**America Toons In** David Perlmutter, 2014-03-13 Animation has been part of television since the start of the medium but it has rarely received unbiased recognition from media scholars More often it has been ridiculed for supposedly poor technical quality accused of trafficking in violence aimed at children and neglected for indulging in vulgar behavior These accusations are often made categorically out of prejudice or ignorance with little attempt to understand the importance of each program on its own terms This book takes a serious look at the whole genre of television animation from the early themes and practices through the evolution of the art to the present day Examining the productions of individual studios and producers the author establishes a means of understanding their work in new ways at the same time discussing the ways in which the genre has often been unfairly marginalized by critics and how especially in recent years producers have both challenged and embraced this marginality as a vital part of their work By taking seriously something often thought to be frivolous the book provides a framework for understanding the persistent presence of television animation in the American media and how surprisingly influential it has been

**Songs in Motion** Yonatan Malin, 2010-05-26 Qualities of motion and emotion in song come from poetic images melody harmony and voice leading but they also come from rhythm and meter the flow and articulation of words and music in time This book explores rhythm and meter in the nineteenth century German Lied including songs for voice and piano by Fanny Hensel n e Mendelssohn Franz Schubert Robert Schumann Johannes Brahms and Hugo Wolf The Lied as a genre is characterized especially by the fusion of poetry and music Poetic meter itself has expressive qualities and rhythmic variations contribute further to the modes of signification These features often carry over into songs even as they

are set in the more strictly determined periodicities of musical meter A new method of declamatory schema analysis is presented to illustrate common possibilities for setting trimeter tetrameter and pentameter lines Degrees of rhythmic regularity and irregularity are also considered There has been a wealth of new work on metric theory and analysis in the past thirty years here this research is reviewed and applied in song analysis Topics include the nature of metric entrainment drawing on music psychology metric dissonance hypermeter and phrase rhythm Whereas narrative accounts of the nineteenth century Lied typically begin with Schubert here forms of expansion and elision in songs by Hensel provide a point of departure Repetition links up directly with motion in songs by Schubert including his famous Gretchen am Spinnrade The doubling and reverberation of vocal melody creates a form of interiorized resonance in Schumann's songs Brahms and Wolf are typically understood as polar opposites in the later nineteenth century here the differences are clarified along with deeper affinities Songs by both Brahms and Wolf may be understood as musical performances of poetic readings and in this regard they both belong to a late period of cultural history

**Strike Songs of the Depression** Timothy P. Lynch, 2009-11-12 The Depression brought unprecedented changes for American workers and organized labor As the economy plummeted employers cut wages and laid off workers while simultaneously attempting to wrest more work from those who remained employed In mills mines and factories workers organized and resisted striking for higher wages improved working conditions and the right to bargain collectively As workers walked the picket line or sat down on the shop floor they could be heard singing This book examines the songs they sang at three different strikes the Gastonia North Carolina textile mill strike 1929 Harlan County Kentucky coal mining strike 1931-32 and Flint Michigan automobile sit down strike 1936-37 Whether in the Carolina Piedmont the

Kentucky hills or the streets of Michigan the workers songs were decidedly class conscious All show the workers understanding of the necessity of solidarity and collective action In Flint the strikers sang The trouble in our homestead Was brought about this way When a dashing corporation Had the audacity to say You must all renounce your union And forswear your liberties And we ll offer you a chance To live and die in slavery As a shared experience the singing of songs not only sent the message of collective action but also provided the very means by which the message was communicated and promoted Singing was a communal experience whether on picket lines at union rallies or on shop floors By providing the psychological space for striking workers to speak their minds singing nurtured a sense of community and class consciousness When strikers retold the events of their strike as they did in songs they spread and preserved their common history and further strengthened the bonds among themselves In the strike songs the roles of gender were pronounced and vivid Wives and mothers sang out of their concerns for home family and children Men sang in the name of worker loyalty and brotherhood championing male solidarity and comaraderie Informed by the new social history this critical examination of strike songs from three different industries in three different regions gives voice to a group too often deemed as inarticulate This study the only book length examination of this subject tells history from the bottom up and furthers an understanding of worker culture during the tumultuous Depression years
