Gaydon, 2012-08 THE YEAR WAS 2070 A D and the past years hung heavy on the planet Earth The golden age of recycling had literally smashed headlong into the wanton destruction of desert warfare of years before As it had many times in the past mankind s demand for his neighbors land Legends become real And reality becomes more unbelievable that anything you could ever dream and the wealth it contained both on it and under it had brought carnage Death this time was greedy and it had demanded a larger share of the spoils It had not been content to take just the souls of the fallen soldier s dying in the desert sand no it wanted the innocent as well Man found he contribute to his own death by burning oil well sites killing whole town with poison gases The land became a toxic wasteland crude oil spills clogged the ocean and spilled onto beaches hundreds of miles away In her dying gasp Mother Nature lost control Africa was now a total sand dune and only bones remained of its once large herds of animals The people could do nothing but die or be blown out into the ocean which it self was dying South America was now more closely resembling old Africa a vast expansion of treeless landscape slowly drying up from the heat All over the world people cried out for water as cycles of drought plagued all countries In her gasping breath the once green Earth answered back by delivering her life s blood back to the land She melted the ice fields to bring the water back to the land One man in California had the foresight to see what was coming and had created a means to wall off the land and in doing so had created an island of life He was a design engineer with a gift of imagination few had His talent is but to the test as he finds an ancient relic from a city that had been a fable in the minds of

man for thousands of years He discovers the artifact to be the key to visiting the living past but he must look to the stars for the Atlantis of our lost legends for he has found it to be a spaceship Here is the story of how one man changes the course of the history of Earth and countless galaxies millions of light years from him By picking up a harmless looking crystal he finds contains within an ancient sphere whose origin is anywhere but earth s **Looking to the Stars** Rhoda Bennett,2011-03

Duemler,1993 This book attempts to provide an ethical foundation with which to address the question Should we spread life beyond Earth It examines the material conditions of the solar system the limits of consciousness the limits of society and the long term possibilities of sending human life out into the universe The author delineates the ethical criteria of sentient life and considers justifications of space travel for the purpose of human expansion Duemler gives special attention to the utilitarian explanation which concludes that if life did gnyad throughout the solar system or even the galaxy then this would serve to

increase the amount of sentient life and if life in the new world is a balanced positive is therefore a positive event Three main issues drawing upon both science and philosophy fall at the center of the discussion supporting evidence not based on questionable dogma nor requiring huge intuitive leaps of faith it must square with natural selection and have biological plausibility and it must have inherent value not requiring underlying conditions for a judgement to pass *The Call of the Stars: Abraham Counts the Promise* Ahmed Musa ,2024-12-12 A barren land A starry sky A promise that spans generations In a moment of divine revelation God calls Abraham to look up at the stars and count them an impossible task meant to symbolize the countless descendants He would give him In *The Call of the Stars* we explore the profound significance of this promise and how Abraham's faith transformed not only his own life but the future of nations In this book you'll discover The powerful covenant God made with Abraham and what it meant for Israel the Church and the world The role of faith and obedience in receiving God's promises as Abraham trusted God even when the promise seemed impossible The implications of the stars as a symbol of God's eternal faithfulness to His people How Abraham's journey illustrates the tension between waiting and trusting as he counted the stars and waited for God to fulfill His word The deeper spiritual truths of God's promises to us today how we can claim the same trust in His faithfulness even in uncertain times Abraham's story isn't just about one man's faith it's a reminder that God's promises are for all of us stretching far beyond what we can see or comprehend What promises has God given you How can you trust Him even when the stars seem too far to count The story of Abraham is a story of hope faith and an everlasting promise that still impacts us today Step into *The Call of the Stars* and learn how God's promises shine brighter than the stars themselves guiding us toward a future filled with His glory Trust in His promise and count the stars His faithfulness will never fail
