Wagner,2011-06-01 For many years Pulitzer Prize winner Ellen Glasgow has been regarded as a classic American regional novelist But Glasgow is far more than a Southern writer as Linda Wagner demonstrates in this fascinating reassessment of her work A Virginia lady Glasgow began to write at a time when the highest praise for a literary woman was to be mistaken for a male writer In her early fiction published at the turn of the century all attention is focused on male protagonists the strong female characters who do appear early in these novels gradually fade into the background But Ellen Glasgow grew to become a woman who born to be protected from the very life she wanted to chronicle moved beyond convention to live her life on her own terms And as her own self image changed the perspective of her novels became more feminine the female characters moved to center stage and their philosophies became central to her themes Glasgow s best novels then Barren Ground Vein of Iron and the romantic trilogy that includes The Sheltered Life came late in her life when she was no longer content to imitate fashionable male novelists Glasgow s increased self assurance as writer and woman led to a far greater awareness of craft Her style became more highly imaged more suggestive as though she wished to widen the range of resources available to move her readers She became a writer both popular and respected Her novels appeared as selections of the Literary Guild and the Book of the Month Club and one became a best seller At the same time she was chosen as one of the few female members of the Academy of Arts and Letters and in 1942 she was awarded the Pulitzer Prize for her novel In This Our Life

The Plantation in the Postslavery Imagination Elizabeth Christine Russ, 2009 In a provocative new approach toward understanding transnational literary cultures this study examines the specter of the plantation that physical place most vividly associated with slavery in the Americas For Elizabeth Russ the plantation is not merely a literal location but also a vexing rhetorical ideological and psychological trope through which intersecting histories of the New World are told Through a series of precise in depth readings Russ analyzes the discourse of the plantation through a number of suggestive pairings male and female perspectives U S and Spanish American traditions and continental alongside island societies To chart comparative elements in the development of the postslavery imagination in the Northern and Southern hemispheres Russ distinguishes between a modern and a postmodern imaginary The former privileges a familiar plot of modernity the traumatic transition from a local largely agrarian order to an increasingly anonymous industrialized society The latter abandoning nostalgia toward the past suggests a new history using the strategies of performance such as witnessing reticency and traversal Authors examined

include The Twelve Southerners Fernando Ortiz Teresa de la Parra Eudora Welty Antonio Benitez Rojo Gayl Jones Toni Morrison and Mayra Santos Febres among others Applying sharp analyses across a broad range of texts Russ reveals how the language used to imagine communities influenced by the plantation has been gendered racialized and eroticized in ways that oppose the domination of an ever shifting North while often reproducing the fundamental power divide Her work moves beyond the North South dichotomy that has often stymied scholarly work in Latin American studies and importantly provides a model for future hemispheric approaches

One Nation Underground Kenneth D. Rose, 2001-08-01 Why some Americans built fallout shelters an exploration America s Cold War experience For the half century duration of the Cold War the fallout shelter was a curiously American preoccupation Triggered in 1961 by a hawkish speech by John F Kennedy the fallout shelter controversy to dig or not to dig as Business Week put it at the time forced many Americans to grapple with deeply disturbing dilemmas that went to the very heart of their self image about what it meant to be an American an upstanding citizen and a moral human being Given the much touted nuclear threat throughout the 1960s and the fact that 4 out of 5 Americans expressed a preference for nuclear war over living under communism what s perhaps most striking is how few American actually built backyard shelters Tracing the ways in which the fallout shelter became an icon of popular culture Kenneth D Rose also investigates the troubling issues the shelters raised Would a post war world even

be worth living in Would shelter construction send the Soviets a message of national resolve or rather encourage political and military leaders to think in terms of a winnable war Investigating the role of schools television government bureaucracies civil defense and literature and rich in fascinating detail including a detailed tour of the vast fallout shelter in Greenbriar Virginia built to harbor the entire United States Congress in the event of nuclear armageddon One Nation Underground goes to the very heart of America s Cold War experience English Thematic Vocabulary Activities С. Garrison Metropolis casts light on the adaptive rehabilitation of this embattled universe through a regenerative doctrine of military intervention which has been christened Pure militarism This involves the enlistment of reformed Soldiers as part of a measured campaign against fratricidal bloodletting This campaign will keenly address the full depth of a culture of vileness in connection with adulteration and weaponized entrapment in a dystopian setting
