames of suspicion and paranoia aimed at Asian Americans but serves to illuminate the way in which highly trained knowledge workers are being employed to bring sovereign nations such as the United States under centralized rule made possible through advances in bioscience IT engineering and global finance **Theater Missile Defense (TMD) in East Asia** Lars Assmann,2007 As East Asia is entering the 21st Century Japan in reassessing its security environment and thus its strategic calculus is on the verge of deploying latest jointly researched theater missile defenses TMD to counter the threat of ballistic and cruise missiles In parallel the People s Republic of China is constantly modernizing its ballistic missile forces and is gearing up for a possible contingency with its self proclaimed high tech adversaries This work shows what drives Japan to deploy theater missile defenses and how the People s Republic of China is poised to be reacting to it *Culture Wars* ,2001 *The Hollowing of America* James A.
