Short History Of Medieval Philosophy:

A Short History of Medieval Philosophy Julius Rudolf Weinberg, 2018-06-05 In this brief book the author examines the central doctrine of important Christian Jewish and Muslim philosophers and shows the contributions of medieval thought to present day philosophy Intended not only for philosophers but for anyone seeking a concise and reliable survey *A Short History of Medieval Philosophy* Julius Rudolph Weinberg, 2013 *A Short History of Medieval Philosophy* Julius Rudolph Weinberg, 1969 *A Short History of Medieval Philosophy* Kaoru Aoki, 1964 *A Short History of Medieval England* Alan Gordon Smith, 1925 *The A to Z of Medieval Philosophy and Theology* Stephen F. Brown, Juan Carlos Flores, 2010-03-23 The Middle Ages is often viewed as a period of low intellectual achievement The name itself refers to the time between the high philosophical and literary accomplishments of the Greco Roman world and the technological advances that were achieved and philosophical and theological alternatives that were formulated in the modern world that followed However having produced such great philosophers as Anselm Peter Abelard John Duns Scotus William of Ockham Peter Lombard and the towering Thomas Aquinas it hardly seems fair to label the medieval period as such Examining the influence of ancient Greek philosophy as well as of the Arabian and Hebrew scholars who transmitted it *The A to Z of Medieval Philosophy and Theology* presents the philosophy of the Christian West from the 9th to the early 17th century This is accomplished through a chronology an introduction appendixes a bibliography and hundreds of cross referenced dictionary entries on the philosophers concepts issues institutions and events making this an important reference for the study of the progression of human thought *Historical Dictionary of Medieval Philosophy and Theology* Stephen F. Brown, Juan Carlos Flores, 2018-08-10 This second edition concentrates on various philosophers and theologians from the medieval Arabian Jewish and Christian worlds It principally centers on authors such as Abumashar Saadia Gaon and Alcuin from the eighth century and follows the intellectual developments of the three traditions up to the fifteenth century Ibn Khaldun Hasdai Crescas and Marsilio Ficino The spiritual journeys presuppose earlier human sources such as the philosophy of Plato Aristotle Plotinus and Porphyry and various Stoic authors the revealed teachings of the Jewish Law the Koran and the Christian Bible The Fathers of the Church such as St Augustine and Gregory the Great provided examples of theology in their attempts to reconcile revealed truth and man's philosophical knowledge and deserve attention as pre medieval contributors to medieval intellectual life Avicenna and Averroes Maimonides and Gersonides St Thomas Aquinas and St Bonaventure stand out in the three traditions as special medieval contributors who deserve more attention This second edition of *Historical Dictionary of Medieval Philosophy and Theology* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important persons events and concepts that shaped medieval philosophy and theology This book is an excellent resource for students researchers and anyone wanting to know more about medieval philosophy and theology ***A Short History Western Philosophy* Johannes**

Hirschberger,2019-07-23 A study of the historical development of philosophy both requires and stimulates intellectual detachment The person who limits himself to the present can easily fall a prey to passing fashions he becomes a slave of the latest ism Intellectually rootless and inexperienced he succumbs to something that may exercise considerable attraction at this particular moment but that soon withers and passes For example Ernst Haeckel s theories once exercised an enormous fascination on all sorts of people they were even hailed as the definitive word in philosophy Nowadays they are more likely to cause amusement than anything else The same may be said of Nietzsche s philosophy or materialism or vitalism or idealism

Later Medieval Philosophy John Marenbon,2002-01-22 This introduction to philosophy in the Latin West between 1150 and 1350 combines an historical approach which concentrates on the sources forms and backgrounds of the medieval works with philosophical analysis of thirteenth and fourteenth century writing in terms comprehensible to a modern reader Part One looks at the intellectual and historical context of medieval thought It examines the courses in the medieval universities the methods of teaching the forms of written work the logical techniques used for argument and analysis the translation and the availability of Ancient Greek Arab and Jewish philosophical texts the challenges the new material presented and the various ways in which Western thinkers responded to them Part Two focuses on one important problem in later medieval thought the nature of intellectual knowledge It explains the arguments given by Aristotle his antique commentators and the Arab philosophers Avicenna and Averroes and traces how a series of Western thinkers including Thomas Aquinas and William of Ockham developed modified or rejected them

