Seeing Venice Bellottos Grand Canal:

Seeing Venice Mark Doty, 2002 Bernardo Bellotto's magnificent View of the Grand Canal provides a rich visual record of life in eighteenth century Venice. This painting, one of the most popular in the Getty Museum, is so sweeping in its scope and so detailed that it requires repeated viewings to take in its portrait of daily life in Venice in the 1780s. This small book presents Bellotto's great painting in a series of beautiful details that allow the reader to examine the painting closely and enjoy the colorful and busy goings on of Venetian life captured so unforgettably by Bellotto. The book jacket unfolds to become a small poster of the painting in its entirety. Accompanying these delightful images is a lyrical essay by noted American poet Mark Doty. Together Bellotto's painting and Doty's prose make for an unforgettable encounter with the art and life of Venice.

Bernardo Bellotto and the Capitals of Europe Bernardo Bellotto, Irina Artem'eva, Irina Artemieva, Museo Correr, Andrzej Rottermund, Martina Frank, Museum of Fine Arts, Houston, Gregor J.M. Weber, 2001-01-01. Bernardo Bellotto is considered to be one of the greatest topographical and landscape painters of the eighteenth century. Trained as a painter of cityscapes, he produced vivid and memorable images of many of the greatest cities of Europe, including Venice, Florence, Rome, Dresden, Munich, Vienna, and Warsaw. He also ventured successfully into genre, portraiture, allegory, and history painting. This beautiful book, written by leading specialists on Bellotto, examines his career and artistic development, places his work in the context of the political needs of central European monarchs, and presents a selection of his major paintings from each of his principal periods and genres. Bellotto began as a painter of conventional views of Venice in the manner of his more famous uncle Canaletto. However, his quest for new subject matter led him to visit half a dozen cities in northern and central Italy in the early 1740s, and at twenty-five he left Italy for northern Europe, where he spent the rest of his life working for royal and aristocratic patrons. In Dresden, he was engaged in the service of Augustus III, where he created many glorious canvases and was awarded the title of Court Painter. He then moved to Vienna and recorded its attractions for Empress Maria Theresa. He ended his career as Court Painter in Warsaw, and his detailed paintings of the city played an important role in its reconstruction after the Second World War. The book demonstrates that in each of the places Bellotto lived, he was able to capture the particular light and life with sensitivity and imagination.

The Lure of Italy Julian Brooks, 2017-05-09. For centuries, Italy has fascinated travelers and artists. From the crumbling ruins of ancient Rome to the crystal clear light of Venice, artists have found inspiration not only in the cities but also in the countryside and in the deep history and culture. From as early as the 1500s, artists visiting from France, England, the Netherlands, and Germany drew sketches to preserve vivid memories, often creating work of extraordinary

atmosphere and beauty in the process A growing number of tourists in the subsequent centuries fueled a further demand for souvenir views spurring local artists to craft their own masterpieces This lovely book is a narrated assemblage of some of these beautiful views which transport the reader effortlessly to Italy rekindling memories setting intentions or provoking curiosity The text provides new insights into the topographical renditions of Italian scenes over the centuries while compelling illustrations of works from the Getty collection by artists such as Richard Parkes Bonington J M W Turner Claude Lorrain Giovanni Battista Lusieri Canaletto and many more capture the essence and spirit of Italy **Current Constents**

Bernardo Bellotto Stefan Kozakiewicz, Bernardo Bellotto, 1972 Venice from the Ground Up James H. S. McGregor, 2008-04-30 Venice came to life on spongy mudflats at the edge of the habitable world Protected in a tidal estuary from barbarian invaders and Byzantine overlords the fishermen salt gatherers and traders who settled there crafted an amphibious way of life unlike anything the Roman Empire had ever known In an astonishing feat of narrative history James H S McGregor recreates this world turned upside down with its waterways rather than roads its boats tethered alongside dwellings and its livelihood harvested from the sea McGregor begins with the river currents that poured into the shallow Lagoon carving channels in its bed and depositing islands of silt He then describes the imaginative responses of Venetians to the demands and opportunities of this harsh environment transforming the channels into canals reclaiming salt marshes for the construction of massive churches erecting a thriving marketplace and stately palaces along the Grand Canal Through McGregor's eyes we witness the flowering of Venice's restless creativity in the elaborate mosaics of St Mark's soaring basilica the expressive paintings in smaller neighborhood churches and the colorful religious festivals but also in theatrical productions gambling casinos and masked revelry which reveal the city's less pious and orderly face McGregor tells his unique history of Venice by drawing on a crumbling tide threatened cityscape and a treasure trove of art that can still be seen in place today The narrative follows both a chronological and geographical organization so that readers can trace the city's evolution chapter by chapter and visitors can explore it district by district on foot and by boat
