Video Plan, Script, and Produce Engaging Content Without Showing Your Face Maeve Kincaid, 2025-09-05 You don't need to be on camera to share your knowledge, teach effectively or even build an online presence. Faceless video has become one of the most accessible and powerful ways to reach audiences and teachers are uniquely positioned to use it. This book shows you how to create professional quality videos that engage and inform without ever stepping in front of the lens. Inside you'll learn how to plan and script your lessons or tutorials for clarity, capture or source the right B-roll to illustrate your ideas and record voiceovers that sound confident and natural. With easy-to-follow workflows and teacher-focused examples you'll discover how to transform your expertise into polished video content that feels professional but is simple to produce. Whether you're building resources for your students, creating educational content online or exploring video as a side hustle, this guide will help you skip the overwhelm and focus on what works. With the right tools and approach you'll be ready to teach and share on camera without ever being on camera. **The poetry of real life** Henry Ellison (of Christchurch, Oxford.), 1844

The Poetry of Real Life: a New Edition, Much Enlarged and Improved, Etc Henry ELLISON (Poet.), 1844 *Proxistant Vision* Synne Tollerud Bull, Dragan Miletic, 2025-06-24 How the surge in aerial technologies such as drones and satellites influences visual culture beyond the screen. The smooth flight from aerial overview to intimate close-up in Martin Scorsese's *Hugo* 2011 exemplifies the concept of proxistant vision, a combination of proximity and distance, close-up and overview, detail and the big picture in a unified visual form. In *Proxistant Vision* Synne Bull and Dragan Miletic develop the concept of proxistant vision and trace its emergence as a visual paradigm of the twenty-first century. As exemplified by Google Earth's digital swipe between globe perspective and street-level detail, proxistant vision currently proliferates across digital geography, computer games, architectural models, data visualizations and CGI cinema. It is defined as the combination

of proximity and distance in a single image across a dynamic flight or zoom Pointing to the surge in aerial imaging and remote sensing technologies such as drones and satellites the book moves beyond the screen to include the kinetic architecture of rides and urban observation wheels The key objective of this study is threefold to trace the genealogy and understand the technical operation of proxistance as it traveled from periphery to center in the twenty first century to explore its alternative potentialities in contemporary art practices and finally to reflect critically on the worldviews underpinning different modalities of proxistance in times of environmental crisis The authors show how the powerful effect of combining proximity and distance which was already in place with the earliest cartographic inscriptions has taken precedence on and beyond our screens today *The Complete WWF Video Guide Volume V* James Dixon,Arnold Furious, Lee Maughan,Bob Dahlstrom,Rick Ashley,2014-04-03 An invaluable resource for any wrestling fan of the era The fifth in the series from [www historyofwrestling info](http://www.historyofwrestling.info) This is the complete guide to every WWF VHS release from October 1999 to May 2002 with full reviews of every tape alternative wrestler bios exclusive artwork by Bob Dahlstrom awards match ratings and much much more Read about the failed WCW invasion angle the return of Hulk Hogan Ric Flair Kevin Nash Scott Hall and many others relive some of the greatest matches of any era cringe at some of the worst enjoy the rise of Triple H to genuine main event player witness the Rock take off as an icon on a whole new level Plus Tough Enough who ran over Steve Austin TLC matches Diva tapes and much much more By far the biggest book the team have ever done featuring more in depth analysis and comment than ever before The Fuss About Queens and Other Stories Darius Cooper,2014 *The Fuss About Queens and Other Stories* a brilliant collection of short stories by Darius Cooper delves into disparate universes including the charming world of the Parsis in Mumbai caught in a cultural and historical time warp with the fire temple the tower of silence dusty tomes of Dostoevsky and the British monarch s portrait in a drawing room set up with period furniture a truly stunning mosaic *Talking Points* Includes some of the finest short stories by the author Each story provides a glimpse into the humanistic outlook of the writer Encompasses a variety of socially relevant themes that are close to the writer s heart

Journalism, Reporting, Writing and Editing Rowan Kidd,2018-01-25 The present book has been brought into being in view of incessant demand pertaining to the subject Journalism inherently requires that stories be told in depth Many newspapers

have cut out long articles even before the Internet They have followed the example set by television news They have been hit by the rising price of newsprint and the renewed emphasis on cost cutting They are convinced that readers are pressed for time impatient with detail and conditioned to ingest the news in pellet like form The bulk of broadcast news is reporting in the sense that is used is different rather than journalism It is epitomized by the two minute wire service radio bulletin on the hour already a fast disappearing format In this incisive and well presented work the book has synthesized the findings to lay down principles of sound journalism for both those in the industry and the citizens who rely on the free press as a fundamental element of democracy First and foremost among these principles is journalism s obligation to the truth It will immensely benefit students teachers mass communicators theoreticians and practitioners alike Something usable today a ready reckoner for years to come and a collector s item for all times A must read enduring and preservable **The**
