Donald Hughes,2015-05-11 Although the organizing principle of virtually every world history text is development the editor of this volume maintains that this traditional approach fails to address the issue of sustainability By adopting the ecological process as their major theme the authors show how the process of human interaction with the natural environment unfolded in the past and offer perspective on the ecological crises in our world at the beginning of the 21st century Topics range from broad regional studies that examine important aspects of the global environment that affect nations to a study of the widespread influence of one important individual on his nation and beyond The authors take different approaches but all share the conviction that world history must take ecological process seriously and they all recognize the ways in which the living and non living systems of the earth have influenced the course of human affairs

Encyclopedia of Historians and Historical Writing Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies Expansion and Global Interaction, 1200-1700 David R. Ringrose,2001 A new entry in the Longman World History Series this volume is a perfect supplement to a World History or Western Civilization course as well as introductory courses on Asia Africa or Latin America Each book in the Longman World History Series edited by Michael Adas focuses on a prominent theme process or pattern in global history and treats the topic in a cross cultural and comparative manner In Expansion and Global Interaction 1200 1700 David Ringrose an established historian of Spain and the Spanish empire explores the dynamism that arose everywhere in the world after 1200 and shows how a series of autonomous societies became interdependent on a global scale by 1700 By examining the five major arenas of conflict ranging from Imperial China to the Aztec and Inca Empires he illustrates how political cultural and economic zones of influence expanded and overlapped The author concludes with the observation that by 1700 Europeans were influential across the globe but were not yet dominant in more than a few areas and as of 1700 their power in the nineteenth century would have been hard to predict **The Genesis of Israel and Egypt** Emmet Sweeney,2023-10-01 The Genesis of Israel

and Egypt examines the earliest phase of historical consciousness in the ancient Near East looking in particular at the mysterious origins of Egypt's civilization and its links with Mesopotamia and the early Hebrews. The book takes a radically alternative view of the rise of high civilization in the Near East and the forces which propelled it. The author Emmet Sweeney finds that the early civilizations developed amidst a background of massive and repeated natural catastrophes, events which had a profound effect upon the ancient peoples and left its mark upon their myths, legends, customs, and religions. Ideas found in all corners of the globe, concepts such as dragon worship, pyramid building, and human sacrifice are shown by Sweeney to have a common origin in the cataclysmic events of the period termed the eruptive age by legendary English explorer Percy Fawcett. Terrified and traumatized by the forces of nature, people all over the world began to keep an obsessive watch on the heavens and to offer blood sacrifices to the angry sky gods. These events, which are fundamental to any understanding of the first literate cultures, have nonetheless been completely effaced from the history books and an official history of mankind which is little more than an elaborate fiction now graces the bookshelves of the world's great libraries. Starting with clues unearthed by history sleuth Immanuel Velikovsky and others, Emmet Sweeney takes the investigation further. While the Near Eastern civilizations are generally considered to have taken shape around 3300 BC, about 2,000 years before those of China and the New World, Ages in Alignment demonstrates that they had no 2,000-year head start. All the ancient civilizations arose simultaneously around 1300 BC in the wake of a terrible natural catastrophe recalled in legend as the Flood or Deluge. Sweeney points out that the presently accepted chronology of Egypt is not based on science but on venerated literary tradition. This chronology had already been established in its present form by the third century BC when Jewish historians, utilizing the History of Egypt by the Hellenistic author Manetho, sought to tie in Egypt's history with that of the Bible. Apparent gaps and weird repetitions resulted. Improbable feats like the construction of major cut-stone engineering projects before the advent of steel tools or Pythagorean geometry point to the weaknesses of the traditional view. Taking a more rigorous approach and pointing to solid evidence, Emmet Sweeney shows where names overlap and where one and the same group is mistaken for different peoples in different times.

Volume 1: The Genesis of Israel and Egypt looks at the archaeological evidence for the Flood, evidence now misinterpreted and ignored. This volume examines the rise of the first literate cultures in the wake of the catastrophe and goes on to trace the story of the great migration which led groups of early Mesopotamians westward toward Egypt, where they helped to establish Egyptian civilization. This migration, recalled in the biblical story of Abraham, provides the first link between Egyptian and Hebrew histories. The next link comes a few generations later with Imhotep, the great seer who solved the crisis of a seven-year famine by interpreting Pharaoh Djoser's dream. Imhotep is shown to be the same person as Joseph, son of Jacob.

