Radical History Review 86 Spring 2003 National Myths In The Middle East:

The Middle East Barry Rubin, 2015-03-17 The Middle East is an area of great importance globally yet misperceptions abound Events have made it a region of special interest to the West and so the search for understanding gains momentum This publication is intended to clarify the region s complex history and issues In developing this project the contributors set out to explore seven significant themes that are usually not found in other sources While many books focus on political history and conflicts this two volume work deals specifically with culture religion women economics governance and media as well as the role that the region s modern history has played in shaping its society and worldview *Negotiating for the Past* James F. Goode, 2009-02-17 The discovery of the tomb of Tutankhamun in 1922 was a landmark event in Egyptology that was celebrated around the world Had Howard Carter found his prize a few years earlier however the treasures of Tut might now be in the British Museum in London rather than the Egyptian Museum in Cairo That s because the years between World War I and World War II were a transitional period in Middle Eastern archaeology as nationalists in Egypt and elsewhere asserted their claims to antiquities discovered within their borders These claims were motivated by politics as much as by scholarship with nationalists seeking to unite citizens through pride in their ancient past as they challenged Western powers that still exercised considerable influence over local governments and economies James Goode s analysis of archaeological affairs in Turkey Egypt Iran and Iraq during this period offers fascinating new insight into the rise of nationalism in the Middle East as well as archaeological and diplomatic history The first such work to compare archaeological nationalistic developments in more than one country *Negotiating for the Past* draws on published and archival sources in Arabic English French German Persian and Turkish Those sources reveal how nationalists in Iraq and Iran observed the success of their counterparts in Egypt and Turkey and were able to hold onto discoveries at legendary sites such as Khorsabad and Persepolis Retaining artifacts allowed nationalists to build museums and control cultural heritage As Goode writes Going to the national museum became a ritual of citizenship Western archaeologists became identified in the eyes of many as agents of imperialism thus making their work more difficult and often necessitating diplomatic intervention The resulting negotiations for the past pulled patrons such as John D Rockefeller Jr and Lord Carnarvon archaeologists James Breasted and Howard Carter nationalist leaders Ataturk and Sa d Zaghlul and Western officials Charles Evan Hughes and Lord Curzon into intractable historical debates with international implications that still resonate today *The Oxford Handbook of Contemporary Middle-Eastern and North African History* Jens Hanssen, Amal N. Ghazal, 2021 Features a mix of junior and senior scholars based in the Middle East South East Asia Australia North America and Europe Develops multidisciplinary approaches to history including environmental studies social anthropology law gender political science sociology religious studies and media studies Book jacket *The Berber Identity Movement and the Challenge to North African States* Bruce Maddy-Weitzman, 2011-05-01 Like many indigenous groups that have endured centuries of subordination the Berber Amazigh

peoples of North Africa are demanding linguistic and cultural recognition and the redressing of injustices. Indeed the movement seeks nothing less than a refashioning of the identity of North African states, a rewriting of their history and a fundamental change in the basis of collective life. In so doing it poses a challenge to the existing political and sociocultural orders in Morocco and Algeria while serving as an important counterpoint to the oppositionist Islamist current. This is the first book-length study to analyze the rise of the modern ethnocultural Berber Amazigh movement in North Africa and the Berber diaspora. Bruce Maddy Weitzman begins by tracing North African history from the perspective of its indigenous Berber inhabitants and their interactions with more powerful societies from Hellenic and Roman times through a millennium of Islam to the era of Western colonialism. He then concentrates on the marginalization and eventual reemergence of the Berber question in independent Algeria and Morocco against a background of the growing crisis of regime legitimacy in each country. His investigation illuminates many issues including the fashioning of official national narratives and policies aimed at subordinating Berbers in an Arab nationalist and Islamic-centered universe, the emergence of a counter-movement promoting an expansive Berber imagining that emphasizes the rights of minority groups and indigenous peoples and the international aspects of modern Berberism. *Arabic Literature for the Classroom* Mushin al-Musawi, 2017-04-21. This book presents theoretical and methodical cultural concerns in teaching literatures from non-American cultures along with issues of cross-cultural communication, cultural competency and translation. Covering topics such as the 1001 Nights, Maqamat, Arabic poetry, women's writing, classical poetics, issues of gender, race and class, North African concerns, language acquisition through literature, Arab Spring, writing, women's correspondence, issues connected with the so-called nahdah revival movement in the 19th century and many others, the book provides perspectives and topics that serve in both the planning of new courses and accommodation to already existing programs. *French Mediterraneans* Patricia M. E. Lorcin, Todd Shepard, 2016-05. While the Mediterranean is often considered a distinct unified space, recent scholarship on the early modern history of the sea has suggested that this perspective is essentially a Western one devised from the vantage point of imperial power that historically patrolled the region's seas and controlled its ports. By contrast, for the peoples of its southern shores, the Mediterranean was polymorphous, shifting with the economic and seafaring exigencies of the moment. Nonetheless, by the nineteenth century, the idea of a monolithic Mediterranean had either been absorbed by or imposed on the populations of the region. In *French Mediterraneans*, editors Patricia M. E. Lorcin and Todd Shepard offer a collection of scholarship that reveals the important French element in the nineteenth and twentieth-century creation of the singular Mediterranean. These essays provide a critical study of space and movement through new approaches to think about the maps, migrations and margins of the sea in the French imperial and transnational context. By reconceptualizing the Mediterranean, this volume illuminates the diversity of connections between places and polities that rarely fit models of nation-state allegiances or preordained geographies. **Routledge Handbook of Minorities in the Middle East** Paul S. Rowe, 2018-09-20. The Routledge

Handbook of Minorities in the Middle East gathers a diverse team of international scholars each of whom provides unique expertise into the status and prospects of minority populations in the region The dramatic events of the past decade from the Arab Spring protests to the rise of the Islamic state have brought the status of these populations onto centre stage The overturn of various long term autocratic governments in states such as Tunisia Egypt Libya and Yemen and the ongoing threat to government stability in Syria Iraq and Lebanon have all contributed to a new assertion of majoritarian politics amid demands for democratization and regime change In the midst of the dramatic changes and latent armed conflict minority populations have been targeted marginalized and victimized Calls for social and political change have led many to contemplate the ways in which citizenship and governance may be changed to accommodate minorities or indeed if such change is possible At a time when the survival of minority populations and the utility of the label minority has been challenged this handbook answers the following set of research questions What are the unique challenges of minority populations in the Middle East How do minority populations integrate into their host societies both as a function of their own internal choices and as a response to majoritarian consensus on their status Finally given their inherent challenges and the vast sweeping changes that have taken place in the region over the past decade what is the future of these minority populations What impact have minority populations had on their societies and to what extent will they remain prominent actors in their respective settings This handbook presents leading edge research on a wide variety of religious ethnic and other minority populations By reclaiming the notion of minorities in Middle Eastern settings we seek to highlight the agency of minority communities in defining their past present and future Middle East Report ,2005 2003, 〇〇〇〇 〇〇〇〇〇
