Shikasta Canopus In Argos Archives Re Colonised Planet 5:

Shikasta Doris Lessing, 2010-11-17 The first volume in the Canopus in Argos Archives series is presented as a compilation of documents reports letters speeches and journal entries and purports to be a general study of the planet Shikasta clearly the planet Earth to be used by history students of the higher planet Canopus and to be stored in the Canopian archives For eons galactic empires have struggled against one another and Shikasta is one of the main battlegrounds Johar an emissary from Canopus and the primary contributor to the archives visits Shikasta over the millennia from the time of the giants and the biblical great flood up to the present With every visit he tries to distract Shikastans from the evil influences of the planet Shammat but notes with dismay the ever growing chaos and destruction of Shikasta as its people hurl themselves towards World War III and annihilation

Canopus in Argos Doris Lessing, 1979 *The Secret Life of Genius* John Chambers, 2009-06-25 A look at the metaphysical experiences that shaped the lives and work of 24 great men and women from the Renaissance to modern times Chronicles the changing relationship with God nature and spirituality from the 16th century to the 20th century Includes encounters with the paranormal of Ben Johnson Isaac Newton Mary Shelley Leo Tolstoy Doris Lessing and Winston Churchill What role did the esoteric thought of Swedenborg play in the creative output of Honor de Balzac Did a supernatural encounter prompt Mary Wollstonecraft Shelley to focus her work on the theme of immortality Building on his earlier research on communications with the spirit world that Victor Hugo author of Les Misérables experienced while in exile on the isle of Jersey John Chambers now looks at the role occult knowledge and supernatural experiences played in the lives of 24 geniuses His investigation spans the life and work of William Blake Helena Blavatsky and W B Yeats whose esoteric interests are well known as well as those little suspected of such encounters with worlds beyond ours including Doris Lessing Leo Tolstoy Norman Mailer Yukio Mishima and Winston Churchill Chambers presents more than a collection of anecdotes and newly revealed secrets His research provides insightful historical context of the decisive turning point that took place with the collapse of Prague the occult capital of Europe in 1620 which resulted in the victory of Cartesian reality and Newton's scientific paradigm over the esoteric traditions that flourished until that time The magical and occult world shown in the lives of these 24 great men and women offers us a glimpse of what could still be ours a world that though it is now overshadowed by modern scientific and technological principles is yet still visible on the horizon through the visions and paranormal experiences of these geniuses

Home Matters R. Rubenstein, 2001-02-23 Despite its typically regressive associations with homesickness the longing associated with nostalgia may also function

progressively as a vehicle for imaginatively fixing the past in two senses securing and mending or repairing. Considering fiction by two British and six American women writers of different generations and ethnicities, this study explores tensions between home and exile, insider and outsider, longing and belonging, loss and recovery. Rubenstein argues that nostalgia functions narratively as a strategy for interrogating not only notions of home, homesickness, and homeland but also cultural, historical, dislocation, aging, and moral responsibility. These narratives reframe a significant locus of concern in contemporary female experience: personal and/or cultural displacement and longing for home are ultimately transmuted imaginatively at least by a restorative vision that enables healing and emotional repair.

Dancing at the Edge of the World Ursula K. Le Guin, 2017-07-18 Ursula Le Guin at her best. This is an important collection of eloquent, elegant pieces by one of our most acclaimed contemporary writers. Elizabeth Hand, *The Washington Post Book World*. I have decided that the trouble with print is it never changes its mind, writes Ursula K. Le Guin in her introduction to *Dancing at the Edge of the World*. But she has, and here is the record of that change in the decade since the publication of her last nonfiction collection, *The Language of the Night*. And what a mind, strong, supple, disciplined, playful, ranging over the whole field of its concerns from modern literature to menopause, from utopian thought to rodeos, with an eloquence, wit, and precision that makes for exhilarating reading. If you are tired of being able to predict what a writer will say next, if you are bored stiff with minimalism, if you want excess and risk and intelligence and pure orneriness, try Le Guin. Mary Mackey, *San Francisco Chronicle*.

Gothic Dimensions Moira Martingale, 2013-09-01 IAIN BANKS was one of the finest writers of his generation. *The Wasp Factory* appeared in 1984 to great and gratifying controversy; one reviewer helpfully described it as a work of unparalleled depravity. There were a further 27 works of fiction from the prolific Banks before his untimely death in June 2013 at the age of 59, his customary method being to alternate between contemporary fiction and science fiction, the latter genre published under the name of Iain M. Banks. In 2008 *The Times* named Banks in their list of the 50 greatest British writers since 1945. This book by Moira Martingale is the first full-length comprehensive analysis of Banks's oeuvre and the thematic and very Gothic interests which preoccupied him. These interests include human monstrosity, religious belief, the fluidity of identity, the evolution of humankind, and the technological adaptations which may order our future. At the outer limits of time and space can be found Banks's Utopian space civilization, *The Culture*. With its emphasis on the distant and unearthly and the opening of the mind to imaginative possibilities, science fiction shares common ground with Gothic fiction of former centuries, and the Gothic is inherent to all Banks's fiction, dealing as it does with the ambiguities which wriggle uncomfortably and uncannily around the boundaries between good and evil, life and death, victim and villain, past and present, civilization and primitive barbarity, organic and machine, or artificial technology. In most of Banks's work, conventions of the Gothic boil or simmer, whether it be the barbarities of the past entering the present, the ambivalent literary device of the Doppelgänger, or the blurred boundaries between the life of the dreaming unconscious and real life. Banks incorporates the fantastic, the mythological, and the

