Radio In Australia:

Changing Stations Bridget Griffen-Foley, 2009 Immediate intimate portable and inexpensive radio is the most pervasive medium in Australia Changing Stations is the first full scale national history of commercial radio in Australia from the experiments and schemes of the 1920s through to the eve of the introduction of digital radio in 2009 **Radio Wars** Errol Hodge, 1994-06-19 Radio Australia the multilingual overseas radio service of the Australian Broadcasting Corporation is little known in Australia but is heard by millions of listeners in the Asia Pacific region and others throughout the world Radio Wars first published in 1995 was the first book to tell the story of this important but unexplored aspect of Australia's international presence Launched in 1939 as a propaganda tool the service was for three decades caught uncomfortably between those who would use it as an instrument of foreign policy and those who would have it an icon of journalistic integrity But the author argues that by the time of the Dili massacre propaganda had given way to forthright and factual reporting Spiced with anecdotal detail Radio Wars traces a struggle that ranges from personal pettiness to events with significant political ramifications *The Politics of Language in Australia* Uldis Ozolins, 1993-05-28 This book traces language policy in Australia from World War II to the present examining the changes in government policy over this time and changes in major public institutions due to the presence of these languages The major focus is on changes in the education and broadcasting systems with attention also to interpreting translating industrial relations and the role of languages in diplomacy and trade Dr Ozolins places language in the context of multicultural politics and shows that government language policies that were once prompted by suspicion now accept and even encourage cultural and linguistic maintenance In fact Australia has introduced many innovations of international significance in language policy particularly with the National Language Policy announced in 1987 This policy marked a decisive change in political assumptions toward languages in postwar Australia because it recognized the importance of languages other than English [Radio Australia News Index, 1946-66](#) Radio Australia, 1966
