Ship Revolution In Merchant Shipping:

The Shipping Revolution Robert Gardiner,1992 This volume charts the post World War II rehabilitation of the world's merchant fleets and the accelerated pace of change from 1960 onward [The Ship: The revolution in merchant shipping](#),1980 *Maritime Science and Technology: Changing Our World* Nigel Watson,2015-01-01 This book addresses some key questions Did the marine sector drive the developing technologies Or did it just adopt them It would appear that the former is the case as the industry has moved from sail to steam from steam to internal combustion engines from wood to steel and to increasing sizes and types of specialist vessels the pioneers of naval architects and marine engineers have applied the latest technologies and our global society has benefited [The Ship](#) Ewan Corlett,National Maritime Museum (Great Britain),1981

The Evolution and Significance of the Powered Bulk Carrier Roy Fenton,2023-04-03 The book is the first to detail the 170 year evolution of the powered bulk carriers which continue to have a major role in the world's trades and economies Their design and technological development is traced from the screw colliers of the 1850s which revolutionised the British coastal coal trade The same engineering principles were applied to produce ocean going steam and later motor tramps By the end of the 19th century the capabilities and economies of these black freighters had captured from the sailing ship much of the world's trade in bulk commodities In the second half of the 20th century the tramps in turn evolved into multi purpose dry bulk carriers These workhorses of the sea transport commodities including metallic ores grain coal timber and other minerals Quantities of up to 400 000 tons are carried in the largest specialised ore carriers In a parallel development applying the same technical principles produced smaller yet efficient steam and later motor coasters which came to dominate short sea shipping The book concludes with a discussion of how the economies of transportation provided by bulk carriers have had profound effects on industrialisation globalisation and the world's economy and discusses the environmental impact of these ships **Naval Control of Shipping** United States.
