Normas, instituciones y procesos Pons Rafols, Xavier, 2013-01-01 La satisfacción de las necesidades alimentarias de los seres humanos constituye un objetivo crucial que depende de múltiples variables de carácter económico social y político que operan tanto a nivel estatal como internacional En tanto que objetivo crucial de clara dimensión internacional la lucha contra el hambre y la garantía del acceso a los alimentos debe constituir un fin prioritario de la sociedad internacional contemporánea Más aún cuando todos los especialistas coinciden en señalar que el hambre es un mal evitable ya que se trata esencialmente de un problema de desigualdad en la distribución Sin embargo el alejamiento en la consecución de los Objetivos de Desarrollo del Milenio relacionados con el hambre ha evidenciado las deficiencias del sistema de gobernanza global de la seguridad alimentaria y constituye una constatación del fracaso y del limitado alcance desde la perspectiva internacional de las políticas de desarrollo de las políticas de cooperación y de las políticas agroalimentarias **Alimentación sostenible, hambre y transición ecológica en el Derecho Internacional** García Juanatey, Ana, 2022-03-04 En esta obra la autora reflexiona sobre la contribución del derecho a la alimentación a la lucha contra el hambre y aborda las perspectivas de realización de este derecho fundamental en la próxima década en un contexto global marcado por un aumento de la desigualdad y por una crisis ambiental multidimensional que amenaza los sistemas alimentarios Ante esta crisis este estudio sitúa los derechos de las generaciones futuras y los límites de la matriz biofísica de nuestro planeta en el centro del debate sobre las políticas alimentarias Asimismo este trabajo considera la preocupación de que las medidas proclamadas para lograr una transición ecológica y energética puedan suponer una restricción del derecho humano a la alimentación y de otros derechos fundamentales de las generaciones actuales Ante estas consideraciones este trabajo propone hacer frente a estos retos desde el Derecho internacional vigente a través de un enfoque integrado entre el derecho a la alimentación y un conjunto de principios que han obtenido diferentes grados de reconocimiento internacional tales como el de integración el de uso sostenible de los recursos naturales y el de equidad intergeneracional Este enfoque integrado es útil para la elaboración de políticas alimentarias basadas en un derecho a la alimentación sostenible que logren un equilibrio justo entre las necesidades alimentarias presentes y las futuras Al combinar una aproximación jurídica con un enfoque divulgativo esta obra puede ser de interés tanto para juristas como para personas interesadas en la lucha contra el hambre en los derechos humanos y en cómo hacer frente a
