Making Of A Slum:

Making the Modern Slum Sheetal Chhabria, 2019-12-06 In the late nineteenth and early twentieth centuries Bombay was beset by crises such as famine and plague Yet rather than halting the flow of capital these crises served to secure it In colonial Bombay capitalists and governors Indian and British alike used moments of crisis to justify interventions that delimited the city as a distinct object and progressively excluded laborers and migrants from it Town planners financiers and property developers joined forces to secure the city as a space for commerce and encoded shelter types as legitimate or illegitimate By the early twentieth century the slum emerged as a particularly useful category of stigmatization that would animate city making projects in subsequent decades Sheetal Chhabria locates the origins of Bombay's now infamous slum problem in the broader histories of colonialism and capitalism She not only challenges assumptions about colonial urbanization and cities in the global south but also provides a new analytical approach to urban history Making the Modern Slum shows how the wellbeing of the city rather than of its people became an increasingly urgent goal of government positioning agrarian distress famished migrants and the laboring poor as threats to be contained or excluded **The**

Making of a Slum Michael Dorman, 1972 This book presents a smoothly written journalistic account of the decline of an urban neighborhood Hunt's Point in the Bronx New York City The author contrasts the stability and sense of community in Hunt's Point before World War II with the decayed heroin scarred slum of the late 1960s and early 1970s Includes worthwhile interviews and has a good reporter's feel for letting people express themselves but the standard prescriptions for change which have been repeated for two decades offer nothing new Urban and Regional Planning and Development

Rajiv R. Thakur, Ashok K. Dutt, Sudhir K. Thakur, George M. Pomeroy, 2020-02-10 This book discusses urban planning and regional development practices in the twentieth century and ways in which they are currently being transformed It addresses questions such as What are the factors affecting planning dynamics at local regional national and global scales With the push to adopt a market paradigm in land development and infrastructure the relationship between resource management sustainable development and the role of governance has been transformed Centralized planning is giving way to privatization not only in the traditional regions but also in newly emerging regions of Asia Africa and Latin America Further attempts are being made to bring planning related decision making closer to the people who are most affected by it Presenting a collection of studies from scholars around the world and highlighting recent advances in the field the book is a valuable reference guide for those engaged in urban transformations whether as graduate students researchers practitioners or policymakers

Making the Modern Slum Sheetal Chhabria, 2012 By addressing the eventual obfuscation of the once transitioned status of the modern slum dweller this study delineates the bases for the conceptualization of a distinctive third world poverty and urban form *GeoComputational Analysis and Modeling of Regional Systems* Jean-Claude Thill, Suzana Dragicevic, 2017-07-28 The contributed volume collects cutting edge research in GeoComputational Analysis of Regional

Systems The contributions emphasize methodological innovations or substantive breakthroughs on many facets of the socio economic and environmental reality of regional contexts *Future is Urban* Utpal Sharma, Swati Kothary, Vibha Gajjar, 2024-06-07 Global concerns and local problems are increasing not only in urban areas but also in regions where the human impact is minimal The global consequences of exploiting and irreversibly utilising natural resources are becoming evident Climate change characterised by erratic weather patterns and global warming has become prevalent around the world This has resulted in the increased occurrence of many calamities such as floods droughts heat waves and other related disasters The efficacy of decision making processes determines the alternative methods for discovering solutions and ensuring readiness for future advancements These kinds of difficulties require profound contemplation and reflection on concepts from multiple viewpoints and necessitate engaging discussions By implementing nature based solutions NBS and blue and green infrastructure BGI it is possible to mitigate their occurrences and address concerns Journal of the Royal Institute of British Architects ,1926 **The Politics of Urban Land in South Asia** Urmi Sengupta, Kenneth Nielsen, 2025-03-18 Cities in South Asia are homes to one of the highest concentrations of people anywhere in the world and the allocation of land and urban resources and the benefits that can be derived from them in this region have become increasingly contested This book explores the politics of urban land in South Asia and the challenges related to their respective urban futures For most people land comes at a premium and as a result conflicts and contestations over land and urban resources are rife in countries such as India Bangladesh Pakistan Sri Lanka and Nepal as witnessed in the many struggles of low income groups and vulnerable or marginalised communities to fight off dispossession or displacement This book maps current challenges shared across national borders and charts out new directions for future research and land policy With contributions from emerging and established authors the book offers a critical accounting of the situation that exists in urban South Asia while also critically engaging with the current challenges and future directions for land use and land politics The book will be useful to students and researchers of public policy development studies economics urban and regional development studies and sociology as well as to policy makers real estate professionals and commercial firms engaged in property market real estate study in Asia Chapter 10 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **Poverty Amidst Prosperity** Pushpa Agnihotri, 1994 The book contains that there are misconceptions and vague ideas in society about slum settlements A general notion is that the slum dwellers are only a burden and a source of public nuisance It is always acute poverty in the homeland which compels this depressed class to migrate **Housing for All** A.K. Jain, This book titled Housing for All Design Construction and Management by A K Jain is a comprehensive assessment of the housing situation in India which not only traces the path taken by governments so far but also outlines a roadmap for the future The book begins with an overview of the housing scenario in India It discusses various housing

