Lost Child Hope For Kids Without Hope:

The Lost Child Tom Collins,1992 **There Is Hope for a Lost Child** Cheryl Meeks,2020-02-19 There is hope no matter what swirls around us God promises to be our perfect peace He assures us he is constantly with us strengthening and supporting us We must pray that God will help us to keep our eyes and focus on him not on the circumstances surrounding us We must ask him to help us grow and trust believing he is faithful to us Hope no matter what we face in this life we are never in the battle alone God goes before us he s with us every step and he leads the way ahead we must pray and we must stay alert in the dark world God will help us stand strong with him because there is hope in him Hope allow us to feel his presence coving us in all that we are up against There is hope in a lost child you must believe **Outlines of Sermons to Children, with Numerous Anecdotes** ,1914 **Truth and Hope** Walter Brueggemann,2020-02-18 In this varied collection of essays Walter Brueggemann provides a lens into biblical teachings concerning the present age of fake news lies and alternate realities Compiled and edited by Louis Stulman professor of religion at the University of Findlay these essays carry a common theme of truth and hope As Brueggemann writes in the preface there is no doubt that the prophetic tradition regularly engages in truth telling in order to expose social reality as a systemic act of falseness that contradicts the purposes of God The prophetic tradition of Jeremiah for instance is preoccupied with truth telling that exposes falseness The prophet exposes the deceit of dominant culture That same prophetic tradition like many others turns eventually to the work of hope telling Such hope does not doubt that the faithful God can create futures a way out of no way The sequence from truth to hope in the book of Jeremiah is characteristic of the prophetic books of the Old Testament These several prophetic voices that gave canonical shape to the prophetic books knew that this sequence is definingly important There can be no hope until truth is told Our temptation of course is to do the work of hope without the prior work of truth Readers will find this collection of essays to be theologically rooted in the concept of prophetic tradition as a means of truth telling Brueggemann explores that without God truth telling is nothing more than harping and hope telling is only wishful thinking **Action without Hope** Nathan K. Hensley,2025-06-04 A study of how writers from the early phases of our prolonged climate emergency used aesthetic strategies to redefine the category of action What does it feel like to live helplessly in a world that is coming undone Nathan Hensley turns to Victorian literature to uncover a prehistory of this deeply contemporary sense of powerlessness For many in nineteenth century Britain their world seemed so scarred by human rapacity that restoring it seemed beyond the powers of any one individual Like George Eliot s characters in Middlemarch or the doomed lovers of Wuthering Heights observers of the gathering carbon economy felt themselves ensnared by interlocked and broken systems In the face of damage so vast and apparently irreversible what could possibly be done To answer this question Hensley shows that nineteenth century writers and artists devised new ways to understand action and hope They rescaled action away from the grandly heroic and toward minor adjustments and collaborative interventions They turned away from logical proofs and

direct argumentation and instead called on aesthetic technologies like sonnets and fractured lyrics watercolor sketches and vast multiplot novels finding scope for action not at the level of the theme or the thesis but in gestures and details Ranging from J M W Turner s painterly technique to Emily Bront s dreamlike fragments and reading along the way works by Alfred Lord Tennyson H G Wells Lewis Carroll Gerard Manley Hopkins William Berryman Charlotte Bront George Eliot and Christina Rossetti Hensley s study makes an important contribution to Victorian studies and the environmental humanities
