Radical Ecopsychology:

Radical Ecopsychology Andy Fisher, 2012-02-01 Personal in its style yet radical in its vision *Radical Ecopsychology* offers an original introduction to ecopsychology an emerging field that ties the human mind to the natural world In order for ecopsychology to be a force for social change Andy Fisher insists it must become a more comprehensive and critical undertaking Drawing masterfully from humanistic psychology hermeneutics phenomenology radical ecology nature writing and critical theory he develops a compelling account of how the human psyche still belongs to nature This daring and innovative book proposes a psychology that will serve all life providing a solid base not only for ecopsychological practice but also for a critical theory of modern society *Radical Ecopsychology* Andy Fisher, 2002-02-22 Shows the psychological roots of our ecological crisis **Radical Ecopsychology, Second Edition** Andy Fisher, 2013-01-01 Expanded new edition of a classic examination of the psychological roots of our ecological crisis *Radical Ecopsychology* Andy Fisher, 2002-02-21 Shows the psychological roots of our ecological crisis *Radical Ecopsychology, Second Edition* Andy Fisher, 2013-01-01 Expanded new edition of a classic examination of the psychological roots of our ecological crisis *Ecopsychology* Peter H. Kahn (Jr.), Patricia H. Hasbach, 2012 This book takes on that challenge and proposes a reenvisioned ecopsychology

Integral Ecology Sean Esbjörn-Hargens, Michael E. Zimmerman, 2009 Dozens of real life applications and examples of this framework currently in use are examined including three in depth cases studies work with marine fisheries in Hawai i strategies of eco activists to protect Canada s Great Bear Rainforest and a study of community development in El Salvador In addition eighteen personal practices of transformation are provided for you to increase your own integral ecological awareness Jacket *Psychology as the Discipline of Interiority* Jennifer M. Sandoval, John C. Knapp, 2017-02-03 *Psychology as the Discipline of Interiority* is the first collection of essays dedicated to the study and application of Psychology as the Discipline of Interiority a new wave within Analytical Psychology which pushes off from the work of C G Jung and James Hillman The book reflects upon the notion of psychology developed by German psychoanalyst Wolfgang Giegerich whose Hegelian turn sheds light on the notion of soul or psyche and its inner logic and thought forming a radical new basis from which to ground a modern psychology with soul The book s theme the psychological difference is applied to topics including analytical theory clinical practice and contemporary issues ranging from C G Jung s Mysterium to case studies to the nuclear bomb and the Shoah *Psychology as the Discipline of Interiority* expounds upon the complexity depth and innovativeness of Giegerich s thought reflecting the various ways in which international scholars have creatively explored a speculative psychology founded upon the notion of soul The contributors here include clinical psychologists Jungian analysts and international scholars With a new chapter by Wolfgang Giegerich and a foreword by David Miller *Psychology as the Discipline of Interiority* will be essential reading for depth and clinical psychologists Jungian psychoanalysts in practice and in training and academics and students of post Jungian studies It is also relevant reading for all those interested in the

history of philosophical thought and what it means to think in the highly sophisticated and technological world of the twenty first century

Ecotherapy Martin Jordan, Joe Hinds, 2017-09-16 In this thought provoking book Jordan and Hinds provide a comprehensive exploration of this emerging area of practice Divided into three parts the book offers a unique examination of a range of theoretical perspectives unpacks the latest research and provides a wealth of illuminating practice examples with a number of chapters dedicated to authors own first hand experiences of the positive psychological effects of having contact with nature Whilst the idea of using nature to improve mental and emotional wellbeing has existed for many years growing levels of interest in holistic reciprocal relationships with nature have led to the development of ecotherapy as an explicit field of research This is the much needed academically rigorous yet engaging introduction for counselling and psychotherapy students new to the subject as well as experienced professionals wanting to expand their understanding of this fast paced area of study and practice