psychological to re sculpt the Gothic s early fictional motifs and ethical concerns for our own time and then he projects them star wards enabling him to elaborate a futuristic myth of socio political salvation through technological expertise With reference to many other writers including J G Ballard Stephen King Doris Lessing Mary Shelley and Banks s fellow Scot Alasdair Gray this book rather in the style of the Gothic itself straddles the boundary dividing the scholastic from popular writing The style is clear and accessible and should appeal to both the academic and the general intelligent reader of Banks s work MOIRA MARTINGALE is a journalist author and former columnist for national and regional newspapers Her previous books were published in the UK by Robert Hale and internationally by various publishers She has a doctorate in Gothic Literature Doris Lessing Elizabeth Maslen,2014 This study covers the full range of Doris Lessing s work and explores in detail both its form and content From *The Grass is Singing* through to *Alfred and Emily* her main concerns are shown to have a remarkable continuity both in her commitment to political and cultural issues and in her explorations of inner space

Modern British Women Writers Vicki K. Janik,Del Ivan Janik,2002-11-30 The 20th century witnessed several major cultural movements including modernism anti modernism and postmodernism These and

other means of understanding and perceiving the world shaped the literature of that era and with the rise of feminism resulted in a particularly rich body of literature by women writers This reference includes alphabetically arranged entries on 58 British women writers of the 20th century Some of these writers were born in England while others such as Katherine Mansfield and Doris Lessing came from countries of the former Empire or Commonwealth The volume also includes entries for women of color such as Kamala Markandaya and Buchi Emecheta Each entry is written by an expert contributor and includes an overview of the writer s background an analysis of her works an assessment of her achievements and lists of primary and secondary sources The volume closes with a selected general bibliography **Doris Lessing and Sufi**

Equilibrium S. Fahim,1994-07-12 The purpose of this study is to examine the rationale of Doris Lessing s development from Classical Realism to mysticism and forms of science fiction and to consider the unifying motifs that appear throughout her novels in her consistent search for Sufi Equilibrium The four novels selected in this study represent significant stages in Lessing s work Chapter one focuses on *The Grass is Singing* which represents the author s early traditionally realistic writing to show how far the preoccupations of Lessing s later novels find expression in this early work Chapter two studies *The Golden Notebook* which marks a turning point in formal structure in Lessing s canon and is selected as evidence of her interest in Sufism at that early stage Chapter three concentrates on the study of *The Memoirs of a Survivor* which has elicited a comparatively limited amount of criticism but which proves to be a major achievement when brought into line with Sufi methods of writing Chapter four considers Lessing s science fiction series *Canopus in Argos* tracing sources from Oriental literature a key which unlocks many areas of obscurity **The Subject of Race in American Science Fiction**

Sharon DeGraw,2006-12-19 While the connections between science fiction and race have largely been neglected by scholars racial identity is a key element of the subjectivity constructed in American SF In his *Mars* series Edgar Rice Burroughs primarily supported essentialist constructions of racial identity but also included a few elements of racial egalitarianism Writing in the 1930s George S Schuyler revised Burroughs normative SF triangle of white author white audience and white protagonist and promoted an individualistic highly variable concept of race instead While both Burroughs and Schuyler wrote SF focusing on racial identity the largely separate genres of science fiction and African American literature prevented the similarities between the two authors from being adequately acknowledged and explored Beginning in the 1960s Samuel R Delany more fully joined SF and African American literature Delany expands on Schuyler s racial constructionist approach to identity including gender and sexuality in addition to race Critically intertwining the genres of SF and African American literature allows a critique of the racism in the science fiction and a more accurate and positive portrayal of the scientific connections in the African American literature Connecting the popular fiction of Burroughs the controversial career of Schuyler and the postmodern texts of Delany illuminates a gradual change from a stable essentialist construction of racial identity at the turn of the century to the variable social construction of poststructuralist subjectivity today **Critical**

Essays on Doris Lessing Claire Sprague, Virginia Tiger, 1986 **Substance Under Pressure** Betsy Draine, 1983 *The Fifth Child* Doris Lessing, 2010-11-17 Doris Lessing's contemporary gothic horror story centered on the birth of a baby who seems less than human probes society's unwillingness to recognize its own brutality Harriet and David Lovatt parents of four children have created an idyll of domestic bliss in defiance of the social trends of late 1960s England While around them crime and unrest surge the Lovatts are certain that their old fashioned contentment can protect them from the world outside until the birth of their fifth baby Gruesomely goblin like in appearance insatiably hungry abnormally strong and violent Ben has nothing innocent or infant like about him As he grows older and more terrifying Harriet finds she cannot love him David cannot bring himself to touch him and their four older children are afraid of him Understanding that he will never be accepted anywhere Harriet and David are torn between their instincts as parents and their shocked reaction to this fierce and unlovable child whose existence shatters their belief in a benign world