Michel Foucault Philip Barker,2020-07-24 This unique and original study analyzes Foucault s interaction with the history of ideas undertaking a genealogy of the subject that subverts conventional philosophical history to develop a distinctly Foucauldian intellectual history Through a detailed account of Foucault s work and its relation to the history of ideas Philip Barker shows how that history can be usefully reconceptualised using Foucault s concepts of genealogy and archaeology Locating the emergence of self reflexive consciousness in twelfth century philosophy and elaborating upon autobiography as a philosophical persona Barker argues that this extremely productive approach can be used to analyze the relationship between the history of philosophy psychoanalysis and the transparent subject

The Middle Ages Frank N. Magill,2012-11-12 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography

The 'Metaphysica' of Avicenna (ibn Sīnā) Parviz Morewedge,2015-10-14 In this book first published in 1973 Professor Parviz Morewedge an expert on Islamic philosophy and mysticism provides a critical exposition of one text of ibn Sina Avicenna the great Persian

philosopher who lived from 980 to 1037 The text is his *Metaphysica* in the Danish Nama I ala I The Book of Scientific Knowledge In addition to a translation of the text from Persian into English this edition includes a critical commentary on the major arguments found in the text and notes and references to other texts of ibn Sina as well as to relevant texts of Greek philosophers particularly Aristotle Plotinus and Proclus There is also a glossary of the key terms used in the *Metaphysica* with their Persian Arabic Greek and Latin equivalents where necessary This book is concerned primarily to show that although in the text ibn Sina resorts to the Aristotelian vocabulary and Neo Platonic themes and appears to be in accord with the Islamic tradition there is evidence that many doctrines expressed by him may be considered non Greek and non Islamic These include his peculiar doctrine of Self nafs and the doctrine of the Necessary Existent wajib al wujud The author attempts to clarify the extent to which salient features of ibn Sina s position are in agreement with what may be regarded as Sufic doctrines

Intellectual Traditions at the Medieval University (2 vol. set) Russell Friedman,2012-10-12 This book traces the rise and decline of two rival intellectual traditions in later medieval trinitarian theology one of them predominantly Franciscan the other predominantly Dominican Disagreeing about the way to understand the identification in John s Gospel of the second person of the Trinity the Son with the Word the two traditions clashed over the issues of concepts and concept formation the category of relation counterfactual logic and the use of authority Considering more than seventy theologians from the period the book presents an overview of the debate while also including detailed studies of the trinitarian views of such thinkers as Thomas Aquinas Henry of Ghent John Duns Scotus Peter Auriol William Ockham Walter Chatton and Gregory of Rimini

Aquinas's Theory of Perception Anthony J. Lisska,2016-06-03 Anthony J Lisska presents a new analysis of Thomas Aquinas s theory of perception While much work has been undertaken on Aquinas s texts little has been devoted principally to his theory of perception and less still on a discussion of inner sense The thesis of intentionality serves as the philosophical backdrop of this analysis while incorporating insights from Brentano and from recent scholarship The principal thrust is on the importance of inner sense a much overlooked area of Aquinas s philosophy of mind with special reference to the vis cogitativa Approaching the texts of Aquinas from contemporary analytic philosophy Lisska suggests a modest innate or structured interpretation for the role of this inner sense faculty Dorothea Frede suggests that this faculty is an embarrassment for Aquinas to the contrary the analysis offered in this book argues that were it not for the vis cogitativa Aquinas s philosophy of mind would be an embarrassment By means of this faculty of inner sense Aquinas offers an account of a direct awareness of individuals of natural kinds referred to by Aquinas as incidental objects of sense which comprise the principal ontological categories in Aquinas s metaphysics By using this awareness of individuals of a natural kind Aquinas can make better sense out of the process of abstraction using the active intellect intellectus agens Were it not for the vis cogitativa Aquinas would be unable to account for an awareness of the principal ontological category in his metaphysics

