Tony Bates,Open University,1981 **The Wireless Past** Emily C. Bloom,2016 Emily Bloom chronicles the emergence of the British Broadcasting Corporation as a significant promotional platform and aesthetic influence for Irish modernism from the 1930s to the 1960s She situates the works of W B Yeats Elizabeth Bowen Louis MacNeice and Samuel Beckett in the context of the media environments that shaped their works Communication Technology Update August E. Grant,Ashley J. Bennington,2014-05-16 Communication Technology Update Third Edition provides the latest information on as many

communication technologies as possible using as many specific statistics on market share units sold etc as possible to allow comparison among the technologies This book is designed to help make sense of the spectrum of communication technologies The text explores the widest possible range of technologies from broadcast to telephony and from wired to wireless In discussing each technology this book will not only deal with the hardware of the technology but also with the software organizational structure political and economic influences and individual users of the technologies Major developments in each of these areas are presented for each technology along with background information to help explain the major factors in the evolution of the technology The first chapter begins by defining communication technology and introducing the umbrella perspective used to present and analyze each technology Following this discussion an overview of the remainder of the book is presented This book targets two groups of users One of which is the group of communication professionals who have a desire to keep up with the latest developments both within and adjacent to their particular fields Second is the group of students who are studying communication technology and need information that is more current than that provided by a textbook and more comprehensive than that found in trade magazines

At a Distance Annmarie Chandler, 2005 The theory and practice of networked art and activism including mail art sound art telematic art fax art Fluxus and assemblings Networked collaborations of artists did not begin on the Internet In this multidisciplinary look at the practice of art that takes place across a distance geographical temporal or emotional theorists and practitioners examine the ways that art activism and media fundamentally reconfigured each other in experimental networked projects of the 1970s and 1980s By providing a context for this work showing that it was shaped by varying mixes of social relations cultural strategies and political and aesthetic concerns At a Distance effectively refutes the widely accepted idea that networked art is technologically determined Doing so it provides the historical grounding needed for a more complete understanding of today's practices of Internet art and activism and suggests the possibilities inherent in networked practice At a Distance traces the history and theory of such experimental art projects as Mail Art sound and radio art telematic art assemblings and Fluxus Although the projects differed a conceptual questioning of the art object combined with a political undermining of dominant art institutional practices animated most distance art After a section that sets this work in historical and critical perspective the book presents artists and others involved in this art re-viewing their work including experiments in mini FM telerobotics networked psychoanalysis and interactive book construction Finally the book recasts the history of networks from the perspectives of politics aesthetics economics and cross cultural analysis
