Shining Ones:

The Shining Ones Philip Gardiner, Gary Osborn, 2012-01-01 The story of the mysterious ancient priesthood with a mission to preserve their secret knowledge to help humanity but also to control the development of the world **Shining Ones** David Eddings, 1994-07-02 NEW YORK TIMES BESTSELLER Sparhawk's legendary journey continues in Book Two of The Tamuli Years past the Child Goddess Aphrael had hidden Bhelliom the Stone of Power It rested at the very bottom of the deepest ocean that nevermore should its awesome power sing temptation to mortal men Then a menace arose a malign force wielding incomprehensible destruction across all the lands To halt that force of evil Sparhawk knight and queen's champion set out to retrieve the sapphire rose from its briny sleep even as his foes sought the gem for their own diabolical ends Sparhawk and his loyal companions must find the Stone and safeguard it both from those who sought to steal it and from the horrors those evildoers had already loosed upon the world The most feared of all the monsters that terrorized Tamuli were the Shining Ones dreaded glowing beings whose mere touch could melt human flesh from bone All too soon Sparhawk and his companions found themselves stalked by those fell creatures out of myth For the Shining Ones too had designs on Bhelliom designs that would change the very shape of the world *The Kingdom of the Shining Ones* Flower A. Newhouse, 2013-10 This is a new release of the original 1955 edition *The Shining Ones* Philip Gardiner, 2002 For many years now there has been an upsurge in revelation stories and alternative viewpoints on man's history People such as Graham Hancock and Lawrence Gardner have brought to light many new ideas and many new problems Now there is a new theory which is all encompassing and clearly brings into focus a more sinister reason behind the emergence of civilisation In his theory on Atlantis Graham Hancock is receiving much admiration and academic acclaim Standard academic thought is more towards the spontaneous eruption of civilisation across the globe with little or no explanation of why there are so many similarities between the cultures Now Philip Gardiner in his new book THE SHINING ONES is set to turn even this upon its head The theory is so simple that it begs the question why has it not been thought of before The reason for universal similarity of architecture language art travel and religious belief is quite simply an ancient and secret religious brotherhood who have hidden themselves deep within the symbols ciphers and codes of our ancient texts for hundreds of years They held a secret knowledge and power base which spread with them across the globe The very title that they have given themselves is hidden within the standard text and religious books we use every day The Shining Ones Put like this the whole thing can sound like an X Files conspiracy theory However the author has invested huge amounts of time and energy checking researching and seeking the advice of academics Now the theory is attracting the attention of historians who can see that the patterns are as subtle as this author proposes The fact is this theory does explain away all the problems with dating and variations that people such as Hancock have come up against Many academics and especially Egyptologists are now turning to this way of thinking and with Gardiner's spirit and broad knowledge in history and language the history of the ancients and

the secrets that they hold are becoming more clear There are of course dissenters The author has been accosted for his standpoint and there are still those hardened academics and even non academics who refuse to even listen However there is a major TV documentary in pre production stages and with interviews planned across the nation on radio and TV the message may soon be accepted as a credible theory

The Shining Ones Philip Gardiner, Gary Osborn, 2006 The Shining Ones were members of an advanced culture that was almost lost but their wisdom and their power survived They preserved the secrets of their advanced knowledge in mythology and legend they embedded their secret codes in symbolism in art architecture the mystery traditions and literary works including the Bible The authors have found traces of the influence of The Shining Ones in all the major religions with roots in the ancient world Gardiner and Osborn have discovered that their secrets and rituals have been hidden and preserved through the centuries by the Knights Templar the Rosicrucians and the Freemasons to the present day Furthermore they believe that the evolution of civilization has been manipulated by a secret and powerful group of initiates descended from The Shining Ones They can identify their influence behind science religion mysticism and philosophy and of course in the arena of powerful politics This is an extraordinary story of intrigue and power play at a very human and political level But it is also the revelation that the Shining Ones had knowledge of the deep spiritual truth that lies at the heart of mankind's yearning for an understanding of the meaning of life and to achieve salvation

Jumpin' Jehovah Paul Tice, 2007-07 With this book your views on God will never be the same With clear Biblical evidence Jehovah is shown to be an entity with no sense of ethics forgiveness or compassion Was Jehovah a god or a demon Why did he never promise a heaven or any kind of reward to his followers Does any entity that murders thousands of devoted followers deserve to be worshiped Jehovah has stopped punishing people in terrible ways so its probably safe to buy this book

Secret Societies Philip Gardiner, 2025-09-12 With his recent best selling books and hundreds of articles as well as radio and TV appearances Philip Gardiner has started a crusade for uncovering the truth and nothing could be more indicative of that search than his latest foray into the dark and often sinister world of secret societies Yet again Gardiner finds himself on a journey across the world to uncover the ancient secrets of the world s most powerful men In one dramatic episode he finds himself driven out of Berlin in a black Mercedes by a secret organization that was believed to have disappeared after the second World War and eventually arrives in a modern Nazi watering hole Gardiner however survives this incredible journey and brings us the secrets of the Order held sacred for so long Gardiner delves into a world that is often hidden from our eyes and finds himself in situations that seem to mirror the fictional world of the Da Vinci Code Throughout Secret Societies Gardiner Uncover an ancient secret society thought to have died out many years ago Gets to the core of the secret societies belief systems Explores the secret origins of Freemasonry and the links to secret Serpent Cults Investigates the secret hidden meaning of King Arthur and Robin Hood Examines the claimants to the name of Illuminati and analyzes the history of the group in Europe and America Reveals the secret links within the Vatican and the Nazi Party Looks in depth at the white powdered gold theory supposedly kept secret by orders throughout time and radically re appraises it Shows the link between the so called enlightenment experience and the control of our minds Nobody in the genre involves themselves in the tale in the same way that Gardiner does and here he shows that the search for ultimate truth can often be a terrifying one