The Wiley-Blackwell Handbook of Transpersonal Psychology Harris L. Friedman, Glenn Hartelius, 2013-10-07 THE WILEY BLACKWELL HANDBOOK OF Transpersonal Psychology The new Handbook of Transpersonal Psychology is a necessity today Many transpersonal psychologists and psychotherapists have been waiting for such a comprehensive work Congratulations to Harris Friedman and Glenn Hartelius May this book contribute to an increasingly adventurous creative and vibrant universe Ingo B Jahrsetz President The European Transpersonal Association The Handbook of Transpersonal Psychology is an outstanding comprehensive overview of the field It is a valuable resource for professional transpersonal practitioners and an excellent introduction for those who are new to this wide ranging discipline Frances Vaughan PhD Psychologist author of Shadows of the Sacred Seeing Through Spiritual Illusions Finally the vast literature on transpersonal psychology has been collected in what is clearly the essential handbook for psychologists and others who have either too apologetically endorsed or too critically rejected what undoubtedly will define psychology in the future If you are not a transpersonal psychologist now you will be after exploring this handbook No longer can one dismiss the range of topics confronted by transpersonal psychologists nor demand methodological restraints that refuse to confront the realities transpersonal psychologists explore This is a marvelous handbook critical expansive and like much of what transpersonal psychologists study sublime Ralph W Hood Jr University of Tennessee Chattanooga With contributions from more than fifty scholars this is the most inclusive resource yet published on transpersonal psychology which advocates a rounded approach to human well being integrating ancient beliefs and modern knowledge Proponents view the field as encompassing Jungian principles psychotherapeutic techniques such as Holotropic Breathwork and the meditative practices found in Hinduism and Buddhism Alongside the core commentary on transpersonal theories including holotropic states science with chapters on neurobiology and psychometrics and relevance to feminism or concepts of social justice the volume includes sections describing transpersonal experiences accounts of differing approaches to healing wellness and personal development and material addressing the emerging field of transpersonal studies Chapters on shamanism and psychedelic

therapies evoke the multifarious interests of the transpersonal psychology community The result is a richly flavored distillation of the underlying principles and active ingredients in the field Ecopsychology, Phenomenology, and the Environment Douglas A. Vakoch, Fernando Castrillón, 2014-02-17 This book seeks to confront an apparent contradiction that while we are constantly attending to environmental issues we seem to be woefully out of touch with nature The goal of Ecopsychology Phenomenology and the Environment is to foster an enhanced awareness of nature that can lead us to new ways of relating to the environment ultimately yielding more sustainable patterns of living This volume is different from other books in the rapidly growing field of ecopsychology in its emphasis on phenomenological approaches building on the work of phenomenological psychologists such as Maurice Merleau Ponty This focus on phenomenological methodologies for articulating our direct experience of nature serves as a critical complement to the usual methodologies of environmental and conservation psychologists who have emphasized quantitative research Moreover Ecopsychology Phenomenology and the Environment is distinctive insofar as chapters by phenomenologically sophisticated ecopsychologists are complemented by chapters written by phenomenological researchers of environmental issues with backgrounds in philosophy and geology providing a breadth and depth of perspective not found in other works written exclusively by psychologists Invisible Nature Kenneth Worthy, 2013-08-06 A revolutionary new understanding of the precarious modern human nature relationship and a path to a healthier more sustainable world Amidst all the wondrous luxuries of the modern world smartphones fast intercontinental travel Internet movies fully stocked refrigerators lies an unnerving fact that may be even more disturbing than all the environmental and social costs of our lifestyles The fragmentations of our modern lives our disconnections from nature and from the consequences of our actions make it difficult to follow our own values and ethics so we can no longer be truly ethical beings When we buy a computer or a hamburger our impacts ripple across the globe and dissociated from them we can't quite respond Our personal and professional choices result in damages ranging from radioactive landscapes to disappearing rainforests but we can't quite see how Environmental scholar Kenneth Worthy traces the broken pathways between consumers and clean room worker illnesses superfund sites in Silicon Valley and massively contaminated landscapes in rural Asian villages His groundbreaking psychologically based explanation confirms that our disconnections make us more destructive and that we must bear witness to nature and our consequences Invisible Nature shows the way forward how we can create more involvement in our own food production more education about how goods are produced and waste is disposed more direct and deliberative democracy and greater contact with the nature that sustains us *The Precarious Future of Education* Jan Jagodzinski, 2016-11-30 This volume examines the challenges weighing on the future of education in the face of globalization in the twenty first century Bringing together eleven authors who explore the paradox of an after to the future of education each chapter in this book targets three important areas ecology as understood in the broader framework of globalization and pedagogy curriculum concerns which impact learning and the pervasiveness of technology in

