Complete Illustrated Sherlock Holmes Arthur Conan Doyle, Sidney Paget, 2009 This handsome edition quarter bound in real cloth with head and tail bands a ribbon marker gilt top edge and illustrated cover boards presents all of Doyle s short stories and the four full length Sherlock Holmes novels **Sherlock Holmes** Arthur Conan Doyle, 1990 **The Detective's Companion in Crime Fiction** Lucy Andrew, Samuel Saunders, 2021-07-24 This book aims to establish the position of the sidekick character in the crime and detective fiction literary genres It re evaluates the traditional view that the sidekick character in these genres is often overlooked as having a small generic or singular role either to act as the foil to the detective in order to accentuate their own abilities at solving crimes or else to simply tell the story to the reader Instead essays in the collection explore the representations and functions of the detective s sidekick across a range of forms and subgenres of crime fiction By incorporating forms such as children s detective fiction comics and graphic novels and film and television alongside the more traditional fare of novels and short stories this book aims to break down the boundaries that

sometimes exist between these forms using the sidekick as a defining thread to link them together into a wider conceptual argument that covers a broad range of crime narratives *The Nineteenth Century Periodical Press and the Development of Detective Fiction* Samuel Saunders, 2021-05-11 This book reimagines nineteenth century detective fiction as a literary genre that was connected to and nurtured by contemporary periodical journalism Whilst detective fiction is almost universally accepted to have originated in the nineteenth century a variety of widely accepted scholarly narratives of the genre's evolution neglect to connect it with the development of a free press The volume traces how police officers detectives criminals and the criminal justice system were discussed in the pages of a variety of magazines and journals and argues that this affected how the wider nineteenth century society perceived organised law enforcement and detection This in turn helped to shape detective fiction into the genre that we recognise today The book also explores how periodicals and newspapers contained forgotten non canonical examples of detective fiction and that these texts can help complicate the narrative of the genre's evolution across the mid to late nineteenth century

Religion, Law and the Constitution Javier García Oliva,Helen Hall,2017-08-10 This book examines the existing constitutional and legal system in England Wales and Scotland through the prism of its treatment of religion and belief The study encompasses questions of Church state relations but pushes far beyond these It asks whether the approach to religion which has spread out from establishment to permeate the whole legal framework is a cause of concern or celebration in relation to individual and collective freedoms The primary focus of the work is the synergy between the religious dimension of the juridical system and the fundamental pillars of the Constitution parliamentary sovereignty the rule of law separation of powers and human rights Javier Garc a Oliva and Helen Hall challenge the view that separation between public and religious authorities is the most conducive means of nurturing a free and democratic society in modern Britain The authors explore whether counter intuitively for some the religious dynamic to the legal system actually operates to safeguard liberties and has a role in generating an inclusive and adaptable backdrop for our collective life They suggest that the present paradigm brings benefits for citizens of all shades of religious belief and opinion including Atheist and Humanist perspectives as well as secondary advantages for those with profound beliefs on non religious matters such as pacifism and veganism In support of their contentions Garc a Oliva and Hall examine how the religious dimension of the legal framework operates to further essential constitutional principles in diverse settings ranging from criminal to family law In a groundbreaking move the authors also set the legal discussion alongside its social and cultural context They consider how the theological perspectives of the larger faith traditions might influence members ideas around the key constitutional precepts and they include extracts from interviews which give the personal perspective of more than 100 individuals on contemporary issues of law and religious freedom These voices are drawn from a range of fields and positions on faith While the authors are at pains to stress that these sections do not support or advance their legal or theological conclusions they do provide readers with a human backdrop to the discussion and demonstrate its crucial importance in twenty first century Britain

Vision and Supervision Dale Mathers,2009-05-07 Supervision in analytical psychology is a topic that until recently has been largely neglected Vision and Supervision draws on archetypal classical and developmental Post Jungian theory to explore supervision from a variety of different avenues Supervision is a critical issue for therapists in many training programmes Quality of training and of therapeutic treatment is paramount and increasingly the therapy profession is having to devise ways of assessing and monitoring themselves and each other In this book Dale Mathers and his contributors emphasise a model of supervision based on parallel process symbol formation and classical Jungian analysis rather than developmental psychology or

psychoanalytic theory to show how respect for diversity can innovate the practice of supervision Divided into three sections this book covers the framework of supervision its boundaries and ethical parameters individuation supervision in different contexts including working with organisations and multicultural perspectives Written by experienced clinicians Vision and Supervision brings insights from analytical psychology to the supervisory task and encourages the supervisor to pay as much attention to what does not happen in a session as to what does It offers a fresh perspective for analysts and psychotherapists alike as well as other mental health professionals involved in the supervisory process **White Skins/Black Masks** Gail

Ching-Liang Low,2003-09-02 In this exciting re reading of the classic work of Haggard and Kipling Gail Ching Liang Low examines the representational dynamics of colonizer versus colonized Exploring the interface between the native other as a reflection and as a point of address the author asserts that this other is a mirror reflecting the image of the colonizer a cultural cross dressing Employing psychoanalysis anthropology and postcolonial theory Low analyzes the way in which fantasy and fabulation are caught up in networks of desire and power White Skins Black Masks is a fascinating entry into the current debate of post colonial theory *Work Want Work* Mareile Pfannebecker,James Smith,2020-03-15 Work Want Work considers in captivating detail how a logic of work has become integral to everything we do even as the place of formal work has become increasingly precarious With reference to sociological data philosophy political theory legislation the testimonies of workers and an eclectic mix of cultural texts from Lucian Freud to Google Anthony Giddens to selfies Jean Luc Nancy to Amy Winehouse Pfannebecker and Smith lay out how the capitalism of globalized technologies has put our time our subjectivities our experiences and our desires to work in unprecedented ways As every part of life is colonized by work without securing our livelihoods new questions need to be asked whether a nostalgia for work can save us how ideas of work change conceptions of political community how employment and unemployment alike have become malemployment and whether the work of our desire online can be disentangled from capitalist exploitation The biggest question at a time when the end of work and a fully automated future are proclaimed by Silicon Valley idealists as well as by social democratic politicians and left wing theorists is this how can we propose a post work society and culture that we will actually want
