Lord Methuen And The British Army:

Lord Methuen and the British Army Stephen M. Miller, 2012-11-12 This study analyzes the readiness of the British military establishment for war in 1899 and its performance in the South African War 1899-1902. It focuses on the career of Field Marshal Paul Sanford 3rd Baron Methuen whose traditional military training used so effectively in Queen Victoria's small wars was put to the test by the modern challenges of the South African War. A subsidiary aim of this work is to correct and refine the historical consensus that Methuen's campaigning in the South African War was plagued by practical errors and poor judgement. The South African War was a crucial transitional episode in the history of the British army. Unlike Great Britain's other expeditions it required the concentrated resources of the entire empire. It was a modern war in the sense that it employed the technology, the weaponry, the communications and the transportation of the second industrial revolution.

Lord Methuen and the South African War Stephen M. Miller, 1996 **A Cultural History of Firearms in the Age of Empire** Karen Jones, 2016-03-16 Firearms have been studied by imperial historians mainly as means of human destruction and material production. Yet firearms have always been invested with a whole array of additional social and symbolical meanings. By placing these meanings at the centre of analysis, the essays presented in this volume extend the study of the gun beyond the confines of military history and the examination of its impact on specific colonial encounters. By bringing cultural perspectives to bear on this most pervasive of technological artefacts, the contributors explore the densely interwoven relationships between firearms and broad processes of social change. In so doing, they contribute to a fuller understanding of some of the most significant consequences of British and American imperial expansions. Not the least original feature of the book is its global frame of reference. Bringing together historians of different periods and regions, *A Cultural History of Firearms in the Age of Empire* overcomes traditional compartmentalisations of historical knowledge and encourages the drawing of novel and illuminating comparisons across time and space. **The Boer War** John Gooch, 2013-10-23 This collection of essays by leading British and South African scholars looking at the Boer War focuses on three aspects: how the British Military functioned, the role of the Boers, Afrikaners and Zulus, and the media presentation of the war to the public.

The Battle of Magersfontein Garth Benneyworth, 2023-06-30 Magersfontein is an iconic battle fought during the South African War of 1899-1902, also known as the Second Anglo-Boer War. Over 30 years of research informs this book, the first source-referenced history about Magersfontein and the other actions fought in the lead-up to this monumental clash. It details the Kimberly Siege and the intensity of combat fought at Belmont, Graspan, and in particular Modder River, a key battle during the opening months of the war. No shortage of publications exists on the South African War and Magersfontein. Yet myths perpetuate legends, ideologies, hand down errors, fabrications, and sloppy research by self-appointed experts. Many contemporary sources regurgitate without analysis, and many recent publications offer no references to sources. None consult the rich and extensive archives in the Kimberley and Bloemfontein museums, instead using stock standard sources while

ignoring Dutch and Afrikaans language accounts resulting in lopsided narratives To address this the author has used primary sources never before published diaries letters photographs maps battle orders official histories and reports personal reflections regimental histories of the war and survivor interviews collected over 30 years The originals being lodged in archives libraries museums and private collections in the United Kingdom South Africa and Australia Having walked the killing grounds for over three decades the author offers insights into the archaeology and topography of the site also detailing forgotten burial sites of human casualties from all sides Consequently original findings emerge with regards to Boer positioning and tactics a British outflanking manoeuvre at Magersfontein Hill that almost worked and Boer counter attacks and the use of mobility rather than the previously expounded notion that they sat passively parked in trenches as most narratives present Insights into military commanders emerge never before published Importantly the war between the Generals which this work uncovers relying on unpublished recollections of conversations between senior officers from both sides The loathing between two prominent Boer generals as too the incompetence of the leading British General glossed over for 122 years Captured in this infighting were loyal efficient and brave British and Boer commanders and ordinary soldiers from both sides Many of whose voices speak through this narrative for the first time doing justice and testimony to their unique yet terrifying experiences and observations of warfare in Victory and Defeat on the South African Veld

Encyclopedia of African Colonial Conflicts
Timothy J. Stapleton, 2016-11-07. Two volumes introduce the history of colonial wars in Africa and illustrate why African countries like the Democratic Republic of Congo, Nigeria, Somalia and Sudan continue to experience ethnic, political and religious violence in the early 21st century. This sweeping study examines the wars of colonial conquest fought in Africa during the 19th and early 20th centuries. From Britain's efforts to wrest control of the Sudan from military leader Muhammad Ahmad al Mahdi to Italy's decisive defeat at the Battle of Adowa in Ethiopia to Leopold II's brutal reign over the Belgian Congo, the work surveys the devastation reaped upon the continent by colonization and illustrates how its combative influence continues to resonate in Africa today. Written by scholars in the fields of history and politics, this complete reference includes entries on wars, campaigns, rebellions, battles, leaders and organizations. The work delves into key historical periods including the Scramble for Africa (ca. 1880 to 1910), early European colonial wars in Africa such as the Dutch in the Cape and the Portuguese in Angola and Mozambique, and African rebellions against the early colonial state in the 1890s and early 1900s. Entries feature prominent events and personalities as well as lesser-known occurrences and players.
