The Unmanageable Consumer Yiannis Gabriel,Tim Lang,2015-09-21
The Unmanageable Consumer has long been one of my favorite books in the sociology of consumption
This long overdue third edition has updated and revised the basic argument in many ways
Most importantly it now offers a new chapter on the consumer as worker or more generally the prosumer
Assign it to your classes I have and will again and read it for your edification
George Ritzer Distinguished University Professor
University of Maryland USA
Western style consumerism is often presented as unstoppable yet its costs mount and its grip on consumer reality weakens
In this 20th Anniversary edition Gabriel and Lang restate their thesis that consumerism is more fragile and unmanageable than is assumed by its proponents
Consumerism has been both stretched and undermined by globalization the internet social media and other cultural changes
Major environmental threats debt squeezed incomes and social inequalities now temper Western consumers appetite for spending
The 20th century Deal first championed by Henry Ford of more consumption from higher waged work looks tattered
This edition of The Unmanageable Consumer continues to explore 10 different consumer models and encourages analysis of contemporary consumerism
It looks at the spread of consumerism to developing countries like India and China and considers the effects of demographic changes and migration and points to new features such as consumers taking on unwaged work
New to this edition
Coverage of new phenomenon such as social media and emerging markets
Explores contemporary topics including the occupy movement and horsemeat

scandal A new chapter on the consumer as worker This is a remarkable and important book The new edition updates consumer cultural studies to take into account austerity politics and the economic crisis and the impact these have had on how we think about and experience everyday practices of shopping and consuming The authors also build on and maintain the lively and challenging argument from the previous volumes which sees the consumer as an unstable space for a multiplicity of often contradictory responses which can unsettle the various strategies on the part of contemporary capitalism to have us buy more Angela McRobbie Goldsmiths University of London The book exemplifies how social science should be engaged insightful imaginative scholarly and highly socially and politically relevant Strongly recommended to students academics as well as all people interested in understanding our time and themselves in an age of consumerism and false promises Mats Alvesson Professor of Business Administration Lund University Sweden
