Radio Active Advertising And Consumer Activism 1935 1947:

Radio Active Kathleen M. Newman, 2004-05-17 Publisher Description **Adman's Dilemma** Paul

Rutherford, 2018-01-01 The Adman's Dilemma is a cultural biography that explores the rise and fall of the advertising man as a figure who became effectively a licensed deceiver in the process of governing the lives of American consumers. Apparently, this personage was caught up in a contradiction both compelled to deceive yet supposed to tell the truth. It was this moral condition and its consequences that made the adman so interesting to critics, novelists, and eventually filmmakers. The biography tracks his saga from its origins in the exaggerated doings of P. T. Barnum, the emergence of a new profession in the 1920s, the heyday of the adman's influence during the post-WW2 era, the later rebranding of the adman as artist, until the apparent demise of the figure symbolized by the triumph of that consummate huckster, Donald Trump. In *The Adman's Dilemma*, author Paul Rutherford explores how people inside and outside the advertising industry have understood the conflict between artifice and authenticity. The book employs a range of fictional and nonfictional sources, including memoirs, novels, movies, TV shows, websites, and museum exhibits, to suggest how the adman embodied some of the strange realities of modernity.

Sound in the Age of Mechanical Reproduction David Suisman, Susan Strasser, 2011-10-11 During the twentieth century, sound underwent a dramatic transformation as new technologies and social practices challenged conventional aural experience. As a result, sound functioned as a means to exert social, cultural, and political power in unprecedented and unexpected ways. The fleeting nature of sound has long made it a difficult topic for historical study, but innovative scholars have recently begun to analyze the sonic traces of the past using innovative approaches. *Sound in the Age of Mechanical Reproduction* investigates sound as part of the social construction of historical experience and as an element of the sensory relationship people have to the world, showing how hearing and listening can inform people's feelings, ideas, decisions, and actions. The essays in *Sound in the Age of Mechanical Reproduction* uncover the varying dimensions of sound in twentieth-century history. Together, they connect a host of disparate concerns, from issues of gender and technology to contests over intellectual property and government regulation. Topics covered range from debates over listening practices and good citizenship in the 1930s to Tokyo Rose and Axis radio propaganda during World War II to CB radio culture on the freeways of Los Angeles in the 1970s. These and other studies reveal the contingent nature of aural experience and demonstrate how a better grasp of the culture of sound can enhance our understanding of the past.

Profit Margins Jeremy Groskopf, 2021-12-07 Between the advent of print advertising and the dawn of radio came cinema ads. These ads aimed at a captive theater audience became a symbol of the developing binary between upper-class film consumption and more consumerist media. In *Profit Margins*, Jeremy Groskopf examines how the ad industry jockeyed for direct advertisement space in American motion pictures. In fact, advertisers who recognized the import of film audiences fought exhibitors over what audiences expected in a theater outing. Looking back at these debates in four case studies, Groskopf reveals that advertising

became a marker of class distinctions in the cinema experience as the film industry pushed out advertisers in order to create a space free of ads. By restricting advertising especially during the rise of high class palatial theaters the film industry continued its ongoing effort to ascend the cultural hierarchy of the arts. An important read for film studies and the history of marketing. Profit Margins exposes the fascinating truth surrounding the invention of cinema advertising techniques and the resulting rhetoric of class division.

The Listener's Voice Elena Razlogova, 2012-10-15. During the Jazz Age and Great Depression radio broadcasters did not conjure their listening public with a throw of a switch; the public had a hand in its own making. *The Listener's Voice* describes how a diverse array of Americans—boxing fans, radio amateurs, down and out laborers, small town housewives, black government clerks, and Mexican farmers—participated in the formation of American radio, its genres, and its operations. Before the advent of sophisticated marketing research, radio producers largely relied on listeners' phone calls, telegrams, and letters to understand their audiences. Mining this rich archive, historian Elena Razlogova meticulously recreates the world of fans who undermined centralized broadcasting at each creative turn in radio history. Radio outlaws, from the earliest squatter stations and radio tube bootleggers to postwar payola, hungry rhythm and blues DJs, provided a crucial source of innovation for the medium. Engineers bent patent regulations. Network writers negotiated with devotees. Program managers invited high school students to spin records. Taken together, these and other practices embodied a participatory ethic that listeners articulated when they confronted national corporate networks and the formulaic ratings system that developed. Using radio as a lens to examine a moral economy that Americans have imagined for their nation, *The Listener's Voice* demonstrates that tenets of cooperation and reciprocity embedded in today's free software, open access, and filesharing activities apply to earlier instances of cultural production in American history, especially at times when new media have emerged.