Contingency and Freedom Anthonie Vos Jaczn., Henri Veldhuis, Aline H. Looman-Graaskamp, E. Dekker, Nico W. den Bok, 2013-04-17 During the seventies there was a revival of systematic philosophy in general and of ontology in particular At the same time especially in Anglo Saxon thinking systematic philosophy interacted very creatively with the history of medieval philosophy It seems to us that the work of John Duns Scotus 1266 1308 could substantially benefit these developments Not only this but his works cries out to be developed across the whole spectrum of theology that science which in the Middle Ages ruled all others regina scientiarum This book is the outcome of several years of scholarship and friendship during which guided by Dr A Vos we have studied the work of Scotus Our research group is connected to the Theological Faculty of Utrecht and to the Dutch Franciscan Study Centre Stichting Franciscaans Studiecentrum This study presents a translation and commentary of Lectura I 39 which in our view is notable as one of the key texts in the history of systematic theology and philosophy In this book we have used specialist language and argumentation but at the same time have taken pains to make it useful to a circle of interested readers wider than simply that of those well versed in medieval scholasticism In this way we hope to present the difficult but instructive work of the subtle master doctor subtilis in such a way as to make it attractive to other scholars and students in theology and philosophy

Science and Religion Lucas F. Johnston, Whitney Bauman, 2014-02-05 This collection offers new perspectives on the study of science and religion bringing together articles that highlight the differences between epistemological systems and call into question the dominant narrative of modern science The volume provides historical context for the contemporary discourse around religion and science detailing the emergence of modern science from earlier movements related to magic and other esoteric arts the impact of the Reformation on science and the dependence of Western science on the so called Golden Age of Islam In addition contributors examine the impacts of Western science and colonialism on the ongoing theft of the biological resources of traditional and indigenous communities in the name of science and medicine The volume's multi-perspectival approach aims to refocus the terms of the conversation around science and religion taking into consideration multiple rationalities outside of the dominant discourse

Aquinas F. Copleston, 1991-07-25 Aquinas 1224 74 lived at a time when the Christian West was opening up to a wealth of

Greek and Islamic philosophical speculation An embodiment of the thirteenth century ideal of a unified interpretation of reality in which philosophy and theology work together in harmony Aquinas was remarkable for the way in which he used and developed this legacy of ancient thought an achievement which led his contemporaries to regard him as an advanced thinker Father Copleston's lucid and stimulating book examines this extraordinary man whose influence is perhaps greater today than in his own lifetime and his thought relating his ideas wherever possible to problems as they are discussed today

Christology and Atonement Guus H. Labooy, 2024-02-15 This scotistic study in analytical theology presupposes Conciliar Christology and aims at a more profound understanding of two vital and connected Christian doctrines Christology and atonement The beating heart of the first part is Duns Scotus's compelling analysis of the incarnation his uniquely successful analysis of the hypostatic union Following Marilyn McCord Adams Guus H Labooy argues that the problem of Christological predication can be solved by probing the metaphysical backbone of qua propositions expressions like as regards his Godhead and as regards his manhood Labooy dedicates the second part of the book to the analysis of atonement especially to its most controversial aspect penal substitution The Messiah dying for our sins is perhaps the storm centre of the confrontation between Christian faith and the secular intellectual mindset Labooy argues on exegetical grounds that all the current models of atonement are complementary None of them should be discarded and neither should penal substitution The account of penal substitution or vicarious penance he defends is shaped with the decisive aid of Scotus's analytical tools
