The Lost Italian Renaissance Christopher S. Celenza,2004 **The Oxford Handbook of Hellenic Studies** George Boys-Stones,Barbara Graziosi,Phiroze Vasunia,2009-08-20 The Oxford Handbook of Hellenic Studies is a unique collection of some seventy articles which together explore the ways in which ancient Greece has been is and might be studied It is intended to inform its readers but also importantly to inspire them and to enable them to pursue their own research by introducing the primary resources and exploring the latest agenda for their study The emphasis is on the breadth and potential of Hellenic Studies as a flourishing and exciting intellectual arena and also upon its relevance to the way we think about ourselves today **Emotions in the Household, 1200-1900** S. Broomhall,2007-12-14 This collection asks new questions about the household examining the kinds of positive and negative emotional scope available to household members drawn together by shared economic social and biological needs rather than by blood ties The History of Rhetoric and the Rhetoric of History Nancy S. Struever,2023-05-31 In the articles collected here Nancy Struever explores the basic assumption that rhetoric is not simply a bag of persuasive tricks but functions necessarily as a mode of inquiry investigating not simply the mechanics of production and reception of discourse but the psychological factors of reason and passion engaged by the assertion modification and contest of beliefs and dispositions of the civil communities The first section looks both at contemporary historians employing rhetorical constructs and tactics and at contemporary accounts of the employment of rhetorical pedagogical material and theoretical texts in medieval and Renaissance cultural practices The second set of articles considers change and continuity in the rhetorical exploitation s of genre forms in cultural programs focuses on the strong reorientation of Classical forms of moral inquiry on the ingenious use of the proverb of etymology of the exemplum as well as on the changes in strategies in the theater the novel and art criticism The final section deals with the strong historical interconnections of rhetoric with other disciplines the motives and investigative tactics of medicine and rhetoric in the Renaissance and Early Modernity and the shared interests and interwoven careers of rhetoric and law

Isaac Newton and the Study of Chronology Cornelis Schilt, 2025-10-01 Isaac Newton 1642 1727 is best known for his natural philosophical and mathematical works Yet he devoted ample time to the study of ancient chronology resulting in the posthumously published *The Chronology of Ancient Kingdoms Amended* 1728 Here Newton attempted to show how the antiquity of Greece Egypt Assyria Persia and other Mediterranean nations could be reinterpreted to fit the timespan allowed for by Scripture As the hundreds of books from his library and the thousands of manuscript pages devoted to the topic show the *Chronology* was long in the making This volume provides the first comprehensive analysis of the genesis and evolution of Newton's studies of ancient history and demonstrates how these emerged from that other major scholarly project of his the interpretation of the apocalyptic prophecies in Scripture A careful study of Newton's reading note taking writing and ordering practices provides the key to unravelling and reconstructing the chronology of Newton's chronological studies bringing to light writings hitherto hidden in the archives

Reviving the Eternal City Elizabeth McCahill, 2013-10-14 In 1420 after more than one hundred years of the Avignon Exile and the Western Schism the papal court returned to Rome which had become depopulated dangerous and impoverished in the papacy's absence *Reviving the Eternal City* examines the culture of Rome and the papal court during the first half of the fifteenth century As Elizabeth McCahill explains during these decades Rome and the Curia were caught between conflicting realities between the Middle Ages and the Renaissance between conciliarism and papalism between an image of Rome as a restored republic and a dream of the city as a papal capital Through the testimony of humanists

rhetoical texts and surviving archival materials McCahill reconstructs the niche that scholars carved for themselves as they penned vivid descriptions of Rome and offered remedies for contemporary social economic religious and political problems In addition to analyzing the humanists intellectual and professional program McCahill investigates the different agendas that popes Martin V 1417 1431 and Eugenius IV 1431 1447 and their cardinals had for the post Schism pontificate Reviving the Eternal City illuminates an urban environment in transition and explores the ways in which curialists collaborated and competed to develop Rome s ancient legacy into a potent cultural myth

Permanent Crisis Paul Reitter,Chad Wellmon,2023-04-05 Any reader of the Chronicle of Higher Education can tell you that the humanities are in crisis Seen as irrelevant for modern careers and hopelessly devoid of funding humanistic disciplines seem at the mercy of modernizing forces driving the university towards academic pursuits that pull in grant money and direct students to lucrative careers But as Paul Reitter and Chad Wellmon show this crisis isn t new in fact it s as old as the humanities themselves Today s humanities scholars experience and react to basic pressures in ways that are strikingly similar to the response of their nineteenth century German counterparts In German universities of the 1800s as in those in the United States today humanities scholars felt threatened by the very processes that allowed the modern humanities to flourish such as institutional rationalization and the commodification of knowledge But Reitter and Wellmon also emphasize the constructive side of crisis discourse They claim that the self understanding of the modern humanities didn t merely take shape in response to a perceived crisis it also made crisis a core part of its project The humanities came into their own by framing themselves as a unique resource for resolving crises of meaning and value that threatened other cultural or social goods With this critical historical perspective Permanent Crisis can take humanists beyond the usual scolding exhorting and handwringing into clearer more effective thinking about the fate of the humanities Furthering ideas from Max Weber and Friedrich Nietzsche to Andrew Delbanco and William Deresiewicz Reitter and Wellmon dig into the notion of the humanities as a way to find meaning and coherence in the world