Handbook of Historical Studies in Education
Tanya Fitzgerald, 2020-04-03. This book offers an in-depth historiographical and comparative analysis of prominent theoretical and methodological debates in the field. Across each of the sections, contributors will draw on specific case studies to

illustrate the origins debates and tensions in the field and overview new trends directions and developments Each section includes an introduction that provides an overview of the theme and the overall emphasis within the section In addition each section has a concluding chapter that offers a critical and comparative analysis of the national case studies presented As a Handbook the emphasis is on deeper consideration of key issues rather than a more superficial and broader sweep The book offers researchers postgraduate and higher degree students as well as those teaching in this field a definitive text that identifies and debates key historiographical and methodological issues The intent is to encourage comparative historiographical perspectives of the nominated issues that overview the main theoretical and methodological debates and to propose new directions for the field **European Elites and Ideas of Empire, 1917-1957** Dina Gusejnova,2016-06-16

Who thought of Europe as a community before its economic integration in 1957 Dina Gusejnova illustrates how a supranational European mentality was forged from depleted imperial identities In the revolutions of 1917 to 1920 the power of the Hohenzollern Habsburg and Romanoff dynasties over their subjects expired Even though Germany lost its credit as a world power twice in that century in the global cultural memory the old Germanic families remained associated with the idea of Europe in areas reaching from Mexico to the Baltic region and India Gusejnova s book sheds light on a group of German speaking intellectuals of aristocratic origin who became pioneers of Europe s future regeneration In the minds of transnational elites the continent s future horizons retained the contours of phantom empires This title is available as Open Access Pastoralists at the Periphery Claudia Chang,Harold A. Koster,1994-05-01 A Baluch tribesman follows his goats as they search for a bit of vegetation a Turkana youth guards his father s cattle against theft by raiders These pastoral inhabitants of mountain and desert waste are considered to be among the most geographically economically and politically peripheral of peoples yet they are not entirely isolated from broader sociopolitical and economic forces The lives of modern pastoralists are greatly affected by the policies of nations and the demands of world markets They may face military control forced settlement stock reduction programs or even efforts at development by governments claiming sovereignty over the lands they roam The authors of this collection of essays examine the impact of capitalism on nineteenth and early twentieth century pastoralists and discuss the historical transformations that have occurred in the lives and societies of herding peoples around the world They argue that pastoralists were not simply passive recipients of change imposed by capitalist polities and that historical and economic factors impinging on their societies were as important as ecological ones Collectively these papers demonstrate that twentieth century pastoralists and their nineteenth century predecessors should not be seen as immutably locked in a pastoral mode of production but rather as actively negotiating encounters between themselves and the expanding power of capitalist states Instructor's Manual to Accompany the Making of the Modern World Robert W. Strayer,1989 **The Unwanted Child** Joel F. Harrington,2009-12-15 The baby abandoned on the doorstep is a phenomenon that has virtually disappeared from our experience but in the early modern world unwanted children were a

very real problem for parents government officials and society The Unwanted Child skillfully recreates sixteenth century Nuremberg to explore what befell abandoned neglected abused or delinquent children in this critical period Joel F Harrington tackles this question by focusing on the stories of five individuals In vivid and poignant detail he recounts the experiences of an unmarried mother to be a roaming mercenary who drifts in and out of his children s lives a civic leader handling the government s response to problems arising from unwanted children a homeless teenager turned prolific thief and orphaned twins who enter state care at the age of nine Braiding together these compelling portraits Harrington uncovers and analyzes the key elements that link them including the impact of war and the vital importance of informal networks among women From the harrowing to the inspiring The Unwanted Child paints a gripping picture of life on the streets five centuries ago

French Emigration to Great Britain in Response to the French Revolution Juliette Reboul,2017-08-25 This book examines diverse encounters between the British community and the thousands of French individuals who sought haven in the British Isles as they left revolutionary and Imperial France This painstaking research into the emigrant archival and memorial presence in Britain uncovers a wealth of underused and alternative sources on this controversial population displacement These include open letters and classified advertisements published in British newspapers insurance contracts as well as lists of addresses and passports drawn up by local authorities These sources question the construction by British loyalists and French migr elites of a stereotyped emigrant figure and their use of the trauma of forced displacement to advance ideological agendas In fact public and private discourses on governmental systems foreigners political and religious dissent and the economic survival of French emigrants demonstrate the heterogeneity of the responses to emigration in Britain Ultimately this book narrates a story in which the emigrant community and its host have been often unnoticeably yet fundamentally transformed by their encounter in both practical and ideological domains

School Acts and the Rise of Mass Schooling Johannes Westberg,Lukas Boser,Ingrid Brühwiler,2019-04-10 This book examines school acts in the long nineteenth century traditionally considered as milestones or landmarks in the process of achieving universal education Guided by a strong interest in social cultural and economic history the case studies featured in the book rethink the actual value the impact and the ostensible purpose of school acts The thirteen national case studies focus on the manner in which school acts were embedded in their particular historical contexts offering a comprehensive and multidisciplinary overview of school acts and the role they played in the rise of mass schooling Drawing together research from countries across the West the editors and contributors analyse why these acts were passed as well as their content and impact This seminal collection will appeal to students and scholars of school acts and the history of mass schooling Chapter 9 of this book is available open access under a CC BY 4 0 license at link.springer.com
