Lost Worlds Anne T. White,1941-01-01 *Adventures in Archaeology* Anne Terry White,1956 *Tracing Archaeology's Past* Andrew L. Christenson,1989 In 17 critical essays the first book to address the historiography of archaeology evaluates how and why the history of archaeology is written The emphasis in the first section is on how archaeologists use historical knowledge of their discipline For example it can help them to understand the origin of current archaeological ideas to learn from past errors and to apply past research to current questions It can even be integrated into the new liberal arts curricula in an attempt to instruct students in critical thinking The second section considers the sociopolitical context within which past archaeologists lived and worked and the contexts within which historians of archaeology write The topics treated include the rise of capitalism and colonialism and the rise of modern archaeology the political contexts and changing form of the history of Mesoamerican archaeology the decline to obscurity of once prominent archaeologists and the institutional and ideological fossilization of American classical archaeology The final section focuses on researching and presenting the history of archaeology The authors discuss past archaeologists in light of their institutional affiliations the use of historic methods to interpret past archaeological notes and collections and the means of presenting the history of archaeology on videotape The final paper offers a plan for documenting the many records diaries fieldnotes correspondence unpublished reports in public and private hands that contain the history of archaeology **Social History of Archaeology** Kenneth Hudson,1981-06-18 *Art, History, and Postwar Fiction* Kevin Brazil,2018 Art History and Postwar Fiction explores the ways in which twenty century novelists responded to visual art and how writing about art was often a means of commenting on historical developments of the period **Bulletin** United States. hobbit remains on Flores Island the giant heads of Easter Island the lost legacy of Lemuria the ideology and occult mysticism behind Nazi theory and the genetically unique X woman of Siberia He also examines evidence of ancient alien visits and other supernatural phenomena in the distant past Using recent archaeological findings he shows that Siberia and the Amazon may have been cradles of humanity millennia before Africa Sounding the call to continue searching ancient remote and formerly forbidden regions for lost cultures and genetic root races Chouinard offers a new chronology for the emergence of human life and civilization as well as a new mechanism for how and why societies and species change over time By finding lost peoples and their forgotten worlds we can truly begin to understand the human race and learn from its long history
