Shiism The Formation Of The Classical Islamic World V 33 Hardcover:

Forthcoming Books Rose Army, 2003 American Book Publishing Record, 2003 **Another Mirror for Princes** Suraiya Faruqi, 2008 **Shi'ism** Etan Kohlberg, 2016-12-05 This volume brings together seventeen articles reflecting the wide range of scholarly interest in early Shi'ism over the past half century. All major branches of Shi'ism are covered. Some studies are historical in nature, whether dealing with specific events or offering a broad historical perspective. Others focus on literary issues on the development of doctrine or on the relations between the Shi'a and the non-Shi'i world. The studies have been selected because they represent the best of current scholarship or are classic works with continuing significance. Six appear for the first time in English translation. The editor's introduction reviews the historiography of the field and highlights directions and trends in research and is followed by a bibliography of key further reading. **Formation of the Classical Islamic World (series on Order)**, *The formation of the classical Islamic world*, 19?? **Formation of the Classical Islamic World**, **The School of Hillah and the Formation of Twelver Shi'i Islamic Tradition** Aun Hasan Ali, 2023-07-13 Against the background of long-standing narratives in which Twelver Shi'ism is viewed as fundamentally authoritarian, *The School of Hillah and the Formation of Twelver Shi'i Islamic Tradition* builds upon recent scholarship in the fields of Religious Studies, Anthropology, and History to argue that Twelver Shi'ism is better understood as a discursive tradition. At a conceptual level, this solves the basic problem of how to integrate the extraordinary diversity of Twelver Shi'ism across time and space into a single historical category without engaging in a normative assessment of its underlying essence. Furthermore, in light of this conception of tradition, the School of Hillah stands out as a seminal period in the archive of Twelver Shi'ism, though it has seldom been recognized as such in European language scholarship. Insofar as it gave birth to a conversation that would prove capable of encompassing the dynamism of Twelver Shi'ism, the School of Hillah should be considered the formative period of Twelver Shi'i tradition. Moreover, when the tradition is conceptualized in this manner, it is a bulwark against the very authoritarianism by which Twelver Shi'ism has been characterized for so long. **The Formation of Islam** Jonathan P. Berkey, 2003 Jonathan Berkey's 2003 book surveys the religious history of the peoples of the Near East from roughly 600 to 1800 CE. The opening chapter examines the religious scene in the Near East in late antiquity and the religious traditions which preceded Islam. Subsequent chapters investigate Islam's first century and the beginnings of its own traditions, the classical period from the accession of the Abbasids to the rise of the Buyid amirs and thereafter the emergence of new forms of Islam in the middle period. Throughout, close attention is paid to the experiences of Jews and Christians as well as Muslims. The book stresses that Islam did not appear all at once but emerged slowly as part of a prolonged process whereby it was differentiated from other religious traditions and indeed that much that we take as characteristic of Islam is in fact the product of the medieval period. **The Articulation of Early Islamic State Structures** Fred M. Donner, 2017-05-15 This volume reprints nineteen articles that deal with the formation of the first

Islamic state under the rightly guided and Umayyad caliphs 632-750 CE. The articles, five of which originally appeared in languages other than English and are translated here, trace the crystallization of key institutions of the growing empire and treat such fundamental issues as taxation, military institutions, administrative organization and practices, the barid or official courier and intelligence service, succession, the ruling elites and their income, and questions of legitimation. The volume includes an introduction by the editor that offers an overview of the processes involved and helps place each article in its proper context. It also offers an extensive bibliography of further works relevant to the theme of the volume.

Classical Islam G. E. von Grunebaum, 2017-07-28 In a book written with the poignancy and beauty appropriate to its subject matter, the author opens by reminding us that the essence of a society is in a sense identical with its history. Classical Islam also serves as a reminder that in the case of Islam, despite its triumphs on the fields of battle, telling its history is the only way open to us to render that essence accessible and show it from all sides. The work offers a grand narrative of a faith that offers an interpretation of the world, a way of life, and a style of thinking that goes far beyond institutional or political supports. The relevance of this historical perspective is beyond dispute. The period from 610 A.D. when Muhammad received his call until the conquest of Baghdad by the Mongols in 1258 is known as the classical period of Islam. This was the period of the great expansion of Islam both as a political structure and as a religious and intellectual community. It established the base for the development of the high Islamic civilization of North Africa, the Near East, Persia, and India, as well as further expansion of the Islamic religious and intellectual community throughout the world. This book presents an authoritative history of the period written by one of the world's leading experts on the subject. Classical Islam examines the relationships both cultural and political between the Islamic world and the Mediterranean countries and India and elaborates on the economic, social, and intellectual factors and forces that shaped the Muslim world and molded its interactions with infidels. The work is written in a clear and direct narrative form, emphasizing simultaneously the major intellectual trends and the political events and tendencies of the formative period in Islamic history that still resonates today.

Shi'i Islam Najam Haider, 2014-08-11 This book examines the development of Shi'i Islam through the lenses of belief, narrative, and memory.

The Caliph and the Imam Toby Matthiesen, 2023-03-09 Illuminates with clarity and insight a centuries-old sectarian division that continues to shape events in the Middle East and around the world. In 632, soon after the prophet Muhammad died, fights broke out among his followers as to who would succeed him. A small number of Muslims, who would become known as the Shia, believed only members of Muhammad's family should lead. The majority, however, the Sunnis, insisted that the leader should be elected by the community's elite. This initial dispute marks the origin of the Sunni-Shia split in Islam. In *The Caliph and the Imam*, Middle East scholar and expert Toby Matthiesen explores this hugely significant division from its origins to the present day. Moving chronologically, Matthiesen sheds light on how this initial divide has shaped and continues to influence current events in the Middle and Near East. His book spans from the 7th century to the present and in particular focuses on one of the key

moments in the conflict the Saudi Iranian divide the source of so much conflict in the Middle East Matthiesen emphasizes the period after the 1979 Iranian Revolution which precipitated the first recent hot war in the rivalry between Iran and Iraq and he reflects on Sunni and Shia jihadists and their influence on the political landscape of the world today Detailed thorough and illuminating The Caliph and the Imam will become the standard text for readers looking for greater understanding of the region s contemporary conflicts and their historical roots *The Venture of Islam, Volume 1* Marshall G. S.

Hodgson,1974-10-01 The Venture of Islam has been honored as a magisterial work of the mind since its publication in early 1975 In this three volume study illustrated with charts and maps Hodgson traces and interprets the historical development of Islamic civilization from before the birth of Muhammad to the middle of the twentieth century This work grew out of the famous course on Islamic civilization that Hodgson created and taught for many years at the University of Chicago This is a nonpareil work not only because of its command of its subject but also because it demonstrates how ideally history should be written The New Yorker Volume 1 The Classical Age of Islam analyzes the world before Islam Muhammad s challenge and the early Muslim state between 625 and 692 Hodgson then discusses the classical civilization of the High Caliphate The volume also contains a general introduction to the complete work and a foreword by Reuben Smith who as Hodgson s colleague and friend finished the Venture of Islam after the author s death and saw it through to publication **The**
