Cockell, 2017-12-09 Sir Arthur Clarke Award Winner Many environmentalists think going into space detracts from solving problems on Earth Most space explorers feel environmentalism hampers their exploration of space Leading astro biologist Prof Cockell argues that environmentalism and space exploration have one and the same objective to ensure humanity has a home The Earth in Space Edward Payson Jackson, 1887 **The Orbital Perspective - An Astronaut's View** Ron Garan, 2015-11-05 For astronaut Ron Garan living on the International Space Station was a powerful transformative experience one that he believes holds the key to solving our problems here on Earth On space walks and through windows Garan was struck by the stunning beauty of the Earth from space but sobered by knowing how much needed to be done to help this troubled planet And yet on the International Space Station Garan a former fighter pilot was working side by side with Russians who only a few years before were the enemy If fifteen nationalities could collaborate on one of the most ambitious technologically complicated undertakings in history surely we can apply that kind of cooperation and innovation toward creating a better world That spirit is what Garan calls the orbital perspective Garan vividly conveys what it was like learning to work with a diverse group of people in an environment only a handful of human beings have ever known But more importantly he describes how he and others are working to apply the orbital perspective here at home embracing new partnerships and processes to promote peace and combat hunger thirst poverty and environmental destruction This book is a call to action for each of us to care for the most important space station of all planet Earth You don't need to be an astronaut to have the orbital perspective Garan's message of elevated empathy is an inspiration to all who seek a better world The Orbital Perspective An Astronaut's View is an inspirational knockout After reading this book you will refuse to accept the status quo on our planet WLADIMIR KLITSCHKO PHD UNDISPUTED HEAVYWEIGHT CHAMPION OF THE WORLD AND FOUNDER OF KLITSCHKO MANAGEMENT GROUP It is said that to understand a problem properly you need to get outside of it Ron Garan has certainly done that Ron's focus is on finding new connections and collaborations that cross borders of all sorts that might just allow us to transform the world for the better before we destroy this big blue ball we call home PETER GABRIEL MUSICIAN AND A FOUNDER OF WOMAD WITNESS AND THE ELDERS Ron Garan's breakthrough book is one of a kind Never before has a first hand account of lessons learned in space been applied to first hand humanitarian development work on Earth Ron masterfully synthesizes the big picture view of our world with the ground level details necessary to overcome the barriers to improving life for all people JIMMY WALES FOUNDER OF WIKIPEDIA Astronaut Ron Garan's fabulous book will transport you from the magnificent sense of possibility in outer space to the perspective of a worm on