programmes and draws a distinction between affordable housing and adequate housing. The book also draws particular attention to housing issues of special groups such as the elderly, disabled, homeless, migrant and transit workers, students and single women. There is also a discussion on the issue of social and physical infrastructure. The book notes that housing units alone do not constitute housing but infrastructure plays a critical role in the occupancy of housing. The question of reducing the cost of housing has been vexatious for long. Jain deals with this issue in detail and suggests various low cost technologies and house building systems for making housing more affordable. Another issue is that of rental housing. Jain suggests that giving a boost to rental housing through a slew of measures can go a long way in making housing more accessible and bring vacant housing into the market.

Pirate Modernity Ravi Sundaram, 2009-07-30 Focusing on the culture of piracy in the Indian capital, this book looks at what has happened to the city in the wake of the dissemination of the new media and the ways in which it has and will affect urban cultures in an age of globalization.

The Sustainable City VIII (2 Volume Set) S.S. Zubir, C.A. Brebbia, 2013-12-03 With majority of the Earth's people now urban dwellers and cities being the most efficient habitat for the utilisation of resources, it is imperative that we continue to support standards of living and efficiencies of urban areas. However, the urbanisation process has not been without its problems. While much has been done to address the original issues surrounding the quality of urban life, new challenges continue to arise. It is no longer sustainable to achieve improvements by means that require greater and greater energy consumption as we did in the past. Despite their complexity, however, cities are a great laboratory for architects, engineers and other key professionals to apply new ideas and new technology to meet our requirements for more sustainable city environments. Containing papers presented at the latest in a series of conferences organised by the Wessex Institute of Technology, these proceedings split into two volumes address not just environmental, architectural and engineering concerns but also quality of life, security risk and heritage. The diversity of topics and the case studies based on existing projects make the book an important contribution to the literature on urban planning.

Practicing Social Work in Deprived Communities Ana Opačić, 2021-04-12 This contributed volume offers a holistic understanding of social work practice in deprived communities through its thematization of understanding deprived communities globally, the development of competencies for social work practice in and with deprived communities, social work education as a community development tool and the empowerment of social workers in deprived communities. Inequality as a globally recognized challenge is extensively elaborated within the UN Sustainable Development Goals (SDGs) and the Global Agenda program for social work, making this a timely and important contribution to the literature. Deprived communities used in this book to mean slums, ghettos, favelas and low income, remote, underserved, vulnerable, impoverished, underdeveloped, disadvantaged or less favoured communities exist worldwide and are conceptualized under different terms and concepts. For that reason, social work specifically in deprived areas is not sufficiently recognized as a specific field of practice within community work. As a result, this volume features contributions that provide a conceptual clarification of many

different terms that are used for describing deprived communities and offer a systematic literature review on community processes and effects on well being in underdeveloped communities map different fields of social work involvement in deprived communities with concrete practice examples and stress why social work as a profession needs support and how it can be empowered to improve its capacities in deprived communities With international authorship and perspectives on social work approaches for deprived communities from India Sub Saharan Africa North and Central Europe and North America Practicing Social Work in Deprived Communities is an essential resource for social workers social work educators and community development practitioners The text also should be of interest to students of social work as well as other professionals and researchers working within community development and deprived communities **Journal of the Town**

