**Abraham Fraunce, 'The Shepherds' Logic' and Other Dialectical Writings** Zenón Luis-Martínez,2016-04-29  
Abraham Fraunce s *The Shepherds Logic* c 1585 is one of the first English adaptations of Petrus Ramus s *Dialecticae libri duo* 1556 Preserved in a manuscript also containing two shorter essays on Ramist dialectic the work was later modified and enlarged for publication as *The Lawyers Logic* 1588 But Fraunce s substantial and almost exclusive use of Edmund Spenser s *The Shepherds Calendar* 1579 as the source for practical examples makes the manuscript treatise a unique document revealing the influence of the Ramist reform of the arts of discourse on the new literary elite led by Philip Sidney and Gabriel Harvey This is the first published critical edition of Fraunce s early treatise and the two companion essays It presents the texts in modernized spelling traces their sources and contexts and draws out their literary and philosophical implications It also includes relevant excerpts from *The Lawyers Logic* such as Fraunce s quantitative verse translation of Virgil s Second Eclogue and its Ramist analysis and a full catalogue of the quotations from Spenser s *Calendar* As a whole this edition sees Fraunce s pastoral logic as a first hand testimony showing how scholarly training in the Renaissance arts of discourse enlightened the composition and interpretation of poetic texts      **The Shepherd's Calendar** Edmund Spenser,Theodore Bathurst,2022-10-27 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant      The Shepherd's Calendar, Containing Twelve Æglogues Proportionable to the Twelve Month Edmund Spenser,1732      **The Shepherd's Calendar** John Clare,1827      *The Shepherd's Calendar* John Clare,2015-02-17 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and
