Bodies in Society Margaret R. Miles, 2008-08-01 Education is about learning to think Much of what we call thinking however is a hodge podge of repetitious self talk opinion and cutting and pasting of second hand ideas Moreover thinking in the present has often been alien to scholars who were tempted to think abstractly But life and thought belong together and require each other as Plotinus pointed out many centuries ago The object of contemplation is living and life and the two together are one Ennead 3 8 8 Presently many women and men in the academic world are thinking concretely within the context of their own lives and with acknowledged accountability to broader communities with whom they think and to whom they are answerable The essays in this volume consider Christianity as an aspect of North American culture bringing the critical tools of the academy to thinking about some of the perplexing and pressing problems of contemporary public life Three interactive and interdependent themes traverse these essays gender the effects of media culture and institutions Each of these themes has been central to Margaret Miles's work for thirty years Each understands corporeality as fundamental both to subjectivity and society Miles finds that Christianity critically appropriated provides ideas and methods for thinking concretely about life in North American society

to an emergent liturgical practice The rise of notions of the soul in relation to medieval thought and practice and the place of death in reformation theology are both covered as is the role of the nineteenth and twentieth century Finally the rise of biblical theology is considered especially in the twentieth century The second part of the book takes up several contemporary models of the theology of death The first pursues a traditional acceptance of an other worldly afterlife the second explores worldly analysis of eternal life as a quality of contemporary existence devoid of any future state The third develops the worldly model and considers a wider sense of self as a part of an ecological view of the world as a divine creation and explores the meaning of birth life and death amidst a divine environment The Theology of Death aims to offer some sharply defined schemes to focus thought in a Christian environment in which death hell and heaven have almost lost their place The topic of hope is a key element and the book explores the birth and fostering of hope within Christian traditions **Pulling the Devil's Kingdom Down** Pamela J. Buddhist Hagiography in Early Japan Jonathan Morris Augustine, 2004-10-21 Hagiographies or idealized biographies which recount the lives of saints bodhisattvas and other charismatic figures have been the meeting place for myth and experience In medieval Europe the lives of saints were read during liturgical celebrations and the texts themselves were treated as sacred objects In Japan it was believed that those who read the biographies of lofty monks would acquire merit Since hagiographies were written or compiled by believers the line between fantasy and reality was often obscured This study of the bodhisattva Gyoki regarded as the monk who started the largest social welfare movement in Japan illustrates how Japanese Buddhist hagiographers chose to regard a single monk's charitable activities as a miraculous achievement that shaped the course of Japanese history