The Routledge History of American Foodways Michael D. Wise, Jennifer Jensen Wallach, 2016-02-12. *The Routledge History of American Foodways* provides an important overview of the main themes surrounding the history of food in the Americas from the pre-colonial era to the present day. By broadly incorporating the latest food studies research, the book explores the major advances that have taken place in the past few decades in this crucial field. The volume is composed of four parts. The first part explores the significant developments in US food history in one of five time periods to situate the topical and thematic chapters to follow. The second part examines the key ingredients in the American diet throughout time, allowing authors to analyze many of these foods as items that originated in or dramatically impacted the Americas as a whole and not just the United States. The third part focuses on how these ingredients have been transformed into foods identified with the American diet and on how Americans have produced and presented these foods over the last four centuries. The final section explores how food practices are a means of embodying ideas about identity, showing how food choices, preferences, and stereotypes have been used to create and maintain ideas of difference. Including essays on all the key topics and issues, *The Routledge History of American Foodways* comprises work from a leading group of scholars and

presents a comprehensive survey of the current state of the field. It will be essential reading for all those interested in the history of food in American culture.

Republic on the Wire John McMurria, 2017-02 The history of cable television in America is far older than networks like MTV, ESPN and HBO which are so familiar to us today. Tracing the origins of cable TV back to the late 1940s, media scholar John McMurria also locates the roots of many current debates about premium television, cultural elitism, minority programming, content restriction and corporate ownership. *Republic on the Wire* takes us back to the pivotal years in which media regulators and members of the viewing public presciently weighed the potential benefits and risks of a two-tiered television system split between free broadcasts and pay cable service. Digging into rare archives, McMurria reconstructs the arguments of policymakers whose often sincere advocacy for the public benefits of cable television were fueled by cultural elitism and the priority to maintain order during a period of urban Black rebellions. He also tells the story of the people of color, rural residents, women's groups, veterans, seniors and low-income viewers who challenged this reasoning and demanded an equal say over the future of television. By excavating this early cable history and placing equality at the center of our understanding of media democracy, *Republic on the Wire* is a real eye opener as it develops a new methodology for studying media policy in the past and present.

Radical Housewives Julie Guard, 2019-03-14 *Radical Housewives* is a history of Canada's Housewives Consumers Association. This association was a community-based women's organization with ties to the communist and social democratic left that from 1937 until the early 1950s led a broadly based popular movement for state control of prices and made other far-reaching demands on the state. As radical consumer activists, the Housewives engaged in gender-transgressive political activism that challenged the government to protect consumers' interests rather than just those of business while popularizing socialist solutions to the economic crises of the Great Depression and the immediate postwar years. Julie Guard's exhaustive research, including archival research and interviews with twelve former Housewives, recovers a history of women's social justice activism in an era often considered dormant and adds a Canadian dimension to the history of politicized consumerism and of politicized materialism. *Radical Housewives* reinterprets the view of postwar Canada as economically prosperous and reveals the left's role in the origins of the food security movement.

Our Master's Voice James Rorty, 2020-10-15 I was an ad man once, James Rorty writes in this classic dissection of the advertising industry. Steeped in Rorty's leftist politics, *Our Master's Voice* presents advertising as the linchpin of a capitalist economy that it also helps justify. The book set off tremors when it was published in 1934, perhaps because its author so decisively repudiated his former profession. But Rorty and his spirited takedown of publicity were all but forgotten a decade later. The book is a neglected masterpiece, republished in this

The Synchronized Society Randall Patnode,2023-03-17 The Synchronized Society traces the history of the synchronous broadcast experience of the twentieth century and the transition to the asynchronous media that

dominate today Broadcasting grew out of the latent desire by nineteenth century industrialists political thinkers and social reformers to tame an unruly society by controlling how people used their time The idea manifested itself in the form of the broadcast schedule a managed flow of information and entertainment that required audiences to be in a particular place usually the home at a particular time and helped to create water cooler moments as audiences reflected on their shared media texts Audiences began disconnecting from the broadcast schedule at the end of the twentieth century but promoters of social media and television services still kept audiences under control replacing the schedule with surveillance of media use Author Randall Patnode offers compelling new insights into the intermingled roles of broadcasting and industrial post industrial work and how Americans spend their time

Critical Rhetorics of Race Kent A. Ono, 2011-07-11 According to many pundits and cultural commentators the U S is enjoying a post racial age thanks in part to Barack Obama s rise to the presidency This high gloss of optimism fails however to recognize that racism remains ever present and alive spread by channels of media and circulated even in colloquial speech in ways that can be difficult to analyze In this groundbreaking collection edited by Michael G Lacy and Kent A Ono scholars seek to examine this complicated and contradictory terrain while moving the field of communication in a more intellectually productive direction An outstanding group of contributors from a range of academic backgrounds challenges traditional definitions and applications of rhetoric From the troubling media representations of black looters after Hurricane Katrina and rhetoric in news coverage about the Columbine and Virginia Tech massacres to cinematic representations of race in Crash Blood Diamond and Quentin Tarantino s films these essays reveal complex intersections and constructions of racialized bodies and discourses critiquing race in innovative and exciting ways Critical Rhetorics of Race seeks not only to understand and navigate a world fraught with racism but to change it one word at a time