education today **Gaia, Psyche and Deep Ecology** Andrew Fellows, 2019-03-04 Winner of the Scientific Medical Network Book Prize 2019 In *Gaia Psyche and Deep Ecology Navigating Climate Change in the Anthropocene* Andrew Fellows uniquely connects Earth systems Jungian and philosophical approaches to the existential threats that we face today He elucidates the psychological basis of our dysfunctional relationship with nature thereby offering a coherent framework for transforming this in our personal and professional lives Demonstrating the imperative for new ideas that transcend the status quo Fellows tackles unprecedented 21st century challenges such as climate change through his interdisciplinary approach Fellows proposes a worldview informed by depth psychology which radically contradicts the prevailing shibboleths of unlimited economic growth dominion over outer nature and negation of our inner nature To accommodate a broad readership he first introduces the Anthropocene and sufficient basics of systems dynamics Gaia theory and analytical psychology before exploring the mind matter conundrum He then correlates the structure dynamics contents and pathology of Gaia and of psyche critiques the Western Zeitgeist as midlife crisis and establishes parallels between deep ecology and psychological individuation This ground breaking synthesis of Gaia theory analytical psychology and deep ecology reveals synergies which show how we can and why we must relinquish anthropocentrism in order to survive sustainably as equals in and with the natural world Combining Jungian theory with other cutting edge disciplines to inform inspire and heal this book is essential reading not only for Jungian analysts students and scholars but for all including professionals in Earth systems science environmental philosophy and ecopsychology who realise that business as usual is no longer an option **Globalism and Localization** Jeanine Canty, 2019-05-16 Considering the context of the present ecological and social crisis this book takes an interdisciplinary approach to explore the relationship between globalism and localization Globalism may be viewed as a positive emergent property of globalization The latter depicts a worldwide economic and political system and arguably a worldview that has directly increased planetary levels of injustice poverty militarism violence and ecological destruction In contrast globalism represents interconnected systems of exchange and resourcefulness through increased communications across innumerable global diversities In an economic cultural and political framework localization centers on small scale communities placed within the immediate bioregion providing intimacy between the means of production and consumption as well as long term security and resilience There is an increasing movement towards localization in order to counteract the destruction wreaked by globalization yet our world is deeply and integrally immersed within a globalized reality Within this collection contributors expound upon the connection between local and global phenomenon within their respective fields including social ecology climate justice ecopsychology big history peace ecology social justice community resilience indigenous rights permaculture food justice liberatory politics and both transformative and transpersonal studies

Posthuman Possibilities of Dance Movement Psychotherapy Caroline Frizell, 2023-10-13 This timely book explores an eco feminist approach to dance movement psychotherapy with an emphasis on the posthuman possibilities of differently

enabled bodies and fostering social political and environmental justice Using the lenses of posthumanism and new materialism this book examines the points of convergence among dance movement psychotherapy eco psychotherapy and critical disability studies It maps out the experience of building care empathy and kinship and explores ecologically informed embodied practices and research while offering new perspectives on these practices Structured using thematic interruptions between chapters to anchor the reading experience and provide coherence chapters include case study extracts as examples from the practice spanning group work and individual therapy with autistic and learning disabled children and young people as well as with neurotypical adult clients in private practice Bringing together practice and research in dance movement psychotherapy along with cutting edge theoretical perspectives of new materialism and posthumanism the book will be of great interest to researchers and students of dance therapy arts therapies eco psychotherapy and disability studies It will also be useful to practitioners and therapists in psychotherapy and well being services *An Ecology of Communication* William Homestead, 2021-04-20 An Ecology of Communication addresses an ecological and communicative dilemma the universe earth and socio cultural life world are resoundingly dialogic yet we have created modern and postmodern cultures largely governed by monologue This book is indispensable reading for scholars and students of communication ecology and social sciences as it moves readers beyond the anthropocentric bias of communication study toward a listening based model of communication an essential move for discerning fitting responses and the call to responsibility in an age of ecocrisis