The Imagined Slum Alan Mayne,1993 **The Durable Slum** Liza Weinstein,2014-04-01 In the center of Mumbai next to the city s newest and most expensive commercial developments lies one of Asia s largest slums where as many as one million squatters live in makeshift housing on one square mile of government land This is the notorious Dharavi district best known from the movie Slumdog Millionaire In recent years cities from Delhi to Rio de Janeiro have demolished similar slums at times violently evicting their residents to make way for development But Dharavi and its residents have endured for a century holding on to what is now some of Mumbai s most valuable land In The Durable Slum Liza Weinstein draws on a decade of work including more than a year of firsthand research in Dharavi to explain how despite innumerable threats the slum has persisted for so long achieving a precarious stability She describes how economic globalization and rapid urban development are pressuring Indian authorities to eradicate and redevelop Dharavi and how political conflict bureaucratic fragmentation and community resistance have kept the bulldozers at bay Today the latest ambitious plan for Dharavi s transformation has been stalled yet the threat of eviction remains and most residents and observers are simply waiting for the project to be revived or replaced by an even grander scheme Dharavi s remarkable story presents important lessons for a world in which most population growth happens in urban slums even as brutal removals increase From Nairobi s Kibera to Manila s Tondo megaslums may be more durable than they appear their residents retaining a fragile but hard won right to stay put *The Survey*, 1928 Urban Health Risk and Resilience in Asian Cities R.B. Singh,Bathula Srinagesh,Subhash Anand,2020-04-06 This book focuses on understanding urban vulnerability and risk mitigation advancing good health and wellbeing and analysing resilience measures for various Asian cities Today cities are the dominant human habitat where a large number of environmental social cultural and economic factors have impacts on human health and wellbeing Cities consist of complex dynamic socio ecological and technological systems that serve multiple functions in human health and wellbeing Currently half of Asia s population is urban and that figure is expected to rise to 66 percent by 2050 Since urban areas are often most vulnerable to hazards the people living in them need good health infrastructure facilities and

technological support at various scales As such the need of the hour is to enhance the adaptive capacity strengthen resilience reduce vulnerability and take risk mitigation measures in urban areas which requires a systematic approach based on science policy interface that is transformative trans disciplinary and integrative for a sustainable urban future Global sustainable development goals are closely tied to urban human health and wellbeing 1 the third of the United Nations Sustainable Development Goals is to Ensure healthy lives and promote wellbeing for all at all ages and 2 the eleventh is to Make cities inclusive safe resilient and sustainable By addressing these goals this book offers a highly useful resource for anyone concerned with healthy and resilient cities in Asia today and tomorrow

Global Political Ecology Richard Peet, Paul Robbins, Michael Watts, 2010-12-17 The world is caught in the mesh of a series of environmental crises So far attempts at resolving the deep basis of these have been superficial and disorganized Global Political Ecology links the political economy of global capitalism with the political ecology of a series of environmental disasters and failed attempts at environmental policies This critical volume draws together contributions from twenty five leading intellectuals in the field It begins with an introductory chapter that introduces the readers to political ecology and summarizes the books main findings The following seven sections cover topics on the political ecology of war and the disaster state fuelling capitalism energy scarcity and abundance global governance of health bodies and genomics the contradictions of global food capital s marginal product effluents waste and garbage water as a commodity a human right and power the functions and dysfunctions of the global green economy political ecology of the global climate and carbon emissions This book contains accounts of the main currents of thought in each area that bring the topics completely up to date The individual chapters contain a theoretical introduction linking in with the main themes of political ecology as well as empirical information and case material Global Political Ecology serves as a valuable reference for students interested in political ecology environmental justice and geography
